Part I Brain

1	Anatomy	4		
	<i>A. Mueller and R. von Kummer</i>			
1.1	Introduction	4	1.4.3	Deep Gray Matter
1.2	Brain Structures	4	1.4.4	Brainstem and Cerebellum
1.2.1	Cerebrum	4		Midsagittal Plane
1.2.2	Cerebellum	5		Parasagittal Planes
1.2.3	Brainstem	5		Axial Planes
1.2.4	Magnetic Resonance Imaging of Brain Structures	6	1.4.5	Cranial Nerves
1.3	Brain Surface	7		Olfactory Nerves and Olfactory Bulb (Cranial Nerve I)
1.3.1	Illustrative Cases	13		Optic Nerve (Cranial Nerve II)
Case 1		13		Oculomotor Nerve (Cranial Nerve III)
Case 2		13		Trochlear Nerve (Cranial Nerve IV)
Case 3		13		Trigeminal Nerve (Cranial Nerve V)
Case 4		15		Abducens Nerve (Cranial Nerve VI)
1.4	Sectional Imaging Anatomy	15		Facial Nerve (Cranial Nerve VII)
1.4.1	White Matter	15		Vestibulocochlear Nerve (Cranial Nerve VIII) ...
1.4.2	Commissures	15		Glossopharyngeal Nerve (Cranial Nerve IX)
	Corpus Callosum	15	1.5	Vagus Nerve (Cranial Nerve X)
	Anterior Commissure	16		Accessory Nerve (Cranial Nerve XI)
	Posterior Commissure	17		Hypoglossal Nerve (Cranial Nerve XII)
	Commissura Habenularum	17		
2	Vascular Diseases	36		Variants of Brain Anatomy without Clinical Significance
	<i>M. Forsting</i>			
2.1	Cerebral Ischemia	36		Further Reading
2.1.1	Epidemiology	36	2.2	Intracerebral Hemorrhage
2.1.2	Clinical Manifestations and Treatment	36	2.2.1	Epidemiology
2.1.3	Pathogenesis and Pathophysiology	37	2.2.2	Clinical Manifestations and Treatment
	Large-Vessel Disease	38	2.2.3	Pathogenesis and Pathophysiology
	Small-Vessel Disease	40	2.2.4	MRI Findings
	Rare Causes of Stroke	41		Arteriovenous Angiomas
2.1.4	MRI Findings	41		Dural Arteriovenous Fistulas
	Large-Vessel Infarcts	41		Cavernomas
	Small-Vessel Infarcts	44		Capillary Telangiectasia
	Cerebral Amyloid Angiopathy	48		Developmental Venous Anomaly
	Posterior Reversible Encephalopathy	48	2.3	Subarachnoid Hemorrhage
	Other Nonatherosclerotic Vascular Diseases ...	49	2.3.1	Epidemiology
			2.3.2	Clinical Manifestations and Treatment
			2.3.3	Pathogenesis and Pathophysiology
			2.3.4	MRI Findings

2.4	Cerebral Venous Sinus Thrombosis	74	2.4.3	Pathophysiology and Pathogenesis	74
2.4.1	Epidemiology	74	2.4.4	MRI Findings	76
2.4.2	Clinical Manifestations and Treatment	74		Further Reading	77
3	Brain Tumors	80			
	<i>O. Jansen and A. C. Rohr</i>				
3.1	Introduction	80	3.7.3	Pineal Cyst	118
3.2	Astrocytic Tumors	85	3.7.4	Germinoma	119
3.2.1	Pilocytic Astrocytoma	86	3.7.5	Pineal Teratoma	120
3.2.2	Pleomorphic Xanthoastrocytoma	87	3.8	Tumors of the Sellar Region	120
3.2.3	Diffuse Astrocytoma	88	3.8.1	Pituitary Adenoma	120
3.2.4	Anaplastic Astrocytoma and Glioblastoma	89	3.8.2	Craniopharyngioma	123
3.2.5	Gliosarcoma	93	3.8.3	Dysontogenetic Lesions	124
3.2.6	Gliomatosis Cerebri	93		Pars Intermedia and Colloid Cysts	124
3.3	Nonastrocytic Gliomas	95		Rathke Cleft Cyst	125
3.3.1	Olidodendroglioma and Anaplastic Olidodendroglioma	95		Epidermoid	126
3.3.2	Oligoastrocytic Tumor	97		Dermoid	126
3.3.3	Ependymoma	97	3.8.4	Ectopic Neurohypophysis	126
3.3.4	Subependymoma	98	3.8.5	Germinoma	126
