

Contents

Systematics of Semiconductor Properties	see LB III/44A
Index of Substances	see LB III/44A
List of Symbols	see LB III/44A
Conversion Factors	see LB III/44A
MgO: Radial Distribution Function, Coordination Number	1
MgO: Phase Transition Temperature, Phase Diagram, Transition Path, Ferroelectric Phase Transition, Metallization Transition	3
MgO: Equation of State	9
MgO: Melting Curve, Melting Temperature	13
MgO: Thermal Conductivity	17
MgO: Thermal Expansion	19
MgO: Phonon Dispersion Curves, Phonon Density of States	23
MgO: Infrared Phonon Spectra	29
MgO: Phonon Frequencies, Phonon Line Widths, Mode-Grüneisen Parameters, Surface Phonon Frequencies	31
MgO: Elastic Constants, Sound Velocities, Ultrasound Attenuation, Internal Strain Parameter	35
MgO: Bulk and Shear Moduli	45
MgO: Dielectric Constant, Born Effective Charge	57
MgS: Thermal Expansion	61
MgS: Phonon Dispersion Relations, Phonon Density of States	63
Mgs: Elastic Constants	67
MgSe: Lattice Parameters	71
MgSe: Phonon Dispersion Relations, Phonon Density of States	75
MgSe: Elastic Constants	79
MgTe: Phase Transition Pressure, Phase Stability, Equation of State	83
MgTe: Enthalpy	85
MgTe: Phonon Dispersion Relations, Density of Phonon States	87
MgTe: Phonon Frequencies	93
SrO: Phase Transition Pressure, Phase Stability, Phase Diagram	95
SrO: Thermal Expansion	97

SrO: Phonon Dispersion Relations, Phonon Density of States 99

SrO: Phonon Frequencies, Mode-Grüneisen Parameters 103

SrO: Dielectric Constant, Born Effective Charge 107

SrS: Phase Transition Pressure, Phase Transition Temperature 111

SrS: Thermal Expansion 113

SrS: Phonon Dispersion Relations, Phonon Density of States 115

SrS: Phonon Frequencies 117

SrS: Bulk Modulus 119

SrS: Dielectric Constant 123

SrSe: Phase Transition Pressure 125

SrSe: Thermal Expansion 127

SrSe: Phonon Dispersion Relations, Phonon Density of States 129

SrSe: Bulk Modulus 131

SrSe: Dielectric Constant 135

SrTe: Phase Transition Pressure, Phase Stability 137

SrTe: Thermal Expansion 139

SrTe: Phonon Dispersion Relations, Phonon Density of States 141

SrTe: Elastic Constants 143

SrTe: Bulk Modulus 147

SrTe: Dielectric Constant 151
