|-------------------------------------------------------------|--------------|
| <b>List of Abbreviations</b>                                | <b>XV</b>    |
| <b>List of Variables</b>                                    | <b>XIX</b>   |
| <b>List of Figures</b>                                      | <b>XXIII</b> |
| <b>List of Tables</b>                                       | <b>XXV</b>   |
| <b>1 Introduction</b>                                       | <b>1</b>     |
| 1.1 Preliminaries . . . . .                                 | 1            |
| 1.2 Motivation and Research Questions . . . . .             | 4            |
| 1.3 Structure of the Thesis . . . . .                       | 6            |
| <b>2 Portfolio Selection Problems</b>                       | <b>9</b>     |
| 2.1 Preliminaries . . . . .                                 | 9            |
| 2.1.1 Online and Offline Algorithms . . . . .               | 13           |
| 2.1.2 Mathematical Programming . . . . .                    | 14           |
| 2.1.3 Asset Prices, Conversion Rates and Return Factors . . | 17           |
| 2.2 Selected Portfolio Selection Problems . . . . .         | 19           |
| 2.2.1 General Portfolio Selection Problem . . . . .         | 21           |
| 2.2.2 Constant Rebalancing Problem . . . . .                | 25           |
| 2.2.3 Semi-Portfolio Selection Problem . . . . .            | 27           |
| 2.2.4 Semi-Constant Rebalancing Problem . . . . .           | 29           |
| 2.2.5 Buy-and-Hold Problem . . . . .                        | 32           |
| 2.2.6 Conversion Problem . . . . .                          | 34           |
| 2.3 Standard Working Models . . . . .                       | 38           |
| 2.3.1 Portfolio Selection Problem . . . . .                 | 38           |
| 2.3.2 Conversion Problem . . . . .                          | 39           |
| 2.4 Conclusions . . . . .                                   | 40           |

|          |                                                    |           |
|----------|----------------------------------------------------|-----------|
| <b>3</b> | <b>Performance Evaluation</b>                      | <b>45</b> |
| 3.1      | Preliminaries . . . . .                            | 45        |
| 3.1.1    | Problem Statement . . . . .                        | 46        |
| 3.1.2    | Efficient Markets Hypothesis . . . . .             | 46        |
| 3.1.3    | Time Complexity . . . . .                          | 47        |
| 3.2      | Selected Performance Measures . . . . .            | 48        |
| 3.2.1    | Measures of Return on Investment . . . . .         | 48        |
| 3.2.2    | Measures of Risk . . . . .                         | 50        |
| 3.2.3    | Measures of Risk-adjusted Performance . . . . .    | 52        |
| 3.3      | Selected Benchmarks . . . . .                      | 53        |
| 3.3.1    | Offline Benchmarks: Buy-and-Hold . . . . .         | 54        |
| 3.3.2    | Offline Benchmarks: Constant Rebalancing . . . . . | 55        |
| 3.3.3    | Online Benchmarks . . . . .                        | 56        |
| 3.4      | Statistical Analysis . . . . .                     | 58        |
| 3.4.1    | Selected Statistical Measures . . . . .            | 58        |
| 3.4.2    | Hypothesis Testing . . . . .                       | 61        |
| 3.4.3    | Selected Sampling Techniques . . . . .             | 68        |
| 3.5      | Competitive Analysis . . . . .                     | 71        |
| 3.5.1    | Competitive Ratio . . . . .                        | 72        |
| 3.5.2    | Performance Ratio . . . . .                        | 72        |
| 3.5.3    | Comparative Ratio . . . . .                        | 73        |
| 3.5.4    | Average-Case Competitive Ratio . . . . .           | 73        |
