

Contents

1 New Perspectives on the Evolution of Late Palaeozoic and Mesozoic Terrestrial Tetrapods	1
T.S. Kemp	
2 The Origin, Early History and Diversification of Lepidosauromorph Reptiles	27
Susan E. Evans and Marc E.H. Jones	
3 <i>Rahiolisaurus gujaratensis</i>, n. gen. n. sp., A New Abelisaurid Theropod from the Late Cretaceous of India	45
Fernando E. Novas, Sankar Chatterjee, Dhiraj K. Rudra, and P.M. Datta	
4 Pterosauria from the Late Triassic of Southern Brazil	63
J.F. Bonaparte, C.L. Schultz, and M.B. Soares	
5 Bone Histology of a Kannemeyeriid Dicynodont <i>Wadiasaurus</i>: Palaeobiological Implications	73
Sanghamitra Ray, Saswati Bandyopadhyay, and Ravi Appana	
6 Indian Cretaceous Terrestrial Vertebrates: Cosmopolitanism and Endemism in a Geodynamic Plate Tectonic Framework	91
A. Sahni	
7 The Wandering Indian Plate and Its Changing Biogeography During the Late Cretaceous-Early Tertiary Period	105
Sankar Chatterjee and Christopher Scotese	
Index	127
