## **VII Preface**

Domanski, H.A.; Walther, C.S. (Lund)

Chapter 1

## **1 Principles in the Examination and Management of Soft Tissue Lesions**

Chapter 2

## **13 Sampling and Preparation Techniques**

Chapter 3

## **15 Ancillary Techniques**

Chapter 4

## **22 Normal Elements and the Cytologic Features of Reactive Changes in Soft Tissue**

Chapter 5

## **25 Adipocytic Tumors**

Chapter 6

## **40 Fibroblastic/Myofibroblastic Tumors**

Chapter 7

## **61 So-Called Fibrohistiocytic Tumors**

Chapter 8

## **64 Smooth-Muscle Tumors**

Chapter 9

## **68 Pericytic (Perivascular) Tumors**

Chapter 10

## **71 Skeletal-Muscle Tumors**

Chapter 11

## **80 Vascular Tumors**

Chapter 12

## **89 Gastrointestinal Stromal Tumor**

Chapter 13

## **92 Nerve Sheath Tumors**

Chapter 14

## **103 Tumors of Uncertain Differentiation**

Chapter 15

## **122 Undifferentiated/Unclassified Sarcomas**

Chapter 16

## **125 Neuroectodermal Tumors**

Chapter 17

## **132 Principles in the Examination and Management of Bone Neoplasms; Normal Elements and the Cytologic Features of Reactive Changes in the Bone**

Chapter 18

## **139 Osteogenic Tumors**

Chapter 19

## **147 Cartilaginous Tumors**

Chapter 20

## **161 Ewing Sarcoma**

Chapter 21

## **165 Giant Cell Tumor of Bone and Other Giant Cell-Rich Lesions**

Chapter 22

## **171 Notochordal Tumors**

Chapter 23

## **175 Lymphohematopoietic and Histiocytic Tumors**

Chapter 24

## **181 Bone Metastases**

Chapter 25

## **183 Bone Lesions Rarely Examined by Fine-Needle Aspiration**

## **186 Subject Index**
