

Table of Contents

Introduction	20
Examples	22
Overview	22

Chapter 1

Layout-Editor	24
Setting up tabs	26
Design View	27
<i>Several form pages (subforms)</i>	28
<i>Inserting and deleting new pages</i>	28
Master Pages	28
<i>Content areas</i>	28
<i>Inserting and deleting master pages</i>	29
Drawing aids for the design view and master pages	30
XML Source	31
Preview PDF	33
Preview PDF functions	35
<i>»PDF Print Options« tab</i>	38
Adobe Reader Properties	40
<i>Input data</i>	40
<i>Adobe Reader Extension Server</i>	42
<i>Adobe Acrobat</i>	42
<i>Preview HTML</i>	43

Chapter 2

Form template managed	44
Selecting form templates	45
First section: Standard form template	45
Second section: Available template categories	46
Third section: Creating form templates	46
Template Manager	46
<i>Default form template</i>	48
Palette menu of the Template Manager	49
<i>Functions to manage form templates</i>	49
<i>Function: Add Template</i>	50
<i>Function: Delete Template</i>	51
<i>Function: Move Template To</i>	52
<i>Functions to manage template categories</i>	52
<i>Function: Add Category</i>	53
<i>Function: Remove Category</i>	54
<i>Function: Category Properties</i>	55
<i>Restore default templates</i>	56
<i>Function: Restore Removed Category</i>	57

Chapter 3

Form templates	58
Methods for creating form templates	59
<i>Form templates with Form Assistant</i>	59
<i>Deactivating the Form Assistant</i>	60
Method 1: Based on Blank Form	61
<i>1st step: Getting Started</i>	61
<i>2nd step: Document Setup</i>	61

Method 2: Based on a template	63
<i>1st step: Getting Started</i>	64
<i>2nd step: Document Setup</i>	64
Saving new form templates	66

Chapter 4

Libraries	67
»Object Library« palette	68
<i>Menu of the Object Library palette</i>	69
<i>Palette menus and properties of the form object groups</i>	70
<i>Adding form objects</i>	71
<i>Form object boundaries</i>	72
»Standard« tab	72
»Barcodes« tab	73
»Custom« tab	73
<i>Grouping form objects</i>	74
»Group« command	75
<i>Creating custom form objects</i>	76
New Object Library group	76
<i>Step 1: Create new group</i>	76
<i>Step 2: Add objects to a group</i>	77
»Fragment Library« palette	78
<i>Creating fragments</i>	79
<i>Editing fragments</i>	80
<i>Script Fragment</i>	82
<i>Creating a script fragment</i>	82

Chapter 5

Formatting palettes	83
»Layout« palette	84
»Size and Position« tab area	85
»Content Alignment in a Flowed Container« tab area	86
»Margins« tab area	86
»Caption« tab area	87
»Layout« palette menu	87
»Border« palette	88
»Border« tab area	88
»Background Fill« tab area	90
»Font« palette	92
»Paragraph« palette	95
»Edit Caption and Value« tab area	95
»Paragraph Alignment« tab area	96
»List« tab area	96
»Indents« tab area	99
»Spacing« tab area	99
Managing formatting	100
Style Catalog	101
Set As Default Style	102

Chapter 6

»Object« palette	104
Naming objects	105
»Value« tab	106
»Field« tab	108
Images	109
Graphic form objects	110
»Circle« form object	111
»Rectangle« form object	111
»Text« form object	112
Buttons	113
»Email Submit Button« form object	116
»HTTP Submit Button« form object	117
Lists	117
Input fields	120
»Numeric Field« form object	120
»Text Field« form object	121
»Date/Time« form object	124
»Decimal Field« form object	125
Option fields	125
»Check Box« form object	127

Chapter 7

Tables	128
Table structure	131
Table types	135
Inserting tables	135
<i>Creating tables using the table assistant</i>	136
Dynamic tables	137
<i>Creating dynamic tables</i>	137
Object palette	142
<i>Table tab</i>	142
<i>Pagination tab</i>	142
<i>Binding tab</i>	142
Editing table sections	143
<i>Table menu</i>	143
<i>Section tab</i>	144
<i>Step 4 of the table assistant</i>	144
<i>Table with visual aid</i>	145
Table menu	147
<i>Showing and hiding the table assistant</i>	148
Creating nested tables	149
<i>Merge cells</i>	150

Chapter 8

Example: Dynamic table	152
Table structure	154
Create table	155
Grid lines	156
Header row table section	157
Header row detailHeader1	158
Header row detailHeader2	158
Detail row	159
Total footer row	161

