1	Introduction	1
1.1	Goals and Contributions	2
1.2	Overview of this Thesis	5
2	Background	7
2.1	Spatial Information	7
2.2	Geovisualization	9
2.3	Geospatial Web Search	15
3	End User Requirements in Geospatial Search	21
3.1	Methods	22
3.2	Results	26
3.3	Discussion	31
4	Urban Characterization from Web Data	35
4.1	Volunteered Geographic Information	35
4.2	Spatial Web Documents	38
4.3	Social Web	43
5	Visualization of Multi-Criteria Geographic Data	47
5.1	Spatial Exploration	47
5.2	Evaluation	51
5.3	Discussion	66
6	Regional Search	73
6.1	Characterizing Information Needs	73
6.2	Searching Relevant Regions	76
6.3	Usability Analysis	83
7	Regional Search Optimization	85
7.1	Particle Swarm Optimization	85
7.2	Computational Intelligence Approaches	98
8	UrbanExplorer: A Web Application Interface	111
8.1	Architecture	111
8.2	Evaluation	113

9 Conclusion	119
9.1 Contribution	119
9.2 Future Work	122
9.3 Summary	124
Figures	125
Bibliography	129
