Relict Species: From Past to Future	1
Jan C. Habel, Thorsten Assmann, Thomas Schmitt, and John C. Avise	
Part I: Climate and Ecosystems	
The Changing Climate: Past, Present, Future	9
Markus Quante	
Extra-Mediterranean Refugia, Post-Glacial Vegetation History and Area Dynamics in Eastern Central Europe.....	57
Zoltán Varga	
Part II: Ancient Relicts	
Review: The Dark Side of Relict Species Biology: Cave Animals as Ancient Lineages	91
Thorsten Assmann, Achille Casale, Claudia Drees, Jan C. Habel, Andrea Matern, and Andreas Schuldt	
Relicts Within the Genus Complex <i>Astragalus/Oxytropis</i> (Fabaceae), and the Comparison of Diversity by Objective Means	105
Matthias Schlee, Markus Göker, Guido W. Grimm, and Vera Hemleben	
Relict Populations and Endemic Clades in Palearctic Reptiles: Evolutionary History and Implications for Conservation.....	119
Ulrich Joger, Uwe Fritz, Daniela Guicking, Svetlana Kalyabina-Hauf, Zoltan T. Nagy, and Michael Wink	

Niche Conservatism among Allopatric Species of the Grasshopper Genus <i>Afrophlaeoba</i> Jago, 1983 in the Eastern Arc Mountains (Tanzania)	145
Axel Hochkirch	
Conservation Genetics and Phylogeography of the Threatened Corsican and Barbary Red Deer (<i>Cervus elaphus corsicanus</i> and <i>C. e. barbarus</i>)	159
Frank E. Zachos, Ghaïet M. Hajji, and San S. Hmwe	
Phylogeographic Analyses of a Boreal-Temperate Ectomycorrhizal Basidiomycete, <i>Amanita muscaria</i>, Suggest Forest Refugia in Alaska During the Last Glacial Maximum	173
József Geml, Rodham E. Tulloss, Gary A. Laursen, Nina A. Sazanova, and D. Lee Taylor	
Part III: Glacial Relicts	
Review: Refugial Areas and Postglacial Colonizations in the Western Palearctic	189
Jan C. Habel, Claudia Drees, Thomas Schmitt, and Thorsten Assmann	
Multiple Glacial Refuges of Unwinged Ground Beetles in Europe: Molecular Data Support Classical Phylogeographic Models	199
Claudia Drees, Andrea Matern, Goddert von Oheimb, Thomas Reimann, and Thorsten Assmann	
Postglacial Recolonization of Continental Europe by the Pygmy Shrew (<i>Sorex minutus</i>) Inferred From Mitochondrial and Y Chromosomal DNA Sequences	217
Allan D. McDevitt, Glenn Yannic, Ramugondo V. Rambau, Thomas J. Hayden, and Jeremy B. Searle	
Part IV: Relicts Since Postglacial Times	
Are Disjunct Alpine and Arctic-Alpine Animal and Plant Species in the Western Palearctic Really “Relicts of a Cold Past”?	239
Thomas Schmitt, Christoph Muster, and Peter Schönswetter	
Linking Genetics and Ecology: Reconstructing the History of Relict Populations of an Endangered Semi-Aquatic Beetle	253
Andrea Matern, Claudia Drees, Alfried P. Vogler, and Thorsten Assmann	

Peripheral Relict Populations of Widespread Species; Evolutionary Hotspots or Just More of the Same?	267
Anna Cassel-Lundhagen	
Genetic Differentiation Between and Among Refugia.....	277
Gabriel Nève and Régine Verlaque	
Population Genetic Structure of Two Threatened Dragonfly Species (Odonata: Anisoptera) as Revealed by RAPD Analysis	295
Mónica A. Amorín, Marta Vila, and Adolfo C. Rivera	
Molecular Methods: Blessing or Curse?.....	309
Aline Finger and Charlotte Klank	
Part V: Conservation of Relict Species	
The EC Habitats Directive and the German Natura 2000 Network of Protected Areas as Tool for Implementing the Conservation of Relict Species.....	323
Marco Zimmermann, Mareike Vischer-Leopold, Götz Ellwanger, Axel Ssymank, and Eckhard Schröder	
Ecological limits <i>vis-à-vis</i> Changing Climate: Relic <i>Erebia</i> Butterflies in Insular Sudeten Mountains.....	341
Martin Konvička, Jiri Benes, and Thomas Schmitt	
Conservation and Management of the Habitats of Two Relict Butterflies in the Belgian Ardenne: <i>Proclossiana eunomia</i> and <i>Lycaena helle</i>	357
Philippe Goffart, Nicolas Schtickzelle, and Camille Turlure	
Part VI: The Future of Relict Species	
Review: Modelling Future Trends of Relict Species	373
Dennis Rödder and Johannes Dambach	
Conservation of the Grey Bush Cricket <i>Platycleis albopunctata</i> (Orthoptera: Tettigoniidae) Under Differing Habitat Conditions: Implications From an Individual-Based Model	385
Eva M. Griebeler and Eckhard Gottschalk	
Is the ‘Lost World’ Lost? High Endemism of Aphibians and Reptiles on South American Tepuís in a Changing Climate	401
Dennis Rödder, Andreas Schlüter, and Stefan Lötters	

Population Genetics and Ecological Niche Modelling Reveal High Fragmentation and Potential Future Extinction of the Endangered Relict Butterfly *Lycaena helle* 417
Jan C. Habel, Bettina Augenstein, Marc Meyer, Gabriel Nève,
Dennis Rödder, and Thorsten Assmann

Relict Species Research: Some Concluding Remarks 441
Jan C. Habel, Thomas Schmitt, and Thorsten Assmann

Index..... 443
