Preface — VII

Introduction — XV

1	Preliminary Background — 1
1.1	Notations and Definitions — 1
1.2	Fractional Calculus — 2
1.3	Multivalued Analysis — 5
1.4	Measure of Noncompactness — 7
1.5	Phase Spaces — 9
1.5.1	Examples of Phase Spaces — 9
1.6	Some Fixed Point Theorems — 10
1.7	Auxiliary Lemmas — 12
2	Nonlinear Implicit Fractional Differential Equations — 15
2.1	Introduction — 15
2.2	Existence and Stability Results for NIFDE — 15
2.2.1	Introduction and Motivations — 15
2.2.2	Existence of Solutions — 16
2.2.3	Examples — 22
2.3	NIFDE with Nonlocal Conditions — 23
2.3.1	Introduction and Motivations — 23
2.3.2	Existence of Solutions — 23
2.3.3	Stability Results — 29
2.3.4	An Example — 30
2.4	Existence Results for NIFDE in Banach Space — 31
2.4.1	Introduction and Motivations — 31
2.4.2	Existence of Solutions — 32
2.4.3	An Example — 37
2.5	Existence and Stability Results for Perturbed NIFDE with Finite Delay — 37
2.5.1	Introduction — 37
2.5.2	Existence of Solutions — 38
2.5.3	Ulam–Hyers Stability Results — 43
2.5.4	An Example — 47
2.6	Existence and Stability Results for Neutral NIFDE with Finite Delay — 47
2.6.1	Introduction — 47
2.6.2	Existence of Solutions — 48
2.6.3	Ulam–Hyers Stability Results — 50

2.6.4	Examples —	53
2.7	Notes and Remarks —	55
3	Impulsive Nonlinear Implicit Fractional Differential Equations —	56
3.1	Introduction —	56
3.2	Existence and Stability Results for Impulsive NIFDEs with Finite Delay —	56
3.2.1	Introduction —	56
3.2.2	Existence of Solutions —	57
3.2.3	Ulam–Hyers–Rassias stability —	66
3.2.4	Examples —	71
3.3	Existence Results for Impulsive NIFDE with Finite Delay in Banach Space —	73
3.3.1	Introduction —	73
3.3.2	Existence of Solutions —	73
3.3.3	Examples —	81
3.4	Existence and Stability Results for Perturbed Impulsive NIFDE with Finite Delay —	83
3.4.1	Introduction —	83
3.4.2	Existence of Solutions —	83
3.4.3	Ulam–Hyers Stability Results —	93
3.4.4	Examples —	98
3.5	Existence and Stability Results for Neutral Impulsive NIFDE with Finite Delay —	100
3.5.1	Introduction —	100
3.5.2	Existence of Solutions —	100
3.5.3	Ulam–Hyers Stability Results —	110
3.5.4	An Example —	115
3.6	Notes and Remarks —	116
4	Boundary Value Problems for Nonlinear Implicit Fractional Differential Equations —	117
4.1	Introduction —	117
4.2	BVP for NIFDE with $0 < \alpha \leq 1$ —	117
4.2.1	Introduction and Motivations —	117
4.2.2	Existence of Solutions —	117
4.2.3	Examples —	124
4.3	BVP for NIFDE with $1 < \alpha \leq 2$ —	125
4.3.1	Introduction and Motivations —	125
4.3.2	Existence of Solutions —	126
4.3.3	Examples —	133
4.4	Stability Results for BVP for NIFDE —	134

4.4.1	Introduction and Motivations —	134
4.4.2	Existence of solutions —	134
4.4.3	Ulam–Hyers–Rassias stability —	139
4.4.4	Examples —	144
4.5	BVP for NIFDE in Banach Space —	145
4.5.1	Introduction and Motivations —	145
4.5.2	Existence Results for BVPs in Banach Space —	146
4.5.3	Existence Results for Nonlocal BVP in Banach Space —	152
4.5.4	Examples —	153
4.6	L^1 -Solutions of BVP for NIFDE —	155
4.6.1	Introduction and Motivations —	155
4.6.2	Existence of solutions —	156
4.6.3	Nonlocal problem —	160
4.6.4	Examples —	162
4.7	Notes and Remarks —	163
5	Boundary Value Problems for Impulsive NIFDE —	164
5.1	Introduction and Motivations —	164
5.2	Existence Results for Impulsive NIFDEs —	164
5.2.1	Introduction —	164
5.2.2	Existence of Solutions —	164
5.2.3	Ulam–Hyers Rassias stability —	174
5.2.4	Examples —	179
5.3	Existence Results for Impulsive NIFDE in Banach Space —	181
5.3.1	Introduction —	181
5.3.2	Existence of Solutions —	181
5.3.3	Examples —	189
5.4	Notes and Remarks —	191
6	Integrable Solutions for Implicit Fractional Differential Equations —	192
6.1	Introduction —	192
6.2	Integrable Solutions for NIFDE —	192
6.2.1	Introduction —	192
6.2.2	Existence of solutions —	192
6.2.3	Example —	196
6.3	L^1 -Solutions for NIFDEs with Nonlocal Conditions —	197
6.3.1	Introduction —	197
6.3.2	Existence of solutions —	197
6.3.3	Example —	202
6.4	Integrable Solutions for NIFDEs with Infinite Delay —	203
6.4.1	Introduction —	203
6.4.2	Existence of solutions —	203

