

Table of Contents

10 Christiane Stahl
Foreword

13 Lukas Feireiss and Michael Najjar
Planetary Echoes
Exploring the
Implications of
Human Settlement
in Outer Space

Chapter 1

From Earth to the Universe

18

Tim Smit

**Dancing Lessons
from God**

24

Nelly Ben Hayoun

**The Life, The Sea,
and The Space Viking**

27

Peter Weibel

**The Gravity of
the Earth and the
Orbital Age**

38

Pierre Cox

**The ALMA
Observatory and the
Future of Astronomy**

47 Frank White
**The Overview Effect
and the Human
Implications of
Settlements in
Space. A Personal
Journey of Discovery**

58 Michael Najjar
**Leaving the Blue
Dot. Exploring the
Implications of
Colonizing Our Solar
System from an
Artist's Perspective**

Future Trajectories of Space Travel

76

Buzz Aldrin

**Humanity's Future
in Space**

86

Michael López-Alegría

**The Inflexion Point
of Human Space
Flight**

95

Sethu Vijayakumar

**More Autonomy,
not Automation.
The Future of
Interactive Robotics
in Society**

102 Anousheh Ansari
**Space Holds the
Key to the Future
of Humanity**

109 Tim Smit
**The Role of Plants
in Sustainable
Space Travel**

115 Richard Branson
**The Future of
Commercial Space
Travel**

Chapter 3

Imagining Habitats in Outer Space

- 124** Alexander C. T. Geppert
**Imaginary Infra-
structures and the
Making of Outer
Space**
- 135** Norman Foster
**Architecture in Zero
and Artificial Gravity**
- 143** Xavier De Kestelier
Humanity in Space
- 154** Greg Lynn
**“Divide” – N.O.A.H
(New Outer
Atmospheric Home)**

157 Greg Lynn
New City

161 Clouds Architecture Office
Venus Station

Chapter 4

Mars and Beyond

172 Andy Weir
The Martian

174 Ulrich Köhler
Pale Blue Dot.
Home Sweet Home

- 193** Lukas Feireiss
**Destination Mars.
Exploring Martian
Speculations,
Aspirations, and
Imaginations**
- 205** Fabian Reimann
The Girl from Altair IV
- 209** Thore Bjørnvig
In Mars We Trust
- 218** Biographies
- 223** Index
- 227** Acknowledgments
- 228** Imprint
