

# Contents

**Dedication — V**

**Preface — VII**

**List of authors — XIII**

## **Part I: The fetal alcohol syndrome and its diagnosis**

### **1 The syndrome — 3**

- 1.1 First description of FAS — 3
- 1.2 History of FAS in the United States of America and Canada — 3
- 1.3 History of FAS in Europe — 4
- 1.4 Current incidence and prevalence of FAS — 6

### **2 Diagnosis of fetal alcohol syndrome — 12**

- 2.1 Definition — 12
- 2.2 Clinical picture of FAS in a historical context — 15
- 2.3 Development of the diagnostic criteria for FAS — 17
- 2.4 Why is it so difficult to diagnose FAS? — 23
- 2.5 Misconceptions about FAS — 24

### **3 The 4-Digit Diagnostic Code — 27**

- 3.1 Introduction — 27
- 3.2 Growth deficiency — 28
- 3.3 Dysmorphic facial features — 30
- 3.4 Central nervous system abnormalities — 35
- 3.5 Prenatal alcohol exposure — 36
- 3.6 Limitation of diagnosing FAS — 40

### **4 Neuropsychological aspects of fetal alcohol syndrome — 45**

- 4.1 Introduction — 45
- 4.2 Neuropsychological evaluation — 45
- 4.3 Cognitive deficits in children and adolescents with FAS — 46
- 4.4 Cognitive deficits in adults with FAS — 51
- 4.5 Treatment of cognitive deficits in FAS — 51

### **5 Diagnostic characteristics across lifespan — 56**

- 5.1 Infancy — 56
- 5.2 Early childhood (preschool) — 62
- 5.3 School age — 68

5.4	Late childhood and adolescence —	75
5.5	Adulthood (“FAS adult”) —	80
<b>6</b>	<b>Comorbid disorders and differential diagnosis of FAS —</b>	<b>84</b>
6.1	Sleep disorders —	84
6.2	Congenital malformations —	90
6.3	Differential diagnoses —	98
6.4	Psychiatric disorders —	100
6.5	FAS and attention deficit hyperactivity disorder (ADHD) —	101

## **Part II: Scientific basis of the fetal alcohol syndrome**

<b>7</b>	<b>Epidemiology —</b>	<b>111</b>
7.1	Alcohol consumption in industrialised countries —	111
7.2	Light and moderate drinking in pregnancy —	115
<b>8</b>	<b>Teratogenic effects of alcohol —</b>	<b>121</b>
8.1	Definition of teratology —	121
8.2	Behavioural teratology: evidence from animal studies —	123
8.3	Effects of the timing of prenatal alcohol exposure —	124
<b>9</b>	<b>Effects of prenatal exposure to nicotine or illegal substances —</b>	<b>127</b>
9.1	Nicotine use during pregnancy —	127
9.2	Illegal drugs during pregnancy —	129
9.3	“Crack baby” —	129
9.4	Prenatal cannabis or marijuana exposure —	130
9.5	Methamphetamine exposure (“crystal meth”) —	132
9.6	Effects of polydrug use in pregnancy —	133
<b>10</b>	<b>Biomarker for the detection of maternal alcohol use during pregnancy —</b>	<b>136</b>
10.1	Direct and indirect biomarkers —	136
<b>11</b>	<b>Neuropathological aspects and pathogenesis of FASD —</b>	<b>138</b>
11.1	Introduction —	138
11.2	First descriptions of neuropathological effects —	139
11.3	Pathogenesis of FASD: evidence from animal studies —	140
11.4	Neuroanatomical changes of dendritic spines —	141
11.5	Alcohol-induced apoptosis —	145
11.6	Brain imaging techniques —	147
11.7	Disturbances in brain metabolism —	148

- 12 Genetic and epigenetic aspects of fetal alcohol syndrome — 153**
- 12.1 Genetics — 153
- 12.2 Epigenetics — 155

### **Part III: The fetal alcohol syndrome in adulthood**

- 13 Fetal alcohol syndrome in adults (“FAS adult”) — 163**
- 13.1 Introduction — 163
- 13.2 Longitudinal studies in the United States, France, Finland and Germany — 163
- 13.3 Examination into adulthood — 166
- 14 Diagnosing Fetal alcohol syndrome in adulthood — 178**
- 14.1 Ethical considerations — 178
- 14.2 Diagnosing adults with the 4-Digit Diagnostic Code — 179
- 14.3 Secondary disabilities in adults with FAS — 188
- 14.4 FASD and the legal system — 190

### **Part IV: Intervention, prevention, and social law issues**

- 15 Treatment and intervention programs — 197**
- 15.1 General aspects — 197
- 15.2 Pharmacotherapy — 198
- 15.3 Psychotherapeutic interventions — 201
- 15.4 Vitamin A supplements — 202
- 15.5 Social services — 202
- 15.6 Assisted living communities and assisted living for single adults — 203
- 16 Prevention of FAS and FASD — 205**
- 16.1 Introduction — 205
- 16.2 General prevention programs — 206
- 16.3 Substance abuse prevention for children — 206
- 16.4 Prevention programs for adolescents and young adults — 207
- 16.5 Before conception: women and couples — 208
- 16.6 Prevention programs targeted to pregnant women — 209
- 16.7 Risk assessment during pregnancy — 209
- 16.8 Identification of women at risk of prenatal alcohol exposure — 212

- 17      Awareness and support in other European countries: governmental policy and social law — 216**
- 17.1      Fetal alcohol syndrome in the Netherlands — 216
- 17.2      Fetal alcohol spectrum disorders in the United Kingdom — 219
- 17.3      FASD in Germany — 228

## **Part V: Life stories**

## **Part VI: Appendix**

- A      Residential communities and assisted individual housing for adults with fetal alcohol spectrum disorders (FASD) and behavioural disorders — 285**
- A.1      The FASD residential community — 286
- A.2      Assisted individual housing – FASD — 286

**Index — 291**
