

Contents

Overview of the Respiratory System	1
S.C. Wood	
Part I Control of Respiration in Aquatic Vertebrates	
Gas Transport and Gill Function in Water-Breathing Fish	5
S.F. Perry, A. Esbaugh, M. Braun, and K.M. Gilmour	
Patterns of Acid–Base Regulation During Exposure to Hypercarbia in Fishes	43
C.J. Brauner and D.W. Baker	
Buoyancy Control in Aquatic Vertebrates	65
B. Pelster	
Gas Exchange and Control of Respiration in Air-Breathing Teleost Fish	99
M.L. Glass and F.T. Rantin	
Effects of Temperature on Cardiac Function in Teleost Fish	121
A.L. Kalinin, M.J. Costa, F.T. Rantin, and M.L. Glass	
Physiological Evidence Indicates Lungfish as a Sister Group to the Land Vertebrates	161
M.L. Glass	
Aestivation in Amphibians, Reptiles, and Lungfish	179
M.L. Glass, J. Amin-Naves, and G.S.F. da Silva	
Part II Evolution of Pulmonary Mechanics and Respiratory Control	
Trade-offs in the Evolution of the Respiratory Apparatus of Chordates	193
S.F. Perry, W. Klein, and J.R. Codd	

Environmental Selection Pressures Shaping the Pulmonary Surfactant System of Adult and Developing Lungs	205
S. Orgeig and C.B. Daniels	
Midbrain Structures and Control of Ventilation in Amphibians	241
L.H. Gargaglioni and L.G.S. Branco	
Comparative Aspects of Hypoxia Tolerance of the Ectothermic Vertebrate Heart	263
H. Gesser and J. Overgaard	
Control of the Heart and of Cardiorespiratory Interactions in Ectothermic Vertebrates	285
E.W. Taylor and T. Wang	
The Endocrine–Paracrine Control of the Cardiovascular System	317
B. Tota and M.C. Cerra	
Stoking the Brightest Fires of Life Among Vertebrates	381
Raul K. Suarez and Kenneth C. Welch	
Part III Respiratory Physiology of Birds: Metabolic Control	
Prenatal Development of Cardiovascular Regulation in Avian Species ...	397
J. Altimiras, D.A. Crossley II, and E. Villamor	
Control of Breathing in Birds: Implications for High-Altitude Flight	429
G.R. Scott and W.K. Milsom	
Part IV Mammalian and Human Physiology	
Peripheral Chemoreceptors in Mammals: Structure, Function and Transduction	451
P. Kumar	
Central Chemosensitivity in Mammals	475
L.K. Hartzler and R.W. Putnam	
Human Exercise Physiology	501
S. Volianitis and Niels H. Secher	
Index	539
