**Preface — XIII**

## **Part I: Principles and challenges of healthcare quality, patient safety, and interpersonal communication**

**1 Healthcare quality and patient safety – A global perspective — 3**  
Lori Paine, Cheryl Dennison Himmelfarb

- 1.1 The critical role of nurses in safe, high-quality healthcare — 5
- 1.2 Factors driving healthcare quality and patient safety — 7
- 1.3 Theories to inform improvement efforts — 8
- 1.4 Conclusion — 9

**2 Myths and truths of human communication — 10**  
Annegret F. Hannawa

- 2.1 What is “communication”? — 10
- 2.2 Common myths about communication — 11
- 2.3 Principles of human communication — 14
- 2.4 Principles in sequence and combination — 19

**3 Communication topics in healthcare quality and patient safety — 28**  
Annegret F. Hannawa

- 3.1 Topic 1: “Time” — 28
- 3.2 Topic 2: “Patient-centered care” — 29
- 3.3 Topic 3: “Sound-alikes” — 30
- 3.4 Topic 4: “Safety culture” — 31
- 3.5 Topic 5: “Healthcare informatics and digitization of care” — 32
- 3.6 Topic 6: “Patient/family engagement” — 33
- 3.7 Topic 7: “Handoffs” — 34
- 3.8 Summary — 34

<b>4</b>	<b>Interpersonal communication: Challenges, processes, and issues — 35</b> Annegret F. Hannawa
4.1	Two core challenges of interpersonal communication — 36
4.2	The processes of interpersonal communication — 38
4.3	Error-prone aspects of human communication — 41
4.4	Summary — 46
<b>5</b>	<b>The Hannawa SACCIA typology: Five core competencies that constitute “safe communication” — 47</b> Annegret F. Hannawa
5.1	Communication errors across the cases — 51
5.2	Errors within principles of human communication — 52
5.3	Summary — 52
<b>6</b>	<b>Lessons from communication science — 59</b> Annegret F. Hannawa
6.1	On the challenge of being communicative — 59
6.2	On the challenge of initiating communication — 59
6.3	On the challenge of achieving a shared understanding — 59
6.4	On the challenge of being accurate — 60
6.5	On the challenge of being digital — 60
6.6	On the challenge of being contextual — 60
6.7	On the challenge of being patient-centered — 61
6.8	On the challenge of being efficient — 61

## **Part II: Case studies across six stages of nursing practice**

<b>Stage 1: Data collection — 65</b>
Case 1: “No consensus on consent” — 66 <i>Provider-patient interaction</i>
Case 2: “Sound-alike” — 70 <i>Provider-family interaction</i>
Case 3: “Checked twice” — 74 <i>Team interaction</i>
Case 4: “Sick and pregnant” — 78 <i>Inter-professional interaction</i>
Case 5: “Medication reconciliation pitfalls” — 82 <i>Cross-professional interaction</i>

**Case 6: "Omitted history of PTSD" — 87**  
*Inter-institutional interaction*

**Stage 2: Assessment/diagnosis — 91**

**Case 7: "Aspiration pneumonia" — 92**

*Provider-patient interaction*

**Case 8: "Who makes the diagnosis?" — 96**

*Provider-family interaction*

**Case 9: "Diagnosis pain or pretense" — 101**

*Team interaction*

**Case 10: "Not hiccups" — 106**

*Inter-professional interaction*

**Case 11: "Allergy assessment" — 112**

*Cross-professional interaction*

**Case 12: "Disc unread" — 117**

*Inter-institutional interaction*

**Stage 3: Planning — 121**

**Case 13: "Who decides?" — 122**

*Provider-patient interaction*

**Case 14: "Family frustration" — 127**

*Provider-family interaction*

**Case 15: "Discharge against medical advice" — 131**

*Team interaction*

**Case 16: "Eptifibatide epilogue" — 135**

*Inter-professional interaction*

**Case 17: "Code blue – Where to?" — 139**

*Cross-professional interaction*

**Case 18: "Inadequate handoff" — 144**

*Inter-institutional interaction*

**Stage 4: Active waiting — 149**

**Case 19: "Illegible handwriting" — 150**

*Provider-patient interaction*

**Case 20: "Nothing-by-mouth (NPO) for possible fracture" — 154**

*Provider-family interaction*

**Case 21: "A Room without orders" — 159**

*Team interaction*

**Case 22: "Empty handoff" — 163**

*Inter-professional interaction*

**Case 23: "A triple handoff" — 167**

*Cross-professional interaction*

Case 24: "A blind eye" — 172

*Inter-institutional interaction*

**Stage 5: Implementation — 177**

Case 25: "Hip horror" — 178

*Provider-patient interaction*

Case 26: "Mismanagement of delirium" — 183

*Provider-family interaction*

Case 27: "Raise the bar" — 188

*Team interaction*

Case 28: "The results stopped here" — 191

*Inter-professional interaction*

Case 29: "No DNR for dad" — 195

*Cross-professional interaction*

Case 30: "Spread the bacteria" — 199

*Inter-institutional interaction*

**Stage 6: Evaluation — 203**

Case 31: "Discharged blindly" — 204

*Provider-patient interaction*

Case 32: "Discharge ready?" — 208

*Provider-family interaction*

Case 33: "Communication failure – Who's in charge?" — 214

*Team interaction*

Case 34: "Something is not right" — 219

*Inter-professional interaction*

Case 35: "Jury syndrome" — 224

*Cross-professional interaction*

Case 36: "Medication mix-up" — 230

*Inter-institutional interaction*

**Concluding thoughts — 235**

Lisa J. Day