3.3.5	Anaplastic Ependymoma	99		Chordoma and Chondroma	127
3.4	Neuroepithelial Tumors	99		Chordoma	127
3.4.1	Gangliocytoma and Ganglioglioma	100		Chondroma	128
3.4.2	Desmoplastic Infantile Ganglioglioma	101	3.8.6	Optic Nerve Glioma	128
3.4.3	Central Neurocytoma	102	3.8.7	Paraganglioma	129
3.4.4	Dysembryoplastic Neuroepithelial Tumor	102	3.8.8	Infundibular Tumor	130
3.4.5	Dysplastic Cerebellar Gangliocytoma (Lhermitte-Duclos Disease)	105	3.9	Metastases	132
3.4.6	Hypothalamic/Tuber Cinereum Hamartoma	106	3.9.1	Meningeal Metastases	132
3.5	Embryonal Tumors	106		Dural Metastases	133
3.5.1	Medulloblastoma	106		Leptomeningeal Metastases	133
3.5.2	Supratentorial Primitive Neuro- ectodermal Tumor	108	3.9.2	Parenchymal Metastases	134
3.6	Meningeal Tumors	108	3.10	Miscellaneous Tumors	135
3.6.1	Meningioma	108	3.10.1	Primary Cerebral Lymphoma	135
3.6.2	Nonmeningeal Mesenchymal Tumors	114	3.10.2	Choroid Plexus Tumors (Choroid Plexus Papilloma and Carcinoma)	138
3.6.3	Hemangiopericytoma	115		Choroid Plexus Cyst	138
3.6.4	Primary Melanocytic Lesion	116		Xanthogranulomas	139
3.7	Pineal Tumors	116	3.10.3	Choroid Plexus Papilloma	139
3.7.1	Pineoblastoma	116	3.10.4	Hemangioblastoma	140
3.7.2	Pineocytoma	118	3.10.5	Peripheral Nerve Sheath Tumor	140
				Schwannoma	141
				Neurofibroma	141
				Neurofibrosarcoma	142
			3.10.6	Esthesioneuroblastoma	142

3.11	Nonneoplastic Cysts and Tumorlike Lesions	143	3.11.4	Epidermoid	148
3.11.1	Arachnoid Cyst	143	3.11.5	Dermoid	148
3.11.2	Neuroepithelial Cyst	146	3.11.6	Lipoma	150
3.11.3	Colloid Cyst	146		Further Reading	151
4	Head Trauma	154			
	<i>W. Wiesmann</i>				
4.1	Introduction and Epidemiology	154	4.4.9	Shearing Injuries (Diffuse Axonal Injury)	165
4.2	Classification and Clinical Grading	154	4.4.10	Intracerebral Hematomas	167
4.3	Magnetic Resonance Imaging of Head Trauma	154	4.4.11	Traumatic Lesions of the Brainstem and Basal Ganglia	167
4.3.1	Role of MRI in Trauma Diagnosis	154	4.4.12	Primary Vascular Lesions	168
4.3.2	Examination Technique	155	4.5	Secondary Traumatic Lesions	169
4.3.3	MRI Detection of Intracranial Hemorrhage	155	4.5.1	Brain Edema	169
4.3.4	Prognostic Value of MRI	156	4.5.2	Herniation Syndromes	170
4.4	Primary Traumatic Lesions	157		Subfalcine Herniation	170
4.4.1	Skull Fractures	157		Descending Transtentorial Herniation	170
4.4.2	Epidural Hematoma	157		Ascending Transtentorial Herniation	170
	Acute Epidural Hematoma	157		Tonsillar Herniation	170
	Chronic Epidural Hematoma	159	4.5.3	Secondary Brainstem Lesions	170
4.4.3	Subdural Hematoma	159	4.5.4	Brain Death	170
	Acute Subdural Hematoma	159	4.5.5	Secondary Vascular Lesions	171
	Chronic Subdural Hematoma	159		Transfalcine Herniation	172
4.4.4	Subdural Hygroma	160		Descending Transtentorial Herniation	172
4.4.5	Traumatic Subarachnoid Hemorrhage	160		Combined Subfalcine and Transtentorial Herniation	172
4.4.6	Intraventricular Hemorrhage	162	4.5.6	Infection	172
4.4.7	Cranial Nerve Injuries	163	4.5.7	Growing Fracture	172
4.4.8	Brain Contusions	163	4.5.8	Chronic Changes After Head Trauma	172
				Further Reading	173
