

Table of Contents

1	Introduction	1
1.1	MicroRNAs	1
1.2	MicroRNA maturity and function	2
1.3	MicroRNA in oncology	5
1.4	MicroRNA in skin tumors	7
2	Objectives of this work	15
3	Summary and discussion of this work	17
3.1	Studies on non-melanocytic, epithelial skin tumors	17
3.1.1	Expression of the miRNA maturity enzymes	17
3.1.2	Expression of DGCR8 and the RISC components	21
3.1.3	Expression profiles of microRNAs in basal cell carcinoma	28
3.1.4	miRNA expression profiles in cutaneous squamous cell carcinomas	30
3.2	Examinations on malignant melanoma	36
3.2.1	Expression of the miRNA maturity enzymes, transporters, and RISC components	36
3.2.2	Immunohistochemical study of the miRNA maturity	44
3.2.3	miRNA expression profiles in melanoma	47
4	Closing remarks	53
5	Paper 1: Expression levels of the microRNA processing enzymes Drosha and Dicer in epithelial skin cancer	55
5.1	Introduction	55
5.2	Materials and Methods	56
5.2.1	Subjects	56
5.2.2	RNA isolation and real-time RT-PCR	56
5.2.3	Statistical analyses	57
5.3	Results	58
5.4	Discussion	60
5.5	Conclusion	64
5.6	References	64

6	Paper 2: Expression levels of the microRNA maturing microprocessor complex component DGCR8 and the RNA-induced silencing complex (RISC) components argonaute-1, argonaute-2, PACT, TARBP1 and TARBP2 in epithelial skin cancer	67
6.1	Introduction	67
6.2	Materials and Methods	68
6.3	Results	70
6.4	Discussion	71
6.5	Conclusion	77
6.6	References	77
7	Paper 3: Expression of microRNAs in basal cell carcinoma	81
7.1	Introduction	81
7.2	Materials and Methods	81
7.2.1	Subjects	82
7.2.2	RNA isolation	82
7.2.3	Preparation of labeled miRNA, microarray hybridization and scanning	82
7.2.4	TaqMan quantitative real-time reverse transcription polymerase chain reaction (qRT-PCR)	84
7.2.5	Bioinformatic data analyses	85
7.2.6	Statistical analyses	85
7.2.7	Data mining analysis	86
7.3	Results	86
7.3.1	Quality control	86
7.3.2	Differential miRNA expression based on microarray data	86
7.3.3	Correlation analysis	87
7.3.4	Cluster analysis	87
7.3.5	TaqMan qRT-PCR validation	88
7.3.6	Data mining results	88
7.4	Discussion	88
7.5	Conclusion	96
7.6	Acknowledgements	97
7.7	References	97

8	Paper 4: Microarray analysis of microRNA expression in cutaneous squamous cell carcinoma.....	101
8.1	Introduction	101
8.2	Materials and Methods	102
8.2.1	RNA isolation	102
8.2.2	Preparation of labeled miRNA, microarray hybridization and scanning	102
8.2.3	TaqMan quantitative real-time reverse transcription polymerase chain reaction (qRT-PCR)	103
8.2.4	Bioinformatic Data analyses	104
8.2.5	Statistical analyses	107
8.2.6	Mining Data Analysis	107
8.3	Results	109
8.3.1	Quality control	109
8.3.2	Differential miRNA expression	109
8.3.3	Correlation analysis	109
8.3.4	Cluster analysis	110
8.3.5	TaqMan RT-PCR Validation	112
8.3.6	Mining data analysis results	113
8.4	Discussion	113
8.5	Acknowledgements	120
8.6	References	120
9	Paper 5: The miRNA machinery in primary cutaneous malignant melanoma, cutaneous malignant melanoma metastases and benign melanocytic nevi.....	127
9.1	Introduction	127
9.2	Materials and Methods	129
9.2.1	Subjects	129
9.2.2	RNA isolation and TaqMan real-time reverse transcription polymerase chain reaction (RT-PCR)	129
9.2.3	Statistical analyses	131
9.3	Results	135
9.4	Discussion	136
9.5	Conclusion	148
9.6	Acknowledgements	148
9.7	References	148

10 Paper 6: Immunohistochemical expression patterns of the microRNA-processing enzyme Dicer in cutaneous malignant melanomas, benign melanocytic nevi and dysplastic melanocytic nevi	153
10.1 Introduction	153
10.2 Materials and Methods	154
10.2.1 Subjects	154
10.2.2 Immunohistochemistry	154
10.2.3 Quantitative Evaluation	155
10.2.4 Statistical Analysis	156
10.3 Results	156
10.4 Discussion	158
10.5 Conclusion	160
10.6 References	160
11 Paper 7: Comparative microarray analysis of microRNA expression profiles in primary cutaneous malignant melanoma, cutaneous malignant melanoma metastases and benign melanocytic nevi	163
11.1 Introduction	163
11.2 Materials and Methods	164
11.2.1 Subjects	164
11.2.2 RNA isolation	164
11.2.3 Preparation of labeled miRNA, microarray hybridization and scanning	165
11.2.4 Bioinformatic Data analyses	167
11.2.5 Statistical analysis	169
11.2.6 Microarray data validation	169
11.2.7 Mining data analysis	170
11.3 Results	171
11.3.1 Quality control	171
11.3.2 Correlation analysis	171
11.3.3 Cluster analysis	172
11.3.4 Differential miRNA expression	172
11.3.5 RT-PCR Validation	178
11.3.6 Data mining results	178
11.4 Discussion	179

11.5	Conclusion	201
11.6	Acknowledgements	201
11.7	References	202
12	Paper 8: MicroRNAs and the skin: tiny players in the body's largest organ	211
12.1	Introduction	211
12.2	RNA interference and microRNA discovery	212
12.3	miRNA biogenesis	213
12.4	miRNA function	215
12.5	miRNAs and skin morphogenesis	217
12.6	miRNAs and skin cancer	218
12.7	miRNAs and psoriasis	222
12.8	miRNAs and wound healing	223
12.9	Perspectives and challenges	224
12.10	Conclusion	226
12.11	References	226
13	Paper 9: microRNA in non-melanoma skin cancer	233
13.1	Introduction	233
13.2	miRNA maturation and function	233
13.3	miRNA in basal cell carcinoma	238
13.4	miRNA in cutaneous squamous cell carcinoma	240
13.5	Conclusion	241
13.6	References	242
