### ***Production and Rearing Management***

	<b>Page</b>
Simons, J. (USA) <b>Food economics and consumer choice</b>	<b>1</b>
Müller, A.P. (Brasil) <b>Turkey production in Brasil</b>	<b>12</b>
Ucan, U.S. (Turkey) <b>A general evaluation of turkey Production in Turkey</b>	<b>23</b>
Bosse, H. (Germany) <b>turkey rearing – latest developments with regard to livestock housing and equipment</b>	<b>29</b>
Norci, C. (Italy) <b>Practical management aspects of broody control</b>	<b>31</b>
Blaha, T. (Germany) <b>Biosecurity: Yesterday, Today and Tomorrow</b>	<b>35</b>

### ***Nutrition***

Youssef, I., A. Beineke and J. Kamphues (Germany) <b>Effects of soybean meal and its constituents (potassium, oligosaccharides) and moisture content in litter on prevalence and severity of foot pad dermatitis in young turkeys</b>	<b>40</b>
Bank, S., L. Koddebusch and J. Kamphues (Germany) <b>Digestibility of diets (consisting of supplementary feed and wheat as well as of wheat) in fattening turkeys related to wheat treatment (intact, crushed, ground)</b>	<b>48</b>
Lemme, A and H. Meyer (Germany) <b>Impact of methionine sources on performance of heavy turkeys</b>	<b>56</b>
Spring, P (Switzerland) <b>Nutritional strategies to optimize intestinal defence: The role of specifically selected carbohydrates from the yeast cell wall</b>	<b>66</b>

## ***Production and Welfare***

Beletsky, E.M., R.O. Kulibaba and O.V. Terestchenko (Ukraine) <b>Incubation behaviour in turkey-hens and some ways of its prevention</b>	72
Kulibaba, R.O., E.M. Beletsky and O.V. Terestchenko (Ukraine) <b>Prevention of the incubation behaviour expression in turkey-hens using bromocriptine and heightened zinc content in the diet</b>	82
Custodis, P., B. Berenfeld, H. Hünigen, K. Mainzer, H.M. Hafez and J. Plendl (Germany) <b>A comparative study on proventriculus and gizzard of a modern and a wild-type turkey line</b>	97
Hünigen, H., B. Berenfeld, P. Custodis, K. Mainzer, H.M. Hafez and J. Plendl (Germany) <b>A comparative study on large intestine of a modern and a wild-type turkey line</b>	106
Ferket, P. (USA) <b>Leg problems in turkeys</b>	113
Berk, J (Germany) <b>Effects of different types of litter on performance and pododermatitis in male turkeys</b>	127
Bessei, W and H. Letzguss (Germany) <b>Environmental enrichment and welfare in growing turkeys</b>	135
Mitterer-Istyagin, H., M. Ludewig, R. Ellerich, K. Cramer, T. Bartels, K. Fehlhaber and M. Krautwald-Junghanns (Germany) <b>Animal welfare and commercial turkey rearing: Results of the post-mortem-inspection of commercial turkeys at the processing plant</b>	144
Montella, L. and Vinco, L. (Italy) <b>Report on 8<sup>th</sup> European Symposium on Poultry welfare</b>	150

## ***Production and Intestinal Integrity***

Windhorst, H-W. (Germany) <b>The dynamics of turkey meat production and trade</b>	<b>152</b>
Herlyn, E. (Germany) <b>Volatile energy prices and uncontrollable feed markets – which future situations must turkey producers be prepared for?</b>	<b>169</b>
Uni, Z. (Israel) <b>Post hatch Development of Small Intestinal Function in the Poults and influence factors</b>	<b>175</b>
Zadjian, C. (France) <b>Health Tracking System a new system to manage Intestinal Integrity in Turkeys</b>	<b>176</b>
Schwarzer, K. (Belgium) <b>Improving gut development and supporting animal health through target released feed additives</b>	<b>183</b>
Tellez, G. (USA) <b>The use of Probiotics in turkeys.</b>	<b>191</b>
Hargis, B. (USA) <b>Evidence for <i>Clostridium septicum</i> as a primary cause of cellulitis in commercial turkeys</b>	<b>208</b>
Gad, W., R. Hauck, M. Krüger and H.M. Hafez (Germany) <b><i>Clostridium perfringens</i> in commercial turkey flocks in Germany</b>	<b>217</b>
Chasseignaux, E., Gallard, V. and G. Leveque (France) <b><i>Escherichia coli</i> in turkey production: An epidemiologic study by combined virulence genes and RAPD</b>	<b>222</b>
Bostvironnois, C. and C. Zadjian. (Belgium & France) <b>Managing differently the anticoccidial program leads to better Intestinal Integrity - Field experiences</b>	<b>233</b>

## Turkey Diseases

Maurel, S., D. Toquin, M.L. Men, M. Queguiner and N. Etteradossi (France) <b>Molecular epidemiology study of turkey astroviruses in France</b>	239
Liebhart, D., M. Windisch, and M. Hess (Austria) <b>Oral infection of turkeys with in vitro propagated <i>Histomonas meleagridis</i></b>	248
Hauck, R., S. Balczulat and H.M. Hafez (Germany) <b>Molecular investigations on <i>Histomonas meleagridis</i> detected in Germany between 2004 – 2009</b>	254
Hafez, H.M., A. Lotfi, R. Hauck and K. De Gussem (Germany & Belgium) <b>Efficacy of Paromomycin in the feed against <i>Histomonas meleagridis</i> in experimentally challenged turkey poults.</b>	260
Kempf, I., A.L. Roux, N. Carriou, J. Leorat, G. Leveque, G.L. Pottier, K. De Gussem and N. Etteradossi. (France & Belgium) <b>Impact of Paromomycin treatment on antimicrobial resistance of the digestive flora of turkeys</b>	263
Hazel, K. (UK) <b>Hepatic Lipidosis: Is Carnitine deficiency the underlying cause?</b>	271
Gregersen, R.H., A.M. Bojesen, H. Christensen and M. Bisgaard (Denmark) <b>Molecular characterization of APEC – a precondition for proper understanding and handling of outbreaks</b>	277
Günther, R., M. Bisgaard, and H. Christensen (Germany & Denmark) <b>Unusual outbreak of <i>Pasteurella multocida</i> spp. septica in a turkey flock</b>	287
Grabkowsky, B. (Germany) <b>Qualitative GIS-based risk assessment of avian influenza introduction in the EU-27</b>	292
Behr, K-P., U. Gerdes and K.W. Paschertz (Germany) <b>Low Pathogenic Avian Influenza H5N3 in North-West Germany: Spread and Control</b>	306
Abdelwhab, E.M., A. Arafa, A. Selim, M.K. Hassan, M.M. Aly and H.M. Hafez (Germany & Egypt) <b>Highly pathogenic avian influenza H5N1 in Egypt: Current situation and challenges</b>	308
