

Contents

1	Microbes in Aerobic and Anaerobic Waste Treatment	1
	Heribert Insam, Ingrid Franke-Whittle, and Marta Goberna	
2	Recent Developments in Bio-Energy Recovery Through Fermentation	35
	R. Braun, B. Drosch, G. Bochmann, S. Weiß, and R. Kirchmayr	
3	Syntrophic Communities in Methane Formation from High Strength Wastewaters	59
	Caroline M. Plugge, Jules B. vanLier, and Alfons J. M. Stams	
4	Biogas Technology – Controlled Gas Flow for Enhanced Mixing, Heating, and Desulfurization	79
	Bernhard Wett and Heribert Insam	
5	Vermicomposting: Earthworms Enhance the Work of Microbes ...	93
	Jorge Domínguez, Manuel Aira, and María Gómez-Brandón	
6	Compost Microbial Activity Related to Compost Stability	115
	An Ceustermans, Jozef Coosemans, and Jaak Ryckeboer	
7	Utility of Molecular Tools in Monitoring Large Scale Composting	135
	Jenni Hultman, Jukka Kurola, Aija Rainisalo, Merja Kontro, and Martin Romantschuk	
8	Production and Utilization of Suppressive Compost: Environmental, Food and Health Benefits	153
	Marco de Bertoldi	

9	Sanitation by Composting	171
	Björn Vinnerås, F. Agostini, and Hakan Jönsson	
10	Microbial Antagonists in Animal Health Promotion and Plant Protection	193
	Viviana Klose, Markus Neureiter, Michaela Mohnl, Herbert Danner, and Christina Donat	
11	Interactions Between Beneficial and Harmful Microorganisms: From the Composting Process to Compost Application	213
	Jacques G. Fuchs	
12	Compost Microbial Populations and Interactions with Plants	231
	Dror Minz, Stefan J. Green, Maya Ofek, and Yitzhak Hadar	
13	Soil Degradation and Rehabilitation: Microorganisms and Functionality	253
	F. Bastida, T. Hernández, and C. García	
14	Do Composts Affect the Soil Microbial Community?	271
	Brigitte A. Knapp, Margarita Ros, and Heribert Insam	
15	Production and Application of Bioorganic Fertilizers for Organic Farming Systems in Thailand: A Case Study	293
	N. Teaumroong, C. Wanapu, Y. Chankum, W. Arjham, S. Sang-Arthit, K. Teaimthaisong, and N. Boonkerd	
16	Challenges, Options and Future Research Needs	313
	Juan Luis Turrion-Gomez and Blanca Antizar-Ladislao	
	Index	323