5	Infections	176			
	<i>S. Haehnel</i>				
5.1	Infectious Diseases of the Meninges	176		HIV Encephalitis and Encephalopathy	189
5.2	Infectious Diseases of the Brain Parenchyma	178		Other, Less Common Viral Encephalitides	189
5.2.1	Viral Encephalitis	178		Differential Diagnosis	189
	Herpes Simplex Viral Encephalitis	181	5.2.2	Bacterial Infections	190
	Cytomegalovirus Encephalitis	183		Pyogenic Cerebritis and Bacterial Brain Abscess	190
	Epstein-Barr Virus Encephalitis	184		Neurotuberculosis	196
	Varicella Zoster Virus Encephalitis	184		Lyme Disease	202
	Progressive Multifocal Leukoencephalopathy	184		Neurosyphilis	205
	Congenital Rubella Encephalitis	186		Listeriosis	205
	Tick-Borne Encephalitis	186		Whipple's Disease	207
	Rabies Encephalitis	187	5.2.3	Parasitic Brain Diseases	208
	Measles	188		Toxoplasmosis	208
				Neurocysticercosis	209
				Paragonimiasis	212
				Echinococcosis	212

Amebiasis	213	5.3	Special Aspects of Postnatal (Congenital) Infections	219
Sparganosis	214			
5.2.4 Fungal Infections	214	5.3.1	Infectious Meningitis	219
Aspergillosis	214		Neonates	219
Candidiasis	215		Infants and Small Children	221
Mucormycosis	215	5.3.2	Tuberculous Meningitis	221
Histoplasmosis	216	5.3.3	Brain Abscess	221
Coccidioidomycosis	217	5.3.4	Encephalitis in Children	221
Cryptococcosis	217	5.3.5	Less Common Pediatric Encephalitides ..	222
5.2.5 Rickettsioses	217	5.3.6	Fungal Diseases in Children	222
5.2.6 Transmissible Spongiform Encephalopathies (Creutzfeldt–Jakob Disease)	217		Further Reading	222
6 Multiple Sclerosis and Related Diseases	224			
<i>U. Ernemann, B. Bender, and U. Ziemann</i>				
6.1 Introduction	224	6.5.1	Examination Technique	227
6.2 Epidemiology	224		Conventional Magnetic Resonance Imaging ...	227
6.3 Clinical Manifestations and Treatment	224		New Techniques	230
6.3.1 Clinical Course	224	6.5.2	MRI Findings	234
Categories	224		Primary Demyelinating Diseases	234
6.3.2 Diagnosis	225		Diseases with Secondary Demyelination or	
6.3.3 Treatment and Response	225		Destruction of White Matter	237
6.4 Pathology	226	6.6	Differential Diagnosis	240
6.5 Magnetic Resonance Imaging	227		Further Reading	240
7 Metabolic Disorders	244			
<i>A. Pomschar and B. Ertl-Wagner</i>				
7.1 Introduction	244		Maple Syrup Disease	249
7.2 Magnetic Resonance Imaging in Metabolic Brain Disorders	244		Phenylketonuria	250
7.2.1 Diffusion-Weighted MRI	244	7.4.2	Lowe's Syndrome	250
7.2.2 Magnetic Resonance Spectroscopy	244		Leukodystrophies Primarily Affecting the	
7.3 Normal Myelination in Children	244		White Matter	250
7.4 Metabolic Disorders Primarily Affecting the White Matter	245		Megalencephalic Leukoencephalopathy with	
7.4.1 Leukodystrophies Primarily Affecting the			Subcortical Cysts (Van der Knaap's Disease) ..	250
Deep White Matter	246		Alexander's Disease	250
Adrenoleukodystrophy	246		Cockayne's Syndrome	251
Metachromatic Leukodystrophy	247		Canavan's Disease	252
Krabbe's Disease (Globoid Cell Leukodystrophy)	248		Vanishing White Matter Disease (Leukoencephalopathy with Vanishing White Matter)	252