Chapter 9

Subforms and content areas	168
Subform types	169
Root subform	170
Standard subform	170
Subform	171
Creating subforms	172
Subform of the Object palette	175
Subform set	187
Subform set of the Object palette	189
Content area	191
Form with several master pages	193
Insertion Point	199
Object palette	201

Chapter 10

Examples: Subforms and content areas	202
Example: Printing – page set control	203
Edit Data Nominated Subforms	203
<i>Example: SubformSet</i>	204
<i>Example: DataNominatedSubform</i>	207
Assignment of content areas and subforms	210
<i>Conditional breaks</i>	213
Table with subforms	218

Chapter 11

Formatting	221
Patterns dialogue box	222
Number patterns	224
<i>Example with defined pattern</i>	224
<i>Finished example of a number pattern: Taxes</i>	224
<i>Finished example of a number pattern: Credit card</i>	225
Date and time pattern	227
<i>Date pattern</i>	227
<i>Time pattern</i>	227
<i>Example for date fields using a pattern</i>	228
<i>Text patterns</i>	228
Hyphenation	229
<i>Form Properties dialogue box («Formatting» tab)</i>	229
Leader	230
<i>Tab Stops</i>	231
<i>Hyperlinks</i>	231

Chapter 12

Barcodes	233
Available barcodes	234
The Paper Forms Barcode	237
<i>Creating and managing Collection Lists</i>	237
<i>Creating a new collection list</i>	238
<i>Editing the collection list</i>	238
Object palette for paper forms barcode	239
<i>Field tab</i>	240
<i>Value tab</i>	241
Object palette for barcode	242
<i>Field tab</i>	243
<i>Value tab</i>	244
<i>Binding tab</i>	244
An example of a paper forms barcode	244

Chapter 13

Script Editor	247
Programming principle	248
Functions of the Script Editor	250
Settings	254
<i>Syntax Formatting</i>	255
<i>Defining standard settings</i>	256
Functions	256
<i>Events</i>	256
<i>Interactive events</i>	257
<i>Application events</i>	259
<i>Events with scripts</i>	260
<i>All events</i>	261

Global variables	261
Reference Syntax	262
<i>Fully qualified reference syntax</i>	263
<i>Shortened reference syntax</i>	263
<i>Access to tables</i>	264
<i>Unnamed object</i>	265
Script object	265
Debug scripts	266
<i>Warnings tab</i>	267
<i>JavaScript-Debugger</i>	267

Chapter 14

Sample scripts	269
Show and hide form objects	270
Add and remove a comment	272
Print form objects	273
Colour form objects	274
<i>Background</i>	274
<i>Borders</i>	274
<i>Fill area</i>	275
Check boxes	275
Text formatting	276
<i>Italic text</i>	276
<i>Strikethrough text</i>	276
<i>Field extension</i>	277
<i>Field width</i>	277
<i>Field height</i>	277
<i>Move field</i>	277
<i>Adapt input area</i>	277
<i>Do not adjust input area</i>	278
<i>Align text field value vertically</i>	278
<i>Align text field value horizontally</i>	278

<i>Border as solid rectangle</i>	278
<i>Border in 3D style</i>	278
<i>Change caption text</i>	278
Mandatory fields	279
Warnings	279
Field properties	280
Dynamic fields	280
Focus on a specific field	283
Create a mail using predefined text	283
Regular expressions	284
Form Snippets folder	285
<i>CalculateSum: Calculates the sum of all fields</i>	285
<i>Calculate the sum of table fields</i>	287
<i>ChangeFillColor: Apply fill colour for runtime</i>	289
<i>ImportExportData: Import and export files</i>	289
<i>LaunchApp: Opening an application</i>	290
<i>PaperFormBarcode: Populate barcode with data</i>	290
<i>RangeValidation: Date range validation</i>	292
Custom palette	294
Current date	295
Data Drop-down List/Data List Box	295
Page navigation	295
Insert elements in a subform	296
Add/remove/move element in subform	296
Process fields	297
Script fragment: Fill drop-down list	298
Drop-down lists	300

Chapter 15

Action Builder	306
Adding a new action	307
Link actions	310
Examples	310
<i>Showing or hiding objects</i>	310
<i>Activating or deactivating objects</i>	311
<i>Go to a Specific Page</i>	311
<i>Set the Value of a Field</i>	311
<i>Activating/deactivating check boxes</i>	312
<i>Background fill for input fields</i>	312

Appendix

Building Blocks	314
Form Snippets folder	315
Forms folder	315
Special characters	317
Index	324
