<b>In Situ Study of Phase Transformation in Steel During Welding . . . .</b>	<b>1</b>
1 Introduction . . . . .	1
2 In Situ Time-Resolved X-Ray Diffraction Using a Synchrotron . . . .	1
3 In Situ Observation by Laser Scanning Confocal Microscopy (LSCM). . . . .	3
4 In Situ Observation System in Real and Reciprocal Lattice Space . . . . .	5
5 Summary . . . . .	9
6 Future Works . . . . .	10
References . . . . .	10
 <b>In Situ Studies of Phase Transformation and Residual Stresses in LTT Alloys During Welding Using Synchrotron Radiation . . . . .</b>	 <b>13</b>
1 Introduction . . . . .	14
2 Material . . . . .	15
3 Experimental . . . . .	16
4 Results . . . . .	20
5 Summary . . . . .	24
References . . . . .	25
 <b>In Situ Scanning Electron Microscopy High Temperature Deformation Experiments to Study Ductility Dip Cracking of Ni-Cr-Fe Alloys . . . . .</b>	 <b>27</b>
1 Introduction . . . . .	28
2 Experimental Setup . . . . .	29
3 Results and Discussion . . . . .	32
4 Conclusions . . . . .	37
References . . . . .	38

<b>Grain Nucleation and Growth of Individual Austenite and Ferrite Grains Studied by 3DXRD Microscopy at the ESRF. . . . .</b>	<b>41</b>
1 Introduction. . . . .	41
2 3DXRD Microscopy. . . . .	43
3 Nucleation Theory . . . . .	60
4 Examples-Solid-State Nucleation and Grain Growth During Phase Transformations . . . . .	61
5 Outlook. . . . .	71
References . . . . .	72
 <b>Direct Analysis of Solidification-Mode During Welding for the Assessment of Hot-Cracking . . . . .</b>	 <b>77</b>
1 Introduction. . . . .	77
2 Experimental Procedure . . . . .	78
3 Result and Discussion. . . . .	79
4 Conclusions. . . . .	83
References . . . . .	83
 <b>In Situ Synchrotron Study of Inclusions in the Weld Pool for the Assessment of Nucleation Potency of Acicular Ferrite. . . . .</b>	 <b>85</b>
1 Introduction. . . . .	85
2 Experimental Procedure . . . . .	86
3 Results and Discussion . . . . .	88
4 Conclusion . . . . .	91
References . . . . .	93
 <b>Characterization of Solid State Phase Transformation in Continuously Heated and Cooled Ferritic Weld Metal. . . . .</b>	 <b>95</b>
1 Introduction. . . . .	95
2 Experimental Procedure . . . . .	96
3 Calculation of Phase Fraction of Austenite and Ferrite as a Function of Temperature. . . . .	98
4 Results . . . . .	99
5 Discussion. . . . .	103
6 Conclusions. . . . .	109
References . . . . .	110
 <b>In Situ Determination of Phase Transformations and Structural Changes During Non-Equilibrium Material Processing. . . . .</b>	 <b>113</b>
1 Introduction. . . . .	113
2 Technique for Single Sensor Differential Thermal Analysis. . . . .	115
3 Summary and Conclusions . . . . .	130
