

Contents

Foreword	vii
Preface	viii
Contributors	ix
1 Introduction	1
2 Minor and Major Complications	2
2.1 Definitions	2
2.2.2 Patient Safety Checklist	2
2.2.3 Periprocedural Documentation	2
2.2 Avoiding Complications	2
2.2.1 Intervention Confusion	2
3 Patient-Related Complications	5
3.1 General Complications Related to Endovascular Procedures	5
3.1.1 Impaired Renal Function.....	5
3.1.2 Known Allergic Reactions to Contrast Material.....	5
3.1.3 Radiation Exposure.....	5
3.1.4 Infection	5
3.2 Management of Vascular Complications	5
3.2.1 Thrombosis.....	6
3.2.2 Arterial Hemorrhage	6
3.2.3 Vessel Perforation.....	6
3.2.4 Distal Embolization	7
3.2.5 Device Malfunction	7
4 Case-Based Procedure-Related Complications	8
4.1 Systemic Complication	8
4.3.2 Lesion Crossing	96
4.3.3 Balloon Inflation	111
4.3.4 Stent Placement	137
4.3.5 Special Procedures and Tools.....	187
4.2 Access-Related Complications	11
4.2.1 Access Creation	11
4.2.2 Access Closure	37
4.2.3 Intravenous Access.....	56
4.3 Lesion Treatment-Related Complications	75
4.3.1 Catheter Guidance and Navigation	75
4.4 Rejected Cases	250
4.5 Pseudocomplications	253

5 **Suggested Further Reading** 263

Books 263

Articles 263

 Biopsy, Chest 263

 Chemoembolization, Hepatic 263

 Drainage 263

 Embolization 263

 Embolization, AV Fistula 263

 Embolization, Uterine Fibroid 263

 Endovascular Repair of Abdominal
 Aortic Aneurysms 263

 Foreign Body Retrieval 263

 General 263

 Infection 263

 Inferior Vena Caval Filters 263

 Radiofrequency Ablation 264

 Transjugular Intrahepatic
 Portosystemic Shunt 264