Merosin-Deficient Congenital Muscular		7.4.3	Galactosemia	252
Dystrophy	249		Hypomyelination Syndromes	252
Homocystinuria (Hyperhomocysteinemia)	249		Pelizaeus–Merzbacher Disease	252
			Hypomyelination with Atrophy of the Basal	
			Ganglia and Cerebellum	254
			Hypomyelination with Congenital Cataract ...	254
			Hypomyelinating Leukodystrophy with	
			Hypodontia and Hypogonadotropic	
			Hypogonadism	254

7.5	Metabolic Disorders Primarily Affecting the Gray Matter	254	7.6	Metabolic Diseases of the White and Gray Matter	259
7.5.1	Huntington's Disease (Huntington's Chorea)	254	7.6.1	Wilson's Disease	259
7.5.2	Sydenham's Chorea (Chorea Minor)	256	7.6.2	Mitochondrial Encephalomyelopathy with Lactic Acidosis and Stroke (MELAS)	259
7.5.3	Neurodegeneration with Brain Iron Accumulation	256	7.6.3	Myoclonic Epilepsy with Ragged Red Fibers (MERRF)	260
	Pantothenate Kinase-Associated Neurodegeneration	256	7.6.4	Leigh's Disease	260
	Infantile Neuroaxonal Dystrophy	257	7.6.5	Glutaric Aciduria	261
7.5.4	Neuronal Ceroid Lipofuscinosis	257		Glutaric Aciduria Type 1	261
7.5.5	Creatine Metabolism Disorders	258		Glutaric Aciduria Type 2	261
7.5.6	Aicardi-Goutieres Syndrome	258	7.6.6	Kearns-Sayre Syndrome	261
7.5.7	Niemann-Pick Disease	258	7.6.7	Zellweger's Syndrome	262
7.5.8	Rett's Syndrome	258	7.6.8	GM1 and GM2 Gangliosidosis	262
7.5.9	Fucosidosis	259		Further Reading	263
8	Degenerative Diseases	266			
	<i>K. Alfke</i>				
8.1	Introduction	266	8.4	Parkinson's Disease and Atypical Parkinsonian Syndromes	272
8.2	Magnetic Resonance Imaging	266	8.4.1	Parkinson's Disease	272
8.3	Neurodegenerative Diseases of the Central Motor System	266	8.4.2	Multiple System Atrophy	273
8.3.1	Wallerian Degeneration	266	8.4.3	Corticobasal Degeneration	276
8.3.2	Hypertrophic Olivary Degeneration	267	8.4.4	Progressive Supranuclear Palsy	276
8.3.3	Amyotrophic Lateral Sclerosis	267	8.5	Neurodegenerative Forms of Dementia	278
8.3.4	Huntington's Disease	269	8.5.1	Alzheimer's Disease	278
8.3.5	Fahr's Disease (Calcification of the Basal Ganglia)	270	8.5.2	Lewy Body Dementia	279
8.3.6	Friedreich's Ataxia	270	8.5.3	Frontotemporal Dementia	281
				Further Reading	283
9	Malformations and Developmental Abnormalities	286			
	<i>B. Ertl-Wagner and I. K. Koerte</i>				
9.1	Embryology	286	9.2.3	Group III Disorders	295
9.2	Abnormalities of Cortical Development	287		Polymicrogyria and Schizencephaly (Group III.A) and Polymicrogyria without Schizencephaly (Group III.B)	295
9.2.1	Group I Malformations	287		Focal Cortical Dysplasia Types I and III (Group III.C)	298
	Microcephaly and Microcephaly with a Simplified Gyral Pattern	287	9.3	Malformations of the Corpus Callosum and Commissures	300
	Megalencephalies (Group I.B) and Hemimegalencephalies	288	9.3.1	Malformations and Syndromes Associated with Agenesis of the Corpus Callosum ...	302
	Focal Cortical Dysplasias Type II (Group I.C) ...	289	9.3.2	Intracranial Lipomas with Corpus Callosum Agenesis	303
9.2.2	Group II Malformations	291	9.3.3	Interhemispheric Cysts with Corpus Callosum Agenesis	304
