3.4 Example 3—send master data to an external system	73
3.5 Outbound interfaces—conclusion	87
4 Inbound interfaces	89
4.1 Example 1—receive EDI sales orders	89
4.2 Example 2—receive material master data from an external system	109
4.3 How does an IDoc get into an SAP system?	128

TABLE OF CONTENTS

5 Proper care and feeding of the IDoc interfaces	131
5.1 IDoc interface ownership: IT or business?	131
5.2 IDoc interface monitoring options	132
5.3 Additional features in IDoc display transactions (WE02/WE05)	134
5.4 Wanted: IDoc	137
5.5 Searching for data within IDocs	139
5.6 IDoc processing and re-processing (BD87)	140
5.7 New IDoc Monitor transaction WLF_IDOC	143
5.8 Changing IDoc data	143
5.9 Output troubleshooting	147
5.10 Background jobs in the IDoc interfaces	152
5.11 DIY background job—example	155
5.12 Serialization	164
5.13 Archiving	164
6 When SAP Standard is not enough	169
6.1 IDoc extension	169
6.2 User exit example—outbound	180
6.3 User exit—inbound	190
6.4 Outbound file path—function module	197
Appendix A: How and where to search for additional information	201
Books	201
Online SAP Help and SCN	202
SCN blogs mentioned in the book	203
SAP Notes and KBAs	203
Appendix B: The sticky note version of the book	205
A The Author	208
B Index	209
C Disclaimer	211
