

Contents

1	Introduction	1
1.1	Context of the Thesis	2
1.2	Objectives and Main Results	5
1.3	Structure of the Thesis	7
2	Model-Driven Engineering and the MontiCore Language Workbench	9
2.1	Model-Driven Engineering	9
2.2	The MontiCore Language Workbench	11
2.2.1	Generator Engine	13
2.2.2	MontiCore Grammar	14
2.2.3	Generated Parsers	18
2.2.4	Generated Visitor Infrastructure	19
2.2.5	Generated Context Condition Infrastructure	22
2.2.6	Paths in MontiCore	23
2.2.7	Licensing	25
2.2.8	Related Language Workbenches	25
3	Concepts and Elements for Symbol Management	29
3.1	Introductory Example	30
3.2	Names in Software Languages	32
3.3	Symbols and Symbol Kinds	32
3.4	Symbol References	34
3.5	Scopes	36
3.5.1	Symbol Visibility	37
3.5.2	Symbol Shadowing	38
3.5.3	Shadowing and Visibility Scopes	39
3.5.4	Named and Unnamed Scopes	39
3.5.5	Artifact Scope	40
3.5.6	Global Scope	40
3.6	Scope Spanning Symbols	41
3.7	Access Control Mechanisms	42
3.8	Symbol Tables	42
3.9	Symbol Table Notation	44
3.10	Encapsulated, Exported, Imported, and Forwarded Symbols	46

3.11	Method for Finding Candidates for Symbols and Scopes	49
4	SMI: Symbol Management Infrastructure	51
4.1	Technical Realization of Symbols and Symbol Kinds	53
4.1.1	Patterns for Redundant Information Contained in a Symbol and its Related AST Node	58
4.1.2	Patterns for Symbols Representing Similar Model Elements	61
4.1.3	Patterns for Symbol Kinds of Similar Model Elements	64
4.1.4	Patterns for Relating a Symbol and Its Kind	65
4.2	Technical Realization of Scopes	68
4.2.1	MutableScope: Interface for Manipulating a Scope	70
4.2.2	Scopes as Repositories for Symbols	71
4.3	Technical Realization of Scope Spanning Symbols	75
4.3.1	Patterns for a Symbol and Its Spanned Scope	79
4.3.2	Patterns for Symbols Representing a Parameterized Model Element that Spans a Scope	80
4.4	Technical Realization of Symbol References	86
4.4.1	Patterns for Symbol References	88
4.5	Technical Realization of Access Control Mechanisms	93
4.6	Technical Relation of AST and Symbol Table	95
4.7	Naming Conventions	98
5	Building Up Language-Specific Symbol Tables: Method and Implementation	99
5.1	Symbol Table Creation Phases	100
5.2	Method for Processing Model Elements During the Symbol Table Creation	102
5.2.1	Method for Processing a Model Element Not Represented by a Symbol Table Element	102
5.2.2	Method for Processing a Model Element Represented by a Scope .	103
5.2.3	Method for Processing a Model Element Represented by a Symbol	104
5.2.4	Method for Processing a Model Element Represented by a Symbol and a Scope	104
5.3	Incremental Creation of a Symbol Table using a Depth-First Approach . .	105
5.3.1	Stack-based Approach for Conducting a Top-Down Symbol Table Creation	106
5.3.2	Method for Technical Realization of a Symbol Table Creator Using the Visitor Pattern	108
5.4	Linking AST Nodes and Symbol Table Elements	108
5.4.1	Technical Realization of Language-Unspecific Linking	111
5.5	Implementing a Language-Specific Symbol Table Creator	112
5.6	Comparison to Symbol Table Creation in Previous MontiCore Versions . .	120

6	Symbol Resolution in SMI	123
6.1	Overview and Primary Requirements	124
6.2	Bottom-Up Intra-Model Resolution	127
6.3	Bottom-Up Inter-Model Resolution	130
6.4	Top-Down Inter-Model Resolution	132
6.5	Top-Down Intra-Model Resolution	134
6.6	Resolution in Explicitly Imported Scopes	136
6.7	Resolution Using Additional Information	140
6.8	Technical Infrastructure for the Resolution Mechanism	141
6.8.1	Technical Realization of Bottom-Up Intra-Model Resolution	147
6.8.2	Technical Realization of Bottom-Up Inter-Model Resolution	148
6.8.3	Technical Realization of Top-Down Inter-Model Resolution	149
6.8.4	Technical Realization of Top-Down Intra-Model Resolution	152
6.8.5	Technical Realization of Resolution in Explicitly Imported Scopes .	155
6.9	Model Loading	155
6.9.1	General Process	156
6.9.2	Modeling Language Configuration	157
6.9.3	Model Loader	158
6.9.4	AST Provider	159
6.9.5	Model Name Calculator	159
6.10	Example of Usage	160
6.11	Related Work	161
6.12	Naming Conventions	166
7	Generative Engineering of Language-Specific Symbol Table Infrastructures	167
7.1	Overview and Primary Requirements	167
7.2	Automaton Example	170
7.3	Enriching the MontiCore Grammar with Symbol Table Information . . .	171
7.4	Architecture of the Symbol Table Generator	175
7.5	Generation of Symbol Kinds	177
7.6	Generation of Symbols	178
7.7	Generation of Scope Spanning Symbols	180
7.8	Generation of Symbol References	183
7.9	Generation of Symbol Table Creators	184
7.10	Generation of Model Name Calculators	189
7.11	Generation of Model Loaders	190
7.12	Generation of Resolving Filters	191
7.13	Generation of Modeling Language Configurations	192
7.14	Adapting the Generated Classes	193

8	Infrastructure for Language Composition	197
8.1	Overview and Primary Requirements	198
8.2	Language Embedding	200
8.2.1	Example	201
8.2.2	Cross-Language Intra-Model Resolution	203
8.2.3	Symbol Table Creator for the Composed Language	206
8.2.4	Language Embedding Configuration	208
8.2.5	Discussion and Related Work	208
8.3	Language Aggregation	212
8.3.1	Example	213
8.3.2	Cross-Language Inter-Model Resolution	214
8.3.3	Symbol Table Creator for the Composed Language	216
8.3.4	Language Aggregation Configuration	216
8.3.5	Discussion and Related Work	218
8.4	Language Inheritance	219
8.4.1	Example	220
8.4.2	Symbol Table Creator for the Composed Language	221
8.4.3	Language Inheritance Configuration	222
8.4.4	Discussion and Related Work	222
8.5	Generic Symbol Table Infrastructure for Java-like Languages	224
8.6	Non-Transitive versus Transitive Translations	228
8.7	Combinations of Language Compositions	229
8.8	Alternative Classifications for Language Composition	231
9	Summary and Future Work	233
9.1	Summary	233
9.2	Recommendation for Future Work	235
	Bibliography	237
A	Index of Abbreviations	263
B	Diagram and Listing Tags	265
C	Groovy Script for Specifying Model Processing Workflows	267
D	Technical Realization of the Java-like Symbol Table Infrastructure JST	269
D.1	Technical Realization of Java-like Type Symbols	269
D.2	Technical Realization of Java-like Field Symbols	276
D.3	Technical Realization of Java-like Method Symbols	279
E	Curriculum Vitae	285

List of Figures	287
Listings	293
List of Tables	297
