

Contents

Part I Defining the Problem of High-Risk SCC

1 Epidemiology and Outcomes of Cutaneous Squamous Cell Carcinoma.....	3
Pritesh S. Karia	
2 Tumor Staging Systems and Prognostic Stratification	29
Anokhi Jambusaria-Pahlajani	

Part II The Science of SCC

3 Genomics of SCC: Tumor Formation, Progression, and Future Therapeutic Implications for High-Risk Cutaneous Squamous Cell Carcinoma.....	67
Catherine Anne Harwood, Charlotte Mary Proby, and Sarah Tuttleton Arron	
4 Molecular and Cellular Interplay in SCC Including Immunomodulation and Clinical Implications	103
Valerie Yanofsky, John A. Carucci, and Günther F.L. Hofbauer	

Part III Management of High-Risk SCC

5 Management of Patients with Multiple SCCs/Field Cancerization.....	127
Sasha Jenkins Haberle, Lauren Rimoin, Myrto Georgia Trakatelli, and Fiona Zwald	
6 Management of High-Risk Primary Tumors Including Nodal Staging	149

Vishal Anil Patel, Christian L. Baum, and Désirée Ratner

7	Management of Local Recurrence and In-Transit Metastasis.....	175
	Vitaly Terushkin and John A. Carucci	
8	Management of Nodal Metastases.....	189
	Michael Veness and Julie Howle	
9	Management of Widely Metastatic and Unresectable Cutaneous Squamous Cell Carcinoma	213
	Glenn J. Hanna, Emily Stamell Ruiz, and Jochen H. Lorch	
10	Immune Dysfunction and Immunosuppression: Impacts on SCC Incidence, Prognosis, and Management.....	223
	Travis W. Blalock and Thomas Stasko	
	Index.....	249
