Preface.....	7
Schedule and Location of Rooms.....	9
Thematic Sessions – Overview	12
Keynotes.....	15
Parallel Sessions 1, 28 September 2016, 15:30 – 17:00 h	19
Session 1.1: Balance	19
Session 1.2: Game Analysis & Tactics.....	28
Session 1.3: Perception & Action	36
Session 1.4: Biological Structures: Support & Recovery.....	44
Parallel Sessions 2, 29 September 2016, 10:30 – 12:00 h	52
Session 2.1: Muscle: Force & Function	52
Session 2.2: Strength: Diagnostics & Training	60
Session 2.3: Neurocognitive Aspects of Movement	66
Session 2.4: Motor Performance	76
Parallel Sessions 3, 29 September 2016, 15:30 – 17:00 h	80
Session 3.1: Motor Control	80
Session 3.2: Training: Methods & Monitoring.....	88
Session 3.3: Motor Learning: Visual Feedback.....	95
Session 3.4: Varia	101
Parallel Sessions 4, 30 September 2016, 10:30 – 12:00 h	108
Session 4.1: Modeling: Varia	108
Session 4.2: Jumping: Training & Assessment	117
Session 4.3: Motor Learning: Varia	124
Session 4.4: Advances in the Study of Perception and Action.....	132
Parallel Sessions 5, 30 September 2016, 12:15 – 14:15 h	139
Session 5.1: Movement & Brain	139
Session 5.2: Perception & Disease	149
Session 5.3: Enhancing auditory and proprioceptive Information to increase Motor Performance	157
Session 5.4: Emerging Technologies to monitor and assist Motor Learning Movement Therapy	168
Poster presentations.....	179
Author index.....	233