	Periventricular (Subependymal) Heterotopias (Group II.A) and Focal Subcortical Heterotopias (Group II.C)	291			
	Lissencephalies (Group II.B)	292			
	Cobblestone Malformations (Group II.D)	293			

9.4	Holoprosencephaly	304	9.7.4	Mega Cisterna Magna	313
9.4.1	Alobar Holoprosencephaly	304	9.8	Hypogenesis, Atrophy, and Dysplasia of the Cerebellum	313
9.4.2	Semilobar Holoprosencephaly	305	9.9	Rhombencephalosynapsis	314
9.4.3	Lobar Holoprosencephaly	305	9.10	Lhermitte–Duclos Syndrome	315
9.4.4	Septo-optic Dysplasia	305	9.11	Joubert’s Syndrome and Molar Tooth Malformations	315
9.4.5	Arhinencephaly	306	9.12	Neurocutaneous Syndromes	316
9.5	Encephaloceles	307	9.12.1	Tuberous Sclerosis	316
9.5.1	Occipital Encephaloceles	307	9.12.2	Neurofibromatosis	319
9.5.2	Frontoethmoidal Encephaloceles	307		Neurofibromatosis Type 1 (von Recklinghausen’s Disease)	319
9.5.3	Nasopharyngeal Encephaloceles	309		Neurofibromatosis Type 2	323
9.5.4	Atretic Cephaloceles	309	9.12.3	Sturge–Weber Disease	325
9.6	Chiari Malformations	309	9.12.4	Von Hippel–Lindau Disease	326
9.6.1	Chiari Malformation Type I	309	9.12.5	Rare Phacomatoses	327
9.6.2	Chiari Malformation Type II	310		Further Reading	328
9.7	Dandy–Walker Malformation	312			
9.7.1	Classic Dandy–Walker Malformation	313			
9.7.2	Hypoplastic Vermis with Rotation	313			
9.7.3	Blake Pouch Cyst	313			
10	Hydrocephalus and Intracranial Hypotension	330			
	<i>M. Knauth</i>				
10.1	Brief Historical Review	330	10.4.1	Modalities	334
10.2	Fundamentals of Anatomy and Physiology	330		Computed Tomography	334
			10.4.2	Magnetic Resonance Imaging	334
10.2.1	Functions of the CSF	330		Imaging Findings	334
10.2.2	Anatomy of the CSF Spaces	331		General Findings	335
10.2.3	Production and Transport of CSF	331		Congenital Hydrocephalus	336
10.2.4	CSF Equilibrium and Hydrocephalus	331		Hypersecretory Hydrocephalus	337
10.2.5	CSF and Intracranial Hypotension	333		Obstructive Hydrocephalus	338
10.3	Epidemiology	333		Malresorptive Hydrocephalus	343
10.4	Imaging	334		Normal-Pressure Hydrocephalus	347
				Intracranial Hypotension	348
				Further Reading	350

Part II Spinal Cord

11	Anatomy	356			
	<i>M. Wiesmann</i>				
11.1	Examination Technique	356	11.2.1	Vertebrae	357
11.1.1	Imaging Planes in MRI	356		Cervical Vertebrae	357
11.1.2	MRI Sequences	356		Thoracic Vertebrae	359
11.1.3	Contrast Agents	357		Lumbar Vertebrae	359
11.2	Spinal Column	357		MRI Signal Characteristics of the Vertebral Bodies	359
			11.2.2	Intervertebral Disks	361

11.2.3	Ligaments	363	11.5	Spinal Cord and Spinal Nerves	371
11.2.4	Normal Variants and Malformations	364	11.5.1	Anatomy	371
11.3	Spinal Meninges and Intraspinal Compartments	366	11.5.2	Normal Variants	374
11.3.1	Epidural Space	366	11.5.3	Internal Structure of the Spinal Cord	375
11.3.2	Subdural Space	367		Gray Matter	375
11.3.3	Subarachnoid Space	367		White Matter	376
11.4	Spinal CSF Circulation	369	11.6	Blood Supply to the Spinal Cord	377
11.4.1	Subarachnoid Space	369		Further Reading	378
11.4.2	Central Canal	370			
12	Degenerative Spinal and Foraminal Stenoses	380			
	<i>A. Doerfler</i>				
