XIII	Preface
XIV	Foreword
XV	List of Abbreviations
XVI	List of Authors

Chapter 1

Cytopathological Techniques for the Diagnosis of Glandular Lesions of the Genital Tract

1	1.1. Introduction
1	1.2. Fixation
2	1.3. Staining
3	1.4. Special Techniques
4	References

Chapter 2

2001 Bethesda System Classification of Glandular Lesions on Cervical Cytology

5	2.1. Introduction
6	2.2. Glandular Epithelial Cell Abnormalities
6	2.2.1. Atypical Glandular Cells
6	2.2.2. Atypical Endocervical Cells
7	2.2.3. Atypical Endometrial Cells
8	2.3. Endocervical Adenocarcinoma in situ
9	2.4. Adenocarcinoma
12	2.5. Other
12	2.5.1. Endometrial Cells in Women ≥ 40 Years of Age
13	2.6. Impact of the 2001 Bethesda System
13	2.7. Management
14	References

Chapter 3

Cytopathology of the Benign Glandular Lesions of the Cervix and Glandular Cytopathology of the Vagina

15	3.1. Cytopathology of Benign Glandular Lesions of the Cervix
15	3.1.1. Benign tumors

15	3.1.1.1. Endocervical Polyp
15	3.1.1.2. Müllerian Papilloma
16	3.1.2. Other Non-Tumoral Lesions
16	3.1.2.1. Tubal Metaplasia
17	3.1.2.2. Microglandular Hyperplasia
18	3.1.2.3. Cells of the Lower Uterine Segment
19	3.1.2.4. Endometriosis
19	3.1.2.5. Arias-Stella Reaction
20	3.2. Glandular Cytopathology of the Vagina
20	3.2.1. Tumoral Lesions
20	3.2.1.1. Benign Tumoral Lesions: Adenomas
20	3.2.1.2. Malignant Tumoral Lesions: Adenocarcinomas
20	3.2.1.2.1. Clear Cell Adenocarcinoma
21	3.2.1.2.2. Endometrioid Adenocarcinoma
22	3.2.1.2.3. Mucinous Adenocarcinoma
22	3.2.1.2.4. Mesonephric Adenocarcinoma
22	3.2.2. Non-Tumoral Lesions
22	3.2.2.1. Adenosis
23	3.2.2.2. Fistulous Tracts
23	3.2.2.3. Tubal Prolapse
24	3.2.2.4. Post-Hysterectomy Glandular Cells
24	References

Chapter 4

Cytopathology of Adenocarcinoma in situ of the Endocervix and Its Differential Diagnosis

26	4.1. Introduction
26	4.2. Normal Endocervical Mucosa
27	4.3. Benign and Reactive Changes
27	4.4. Adenocarcinoma in situ
30	4.5. Clinical Management of AIS
31	4.6. Microinvasive Adenocarcinoma
31	4.7. CIN 3 Mimics AIS
31	4.8. Pregnancy Changes
31	4.9. The Vaginal Cuff
32	References

Chapter 5

Cytopathology of the Malignant Invasive Lesions of the Endocervix

34	5.1. Introduction
34	5.2. <i>Types of Malignant Invasive Lesions of the Endocervix</i>
34	5.3. Invasive Endocervical Adenocarcinoma
34	5.3.1. Early Invasive Adenocarcinoma
35	5.3.2. Mucinous Adenocarcinoma
36	5.3.2.1. Endocervical Type Adenocarcinoma of the Endocervix
38	5.3.2.2. Intestinal Variant
38	5.3.2.3. Signet-Ring Cell Variant
38	5.3.2.4. Minimal Deviation Variant
39	5.3.3. Villoglandular Adenocarcinoma
40	5.3.4. Endometrioid Adenocarcinoma of the Cervix
40	5.3.5. Clear-Cell Adenocarcinoma
41	5.3.6. Serous Adenocarcinoma

41	5.4. Uncommon Carcinomas of the Cervix
41	5.4.1. Adenosquamous Carcinoma of the Cervix
41	5.4.2. Glassy Cell Carcinoma Variant
42	5.4.3. Adenoid Cystic Carcinoma of the Cervix
43	5.4.4. Adenoid Basal Carcinoma of the Cervix
43	5.4.5. Neuroendocrine Tumors
43	5.5. Tumors Metastatic to the Cervix
44	References

Chapter 6

Endometrial Hyperplasias

45	6.1. Introduction
45	6.2. Clinical Features
45	6.3. Pathophysiology
46	6.4. Histopathology: WHO Classification
47	6.5. Multicentric European Study on Endometrial Hyperplasia
47	6.6. Diagnosis of Endometrial Hyperplasia
47	6.7. Differential Diagnosis of Endometrial Hyperplasias
48	6.8. Endometrial Intraepithelial Neoplasia
48	6.8.1. Concept
48	6.8.2. Clinical Features
48	6.8.3. Diagnosis
48	6.8.4. Management of EIN
48	6.9. Current Status of Cytopathology of Endometrial Hyperplasias
49	6.10. Practical Considerations
49	6.11. Cytopathology of Endometrial Hyperplasias: The Jiménez-Ayala Classification
49	6.11.1. Endometrial Hyperplasia
50	6.11.2. Endometrioid Neoplasia
51	References

Chapter 7

Endometrial Adenocarcinoma: Current Status and Future of Prevention and Early Diagnosis