6.4.3	Example —	207
6.5	An Existence Result of Integrable Solutions for NIFDEs —	209
6.5.1	Introduction —	209
6.5.2	Existence of solutions —	209
6.5.3	Example —	213
6.6	Notes and Remarks —	214
7	Partial Hadamard Fractional Integral Equations and Inclusions —	215
7.1	Introduction —	215
7.2	Functional Partial Hadamard Fractional Integral Equations —	215
7.2.1	Introduction —	215
7.2.2	Main Results —	216
7.2.3	An Example —	220
7.3	Fredholm-Type Hadamard Fractional Integral Equations —	221
7.3.1	Introduction —	221
7.3.2	Main Results —	222
7.3.3	An Example —	229
7.4	Upper and Lower Solutions Method for Partial Hadamard Fractional Integral Equations and Inclusions —	230
7.4.1	Introduction —	230
7.4.2	Existence Results for Partial Hadamard Fractional Integral Equations —	230
7.4.3	Existence Results for Partial Hadamard Fractional Integral Inclusions —	234
7.5	Notes and Remarks —	240
8	Stability Results for Partial Hadamard Fractional Integral Equations and Inclusions —	241
8.1	Introduction —	241
8.2	Ulam Stabilities for Partial Hadamard Fractional Integral Equations —	241
8.2.1	Introduction —	241
8.2.2	Existence and Ulam Stabilities Results —	241
8.2.3	An Example —	246
8.3	Global Stability Results for Volterra-Type Partial Hadamard Fractional Integral Equations —	247
8.3.1	Introduction —	247
8.3.2	Existence and Global Stability Results —	247
8.3.3	An Example —	254
8.4	Ulam Stabilities for Hadamard Fractional Integral Equations in Fréchet Spaces —	255
8.4.1	Introduction —	255

8.4.2	Existence and Ulam Stabilities Results —	256
8.4.3	An Example —	262
8.5	Ulam Stability Results for Hadamard Partial Fractional Integral Inclusions via Picard Operators —	263
8.5.1	Introduction —	263
8.5.2	Picard Operators Theory —	263
8.5.3	Existence and Ulam Stability Results —	265
8.5.4	An Example —	267
8.6	Notes and Remarks —	269
9	Hadamard–Stieltjes Fractional Integral Equations —	270
9.1	Introduction —	270
9.2	Existence and Stability of Solutions for Hadamard–Stieltjes Fractional Integral Equations —	271
9.2.1	Introduction —	271
9.2.2	Existence and Ulam Stabilities Results —	271
9.2.3	An Example —	276
9.3	Global Stability Results for Volterra-Type Fractional Hadamard–Stieltjes Partial Integral Equations —	277
9.3.1	Introduction —	277
9.3.2	Existence and Asymptotic Stability Results —	277
9.3.3	An Example —	285
9.4	Volterra-Type Nonlinear Multidelay Hadamard–Stieltjes Fractional Integral Equations —	286
9.4.1	Introduction —	286
9.4.2	Existence and Attractivity Results —	287
9.4.3	An Example —	295
9.5	Notes and Remarks —	297
10	Ulam Stabilities for Random Hadamard Fractional Integral Equations —	298
10.1	Introduction —	298
10.2	Partial Hadamard Fractional Integral Equations with Random Effects —	299
10.2.1	Introduction —	299
10.2.2	Existence and Ulam Stabilities Results —	300
10.2.3	An Example —	304
10.3	Global Stability Results for Volterra–Hadamard Random Partial Fractional Integral Equations —	305
10.3.1	Introduction —	305
10.3.2	Existence of Random Solutions and Global Stability Results —	306
10.3.3	An Example —	312

- 10.4 Multidelay Hadamard Fractional Integral Equations in Fréchet Spaces with Random Effects — **314**
- 10.4.1 Introduction — **314**
- 10.4.2 Existence of Random Solutions and Ulam stabilities results — **314**
- 10.4.3 An Example — **320**
- 10.5 Notes and Remarks — **321**

Bibliography — 323

Index — 335