12.1	Introduction	380		Recurrent Disk Herniation and Epidural Scarring	401
12.2	Disk Herniations	380		Postoperative Pseudomeningocele	402
12.2.1	Lumbar Disk Herniations	380		Postoperative Metal Artifacts in MRI	403
12.2.2	Thoracic Disk Herniations	392		Spondylosis Deformans	403
12.2.3	Cervical Disk Herniations	396	12.3	Spinal Stenosis	403
12.2.4	Postoperative Findings and Complications	400		Further Reading	413
13	Trauma	416			
	<i>S. Mutze</i>				
13.1	Introduction	416	13.4	Spinal Cord Injuries	425
13.2	Examination Technique	416	13.4.1	Acute Spinal Cord Injuries	426
13.3	Spinal Ligament Injuries	417		Spinal Cord Contusions	426
13.3.1	Injuries of the Craniocervical Junction and Upper Cervical Spine	418		Narrowing of the Spinal Canal	427
	Atlanto-Occipital Dislocation and Subluxation	418		Posttraumatic Spinal Hemorrhage	427
	Fractures of the Atlas and Axis	420		Stabbing and Gunshot Injuries	428
	Neural Arch Fractures of the Axis	421	13.4.2	Chronic Posttraumatic Spinal Cord Changes	428
	Dissection of Arteries Supplying the Brain	422		Syringohydromyelia and Cysts	429
13.3.2	Injuries of the Lower Cervical Spine, Thoracic Spine, and Lumbar Spine	422		Transection, Atrophy, Malacia, and Tethering of the Spinal Cord	430
	Classification and Stability of Fractures	422	13.4.3	Nerve Root Injuries	430
	Determining the Level of a Fracture	424		Further Reading	434
	Age and Etiology of a Fracture	424			
13.3.3	Postoperative Examinations and Follow-Ups	424			
14	Tumors and Tumorlike Masses	436			
	<i>M. Schlamann</i>				
14.1	Introduction	436	14.2	Extradural Space	436

14.2.1	Benign Tumors	436	14.4.1	Benign Masses	459
	Hemangioma	436		Hydroxyringomyelia	459
	Giant Cell Tumor	437		Hemangioblastoma	460
	Osteochondroma and Cartilaginous Exostosis	437		Intradural Neurinoma	460
	Chondroblastoma	439		Cavernous Hemangioma	460
	Aneurysmal Bone Cyst	440		Teratoma	461
	Eosinophilic Granuloma	440		Lipoma	461
	Epidural Lipomatosis	441		Postirradiation Changes	462
	Extradural Arachnoid Cyst	442	14.4.2	Malignant Masses	463
14.2.2	Malignant Tumors	443		Ependymoma	463
	Metastases	443		Astrocytoma	464
	Multiple Myeloma and Plasmacytoma	444		Ganglioglioma	465
	Lymphoma	445		Primitive Neuroectodermal Tumor	465
	Chordoma	446		Atypical Teratoid and Rhabdoid Tumors	465
	Sarcomas	446		Germinoma	465
	Paraspinal Tumors with Extension into the Spinal Canal	449		Melanoma	465
				Other Tumors	465
				Metastases	467
14.3	Intradural Extradural Space	451	14.5	Management of Intradural Masses ...	468
14.3.1	Nerve Sheath Tumor	451	14.6	Mimics of Spinal Tumors	468
14.3.2	Meningioma	453	14.6.1	Intraosseous Disk Herniation	468
14.3.3	Paraganglioma	454	14.6.2	Sequestered Disk	469
14.3.4	Arachnoid Cyst	454	14.6.3	CSF Pulsation Artifact	469
14.3.5	Cavernoma and Capillary Hemangioma ..	456	14.6.4	Spinal Fistulas	470
14.3.6	Metastases and Leptomeningeal Carcinomatosis	456	14.6.5	Epidural Hematoma	470
	Metastases	456		Further Reading	471
	Leptomeningeal Carcinomatosis	456			
14.4	Intradural Space	456			
15	Vascular Diseases	474			
	<i>J. Linn</i>				
