<i>Foreword</i>	ix	<i>Preventing losses of lambs</i>	12
		<i>Avoiding the introduction of pathogens</i>	12
1 Healthy sheep and goats	1	3 Tips on identifying diseases	15
Anatomy and normal physiological functions	1	Disease prevention programme	16
Nutrition	5	<i>Interval between weaning and the next service</i>	16
<i>Feeding of dams</i>	5	<i>Interval between service and early pregnancy</i>	17
<i>Feeding of lambs</i>	5	<i>Interval until the end of pregnancy</i>	17
Sheep keeping	7	<i>Lambing time</i>	17
<i>Hill flocks</i>	7	<i>Herding dogs</i>	17
<i>Paddock keeping</i>	7		
Goat keeping	7	4 Medicine cabinet	18
<i>Indoor keeping</i>	7	Key equipment and materials	18
<i>Pasturing and paddock keeping</i>	8	<i>Handling medication</i>	18
2 Sick sheep and goats	10	5 UK laws governing sheep and goat keeping	19
The concept of disease (health, environment, disease resistance)	10	6 Laboratory testing options for sheep and goat keepers	21
Detection of disease, health monitoring	10	7 Harmful substances and feed poisoning	23
Disease prevention	11		
<i>Feeding and husbandry</i>	11		
<i>General measures: care, disinfection</i>	11		
<i>Specific measures: vaccination, medication</i>	11		

Nitrate/nitrite poisoning	23	Clostridia	46
Photosensitivity	23	Pasteurellosis	48
Moulds in feed	24	Brucellosis	49
Plant poisoning	25	Tuberculosis	50
Heavy metal poisoning	26		
<i>Copper poisoning</i>	26	11 Other pathogens	52
<i>Lead poisoning</i>	27	Mycoplasmas	52
<i>Other heavy metals</i>	27	Q fever	52
8 Metabolic disorders and deficiency diseases	28	12 Protozoan diseases	55
Vitamin deficiency (vitamin A, vitamin B1)	28	Toxoplasmosis	55
Vitamin E and selenium deficiency	29	Sarcocystosis	56
Trace element deficiencies	29	13 Diseases of the skin, wool and coat	58
<i>Copper deficiency (swayback)</i>	29	External parasites (ectoparasites)	58
<i>Iron deficiency</i>	30	Mites	58
<i>Iodine deficiency</i>	31	Biting lice	60
<i>Cobalt deficiency</i>	31	Lice	60
Pregnancy toxæmia	32	Sheep ked	60
Calcium and magnesium deficiency	33	Ticks	60
<i>Calcium deficiency</i>	33	Fly maggot infestation (fly strike)	61
<i>Magnesium deficiency (grass tetany)</i>	33	Black fly infestation	62
Soft bones (rickets)	34	Treatments for ectoparasite infestation	62
Brittle bones (osteomalacia)	34	Fungal skin infections, 'rain scald' and other infections	63
White muscle disease (muscular dystrophy)	35	<i>Fungal skin infections</i>	63
9 Viral infections	36	<i>'Rain scald'</i>	64
Orf	36	Other skin infections	65
Foot-and-mouth disease (FMD)	38	Wool eating	65
Rabies	38		
Scrapie	39	14 Diseases of the eyes, ears and nervous system	66
Maedi-visna (dyspnoea/wasting)	41	Contagious ophthalmia (pink eye)	66
10 Bacterial infections	43	<i>Eye injuries</i>	68
Listeriosis	43	<i>Ear infections</i>	68
Salmonellosis	44	<i>Circling disease [coenurosis]</i>	69
E. coli diarrhoea and septicaemia (watery mouth)	45		

15	Diseases of the bones and joints	71	19	Diseases of the urinary organs	103
	Foot rot (infectious pododermatitis)	71		Urinary stones and sediment (<i>Urolithiasis</i>)	104
	Foot abscess	74		Inflammation of the prepuce	105
	Arthritis	75		Inflammation of the bladder (cystitis)	105
	Broken bones (fractures)	75		Kidney diseases	105
	Contagious ovine digital dermatitis (CDD)	76	20	Diseases of the reproductive organs	107
16	Diseases of the respiratory tract	77		Male reproductive organs	107
	Nasal bot fly	77		<i>Cryptorchidism</i>	108
	Lungworms	78		<i>Small testicles</i>	108
	<i>Large lungworms</i>			<i>Testicular inflammation</i>	
	(<i>Dictyocaulus filaria</i>)	79		(orchitis)	108
	<i>Small lungworms</i>			<i>Epididymitis</i>	109
	(<i>Muellerius capillaris</i>)	80		Female reproductive organs	109
	Pneumonia	80		<i>Metritis</i>	109
	<i>Pulmonary adenomatosis</i>	80		<i>Ringwomb</i>	110
	<i>Other types of pneumonia</i>	81		<i>Vulval infections</i>	111
17	Diseases of the digestive organs	82		<i>Anoestrus and return to oestrus</i>	111
	Mouth, teeth	83		Udder	111
	<i>Necrotising stomatitis</i>	83		<i>Udder inflammation</i>	
	<i>Conditions of the teeth</i>	83		(mastitis)	111
	Forestomachs and abomasum	85		<i>Udder and teat injuries</i>	113
	<i>Rumen acidosis</i>	85	21	Pregnancy and birth	114
	<i>Rumen alkalosis</i>	86		Contagious causes of abortion	114
	<i>Ruminal bloat</i>	86		<i>Enzootic abortion (caused by</i>	
	Intestinal parasites	87		<i>Chlamydomydia abortus</i>)	114
	<i>Coccidia</i>	87		<i>Campylobacter abortion</i>	115
	<i>Gastrointestinal roundworms</i>			<i>Other causes of abortion</i>	116
	(nematodes)	88		Disorders of pregnancy	117
	<i>Tapeworms</i>	95		<i>Vaginal prolapse</i>	117
	Tapeworm cysts	96		<i>Uterine torsion</i>	118
	John's disease (paratuberculosis)	97		<i>Hydrops</i>	118
18	Diseases of the liver	99		<i>Abdominal hernia</i>	119
	Liver fluke disease (fasciolosis)	99		Birth	119
	Necrobacillosis	102		<i>Normal pregnancy and birth</i>	
				119	

<i>Birth problems on the part of the dam</i>	120	<i>Ringworm (trichophytia)</i>	132
<i>Birth problems on the part of the lamb</i>	121	<i>Caseous lymphadenitis (pseudotuberculosis) of sheep and goats</i>	133
<i>Lambing assistance</i>	123	Diseases of the digestive organs	134
<i>Injuries to the birth canal</i>	124	<i>Intestinal parasites</i>	134
<i>Diseases after the birth</i>	125	<i>Johne's disease (paratuberculosis)</i>	134
Newborn lambs	126	Diseases of dairy goats	134
<i>Care and nutrition</i>	126	<i>Calcium and magnesium deficiency</i>	134
<i>Diseases</i>	127	<i>Pregnancy toxæmia (ketosis)</i>	135
22 Diseases particularly affecting goats	129	23 Supplement on viral diseases	136
Infectious diseases	129	Bluetongue disease (BT)	136
<i>Caprine arthritis-encephalitis (CAE)</i>	129	Schmallenberg virus infection	137
Metabolic disorders	130	Resources	139
<i>Copper deficiency (enzootic ataxia) and cerebrocortical necrosis</i>	130	<i>Glossary</i>	139
<i>Iodine deficiency</i>	131	<i>References</i>	140
Skin and coat	132	<i>Index</i>	141
<i>Demodectic mites (hair follicle mites, demodectic mange)</i>	132
