

Contents

Preface.....	vii
Contributors	viii
1. Methods of Otoscopy.....	1
2. The Normal Tympanic Membrane.....	7
2.1 Anatomy.....	8
2.2 Histology	11
3. Diseases Affecting the External Auditory Canal.....	13
3.1 Exostosis and Osteomas.....	14
3.1.1 Surgery for Exostosis and Osteoma: Canalplasty	21
3.2 External Auditory Canal Inflammatory Diseases	25
3.2.1 Eczema	25
3.2.2 Otitis Externa	25
3.2.3 Forunculosis	27
3.2.4 Otomycosis	27
3.2.5 Myringitis and Meatal Stenosis	29
3.2.6 Surgery for Postinflammatory Stenosis of the External Auditory Canal	33
3.3 Cholesteatoma of the External Auditory Canal ..	37
4. Otitis Media	65
4.1 Secretory Otitis Media (Otitis Media with Effusion).....	66
4.2 Secretory Otitis Media Secondary to Neoplasm ..	69
5. Cholesterol Granuloma.....	75
6. Atelectasis, Adhesive Otitis Media	81
7. Noncholesteatomatous Chronic Otitis Media	93
7.1 General Characteristics of Tympanic Membrane Perforations	94
7.2 Posterior Perforations	94
7.3 Anterior Perforations.....	97
7.4 Inferior Perforations.....	99
7.5 Subtotal and Total Perforations	100
7.6 Posttraumatic Perforations.....	102
7.7 Perforations Complicated or Associated with Other Pathologies.....	104
7.8 Tympanosclerosis.....	107
7.8.1 Tympanosclerosis Associated with Tympanic Membrane Perforation.....	107
7.8.2 Tympanosclerosis with Intact Tympanic Membrane..	110
7.9 Principles of Myringoplasty	112
8. Chronic Suppurative Otitis Media with Cholesteatoma	117
8.1 Epitympanic Retraction Pocket.....	118
8.2 Epitympanic Cholesteatoma.....	120

8.3	Mesotympanic Cholesteatoma	129	8.6	Surgical Treatment of Cholesteatoma: Individualized Technique	139
8.4	Cholesteatoma Associated with Atelectasis	134	8.6.1	Canal Wall Up (Closed) Tympanoplasty.....	139
8.5	Cholesteatoma Associated with Complications	136	8.6.2	Canal Wall Down (Closed) Tympanoplasty.....	145
			8.6.3	Modified Bondy's Technique	153
9.	Congenital Cholesteatoma of the Middle Ear	159			
10.	Petrous Bone Cholesteatoma	167			
10.1	Surgical Management	184	10.1.2	Problems in Surgery	193
10.1.1	The Transotic and Modified Transcochlear Approaches	184			
11.	Temporal Bone Paragangliomas	195			
11.1	Clinical Presentation of Tympanic and Tympanomastoid Paragangliomas	197	11.5.1	Surgical Management	208
11.2	Clinical Presentation of Tympanojugular Paragangliomas	197	11.6	Class B: Tympanomastoid Paragangliomas	213
11.3	Imaging Characteristics	197	11.6.1	Surgical Management	218
11.3.1	Tympanojugular Paragangliomas	197	11.7	Class C: Tympanojugular Paragangliomas	221
11.4	Classification: The Modified Fisch Classification System for TJP	198	11.7.1	Surgical Management	236
11.5	Class A: Tympanic Paragangliomas	205	11.8	Type A Infratemporal Fossa Approach	237
			11.8.1	Surgical Technique	237
12.	Rare Retrotympanic Masses	241			
12.1	Differential Diagnosis of Retrotympanic Masses	242	12.5	Facial Nerve Tumors	250
12.2	Meningioma	242	12.6	Aberrant Carotid Artery	260
12.3	Lower Cranial Nerves Neurinoma	247	12.7	Internal Carotid Artery Aneurysm	261
12.4	Chondrosarcoma of the Jugular Foramen	249	12.8	High Jugular Bulb	262
13.	Meningoencephalic Herniation	267			
13.1	Surgical Management	276	13.1.2	Transmastoid Approach with Minicraniotomy	278
13.1.1	Transmastoid Approach	276	13.1.3	Subtotal Petrosectomy	279
14.	Postsurgical Conditions	285			
14.1	Myringotomy and Insertion of Ventilation Tube	286	14.4	Tympanoplasty	301
14.2	Stapes Surgery	290	14.4.1	Canal Wall Up (Closed) Tympanoplasty.....	301
14.3	Myringoplasty	293	14.4.2	Canal Wall Down (Open) Tympanoplasty.....	316
14.3.1	Failures and Complications	297	14.4.3	Meatoplasty, Blind-Sac Closure of the External Auditory Canal	327
			14.5	Hearing Implants	329
