

Contents

List of abbreviations.....	IX
1 General introduction	13
2 Background and state of knowledge	15
2.1 Origin and structure of the MFGM.....	15
2.1.1 Synthesis and secretion of milk fat globules	15
2.1.2 Considerations on the MFGM structure.....	16
2.2 Proteins of the MFGM.....	19
2.2.1 Nomenclature and criteria for the definition of MFGM proteins.....	20
2.2.2 Structural arrangement of MFGM proteins	22
2.2.3 Analytical determination of MFGM proteins	27
2.3 Detailed assessment of methods for the isolation of MFGM material	27
2.3.1 Washing of cream using centrifugal separation of the aqueous phase...28	
2.3.2 Alternative methods for the separation of MFGM material	41
3 Motivation and objectives	47
4 Publications.....	49
4.1 Impact of cream washing on fat globules and MFGM proteins	49
4.1.1 Introduction.....	51
4.1.2 Material and methods	53
4.1.3 Results and discussion	57
4.1.4 Conclusions	65
4.2 Isolation of milk fat globule membrane (MFGM) material by coagulation and diafiltration of buttermilk	67
4.2.1 Introduction.....	68
4.2.2 Material and methods	69
4.2.3 Results and discussion	71
4.2.4 Conclusion.....	74
4.3 Casein precipitation by acid and rennet coagulation of buttermilk: Impact of pH and temperature on the isolation of milk fat globule membrane proteins 75	
4.3.1 Introduction.....	77
4.3.2 Material and methods	79

VII

4.3.3 Results and discussion	82
4.3.4 Conclusions	91
4.4 Protein quantification by means of a stain free SDS-PAGE technology without the need for analytical standards: Verification and validation of the method	93
4.4.1 Introduction	94
4.4.2 Material and methods	97
4.4.3 Results and Discussion	100
4.4.4 Conclusion	107
4.5 Quantification of MFGM proteins in buttermilk and butter serum by means of a stain free SDS-PAGE method	109
4.5.1 Introduction	110
4.5.2 Material and Methods	112
4.5.3 Results and Discussion	116
4.5.4 Conclusion	123
5 Overall discussion and conclusions	125
5.1 Comparison of the applied MFGM isolation methods and conditions	125
5.2 Investigations on the isolation of individual MFGM proteins and correlations to the MFGM structure	128
5.3 Absolute MFGM protein amount of native milk fat globules and MFGM isolates	132
5.4 How to define the MFGM material?	134
5.5 General outlook	135
6 Summary & Zusammenfassung	137
6.1 Summary	137
6.2 Zusammenfassung	140
References	145