52	7.1. Introduction
52	7.2. Current Status of the Prevention and Early Diagnosis of Endometrial Adenocarcinoma
52	7.2.1. Increasing Incidence
52	7.2.2. Pathogenesis
53	7.2.3. High-Risk Population
53	7.2.4. High-Risk Factors
53	7.2.5. Diagnostic Methods for Endometrial Screening Program
54	7.2.5.1. Techniques of Endometrial Cytology
54	7.2.5.2. Histological Techniques
55	7.2.5.3. New Gynecological Methods
55	7.2.6. Histopathology of EmA: Grading
55	7.2.7. Cytopathological Grading of EmA
56	7.2.7.1. Low-Grade Adenocarcinoma (Well Differentiated)
56	7.2.7.2. High-Grade Adenocarcinoma (Poorly Differentiated)
57	7.2.8. Liquid-Based Preparation
57	7.3. Future of Prevention and Early Diagnosis
57	7.3.1. Challenges in Detection of Endometrial Malignant Lesions
57	7.3.1.1. Assessment of High-Risk Population

57	7.3.1.2. Implementation of Current Resources
58	7.3.1.3. Diagnosis and Treatment of Premalignant Lesions: Hyperplasia
58	7.4. Conclusion
58	References

Chapter 8

Cytopathology of Ovarian Lesions: The Intraoperative Approach

60	8.1. Introduction
60	8.2. Histology and Cytology of Ovarian Lesions
60	8.2.1. Epithelial-Stromal Ovarian Tumors
61	8.2.1.1. Serous Carcinomas
61	8.2.1.2. Psammomacarcinoma
62	8.2.1.3. Serous Borderline Tumors
63	8.2.1.4. Mucinous Carcinoma
64	8.2.1.5. Mucinous Borderline Tumor
65	8.2.1.6. Endometrioid Tumors
67	8.2.1.7. Clear Cell Carcinoma
68	8.2.1.8. Benign Brenner Tumor
69	8.2.2. Metastatic Tumors
70	8.2.2.1. Metastasis from Colon and Rectum
70	8.2.2.2. Krukenberg Tumors
71	8.2.3. Non-Neoplastic Cysts
71	8.2.3.1. Endometriotic Cysts
72	8.2.3.2. Corpus Luteum Cyst
72	8.2.4. Sex Cord-Stromal Tumors
72	8.2.4.1. Granulosa-Stromal Cell Tumor
73	8.2.4.2. Typical and Luteinized Thecoma
74	8.2.5. Germ Cell Tumors
74	8.2.5.1. Dysgerminoma
74	8.3. Performance of Intraoperative Cytology
75	8.4. Advantages and Limitations
75	8.5. Conclusions
76	References

Chapter 9

Glandular Lesions of the Vulva

77	9.1. Histology of the Vulva
77	9.2. Diagnosis of Vulvar Lesions
78	9.3. Concept of Vulvar Cancer
79	9.4. Terminology for Reporting Vulvar Cytology
80	9.5. Cytopathology of Glandular Tumors of the Vulva
80	9.5.1. Paget Disease
82	9.5.2. Bartholin Gland Carcinoma
83	9.5.3. Tumors Arising from Specialized Anogenital Mammary-Like Glands
83	9.5.3.1. Papillary Hidradenoma
84	9.5.3.2. Adenocarcinomas and Other Tumors Arising from Specialized Anogenital Mammary-Like Glands
85	9.5.4. Other Benign Tumors
85	9.5.5. Other Malignant Tumors
85	9.5.6. Secondary Tumors
85	9.6. Cytodiagnosis of Vulvar Lesions

86	9.7. Final Remarks
86	References

Chapter 10

Glandular Lesions of the Fallopian Tube

87	10.1. Histology of the Fallopian Tube
87	10.2. Benign Fallopian Tube Lesions
87	10.3. Tumors of the Fallopian Tube
88	10.3.1. Benign Epithelial Tumors
88	10.3.2. Malignant Epithelial Tumors
89	10.3.3. Borderline Epithelial Tumors
89	10.3.4. Carcinoma in situ
89	10.4. Diagnosis of Tubal Carcinoma
90	10.4.1. Cytology
90	10.4.2. Cytological Features
91	10.5. Differential Diagnosis
91	References

Chapter 11

Metastatic Glandular Lesions

92	11.1. Introduction
92	11.2. Metastases to the Genital Tract
92	11.2.1. Metastases to the Vulva
93	11.2.2. Metastases to the Vagina
94	11.2.3. Metastases to the Cervix
95	11.2.4. Metastases to the Endometrium
95	11.2.5. Metastases to the Ovary
96	11.3. Origin of Metastases
96	11.3.1. Intra-genital Metastases
96	11.3.1.1. Metastases of Ovarian Origin
97	11.3.1.2. Metastases of Endometrial Origin
97	11.3.2. Extra-genital Metastases
97	11.3.2.1. Breast carcinoma
97	11.3.2.2. Gastrointestinal Tract
98	11.4. Clues for the Diagnosis of Metastatic Carcinomas in Cervicovaginal Smear
99	References

Chapter 12

Ancillary Techniques for the Diagnosis of Glandular Lesions of the Female Genital Tract

101	12.1. Introduction
102	12.2. HPV Probe
102	12.2.1. Hybrid Capture II
102	12.2.2. PCR
103	12.3. Immunohistochemical Techniques for p16
105	12.4. Other Techniques
106	12.5. Conclusion
106	References

107	Index