15.1	Spinal Arterial Ischemia	474	15.3	Cavernous Hemangioma (Cavernoma)	496
15.2	Spinal Hemorrhage	481	15.4	Spinal Vascular Malformations with Arteriovenous Shunting	497
15.2.1	Epidural Spinal Hemorrhage	482	15.4.1	Type 1: Spinal Dural Arteriovenous Fistula	499
15.2.2	Subdural (Epidural) Spinal Hemorrhage	486	15.4.2	Spinal Arteriovenous Malformations Types 2 to 4	507
15.2.3	Subarachnoid Spinal Hemorrhage	489		Further Reading	514
15.2.4	Intradural Hemorrhage	490			
15.2.5	Superficial Siderosis of the Central Nervous System	494			
16	Inflammations, Infections, and Related Diseases	516			
	<i>M. Schlamann</i>				
16.1	Introduction	516		Multiple Sclerosis	518
16.2	Intradural Space	518		Acute Disseminated Encephalomyelitis	520
16.2.1	Multiple Sclerosis and Other Demyelinating Diseases	518	16.2.2	Neuromyelitis Optica (Devic's Syndrome)	520
			16.2.3	Acute Transverse Myelitis	520
			16.2.4	Radiation Myelopathy	524
				Important Differential Diagnoses	524

Spinal Dural Arteriovenous Fistula	524	16.4 Extradural Space	527
Funicular Myelosis (Vitamin B ₁₂ Deficiency) ...	525	16.4.1 Spondylitis, Spondylodiskitis,	
16.3 Intradural Extramedullary Space	526	Spondyloarthritis	527
16.3.1 Meningitis	526	16.4.2 Epidural Abscess	529
16.3.2 Guillain-Barré Syndrome	527	Further Reading	532
16.3.3 Sarcoidosis	527		
17 Malformations and Developmental Abnormalities	536		
<i>A. Seitz and I. Harting</i>			
17.1 Introduction	536	Myelocystoceles	542
17.2 Embryology	536	Meningoceles	545
17.2.1 Gastrulation	536	Sacroccygeal Teratoma	545
17.2.2 Primary Neurulation	537	17.5.2 Closed Spinal Dysraphisms with	
17.2.3 Secondary Neurulation and Retrogressive		Cutaneous Stigmata	546
Differentiation	537	Dermal Sinus	546
17.3 Classification	538	Dorsal-Enteric Fistula	547
17.4 Open Spinal Dysraphisms	539	Diastatomyelias	548
17.4.1 Myeloceles and Myelomeningoceles	539	17.5.3 Closed Spinal Dysraphisms without	
17.4.2 Hemimyeloceles and		Cutaneous Stigmata	551
Hemimyelomeningoceles	540	Simple Vertebral Arch Defects	551
17.4.3 Postoperative Complications	540	Segmentation Disorders of the Spinal Column	552
17.5 Closed Spinal Dysraphisms	540	Tight Filum Terminale	552
17.5.1 Closed Spinal Dysraphisms with		Lipomas of the Filum Terminale	554
Subcutaneous Swelling	540	Intradural Lipomas	555
Lipomyeloceles and Lipomyelomeningoceles ...	541	Dermoids and Epidermoids	555
		Enterogenous Cysts	556
		Caudal Regression Syndrome	557
		Segmental Spinal Dysgenesis	558
		Anterior Sacral Meningocele	560
		Further Reading	561
Part III Peripheral Nervous System			
18 Diseases of the Peripheral Nervous System	566		
<i>M. Pham, P. Baeumer, and M. Bendszus</i>			
18.1 Introduction	566	18.3.4 Neoplasms of Peripheral Nerves	571
18.2 Basic Technical Principles of Magnetic		18.3.5 Polyneuropathies	571
Resonance Neurography	566	18.4 MRI of the Muscles in Neurogenic	
18.3 Pathologic Conditions	567	Muscle Diseases	572
18.3.1 Traumatic Neuropathies	567	18.5 Summary	573
18.3.2 Nerve Compression Syndromes	568	Further Reading	573
18.3.3 Inflammatory Neuropathies	569		
Index	574
