

# Contents

|                                     |   |
|-------------------------------------|---|
| Preface .....                       | 3 |
| Comparison Table – Parameters ..... | 6 |

## **Volume-Controlled Ventilation Modes**

|                    |    |
|--------------------|----|
| VCV .....          | 8  |
| PLV .....          | 10 |
| VC-SIMV .....      | 12 |
| Optional VCV ..... | 14 |
| Flexible VCV ..... | 16 |

## **Pressure-Controlled Ventilation Modes**

|                        |    |
|------------------------|----|
| PCV .....              | 18 |
| BiLevel .....          | 20 |
| BiLevel ST .....       | 22 |
| Mand. BiLevel .....    | 24 |
| PC-SIMV .....          | 26 |
| PC-APRV .....          | 28 |
| Optional BiLevel ..... | 30 |

## **Spontaneous Ventilation Modes**

|                        |    |
|------------------------|----|
| CPAP .....             | 32 |
| PSV .....              | 34 |
| Dynamic PSV .....      | 36 |
| Proportional PSV ..... | 38 |
| HFOT .....             | 40 |
| PAPS .....             | 42 |

## **Hybrid Ventilation Modes**

|                               |    |
|-------------------------------|----|
| Dynamic BiLevel .....         | 44 |
| Dual BiLevel .....            | 46 |
| Flexible BiLevel .....        | 48 |
| Volume-Adaptive BiLevel ..... | 50 |
| Dynamic BiLevel ST .....      | 52 |
| Dual BiLevel ST .....         | 54 |

## **Closed-Loop Ventilation Modes**

|                       |    |
|-----------------------|----|
| WOBOV .....           | 56 |
| ALPV .....            | 58 |
| INTELLiVENT-ASV ..... | 60 |
| SmartCare.....        | 62 |
| Automode.....         | 63 |

## **Measurement Values, Indices**

|                                                        |    |
|--------------------------------------------------------|----|
| P.OI: Occlusion Pressure Measurement .....             | 64 |
| RSBI: Rapid Shallow Breathing Index .....              | 65 |
| MIP: Maximum Inspiratory Pressure.....                 | 66 |
| PEEPi (intrinsic PEEP) .....                           | 67 |
| RCexp: Expiratory Time Constant.....                   | 68 |
| Inflection Points: LIP / UIP / PMC .....               | 69 |
| C20/C Index .....                                      | 70 |
| TPP exp: End-Expiratory Transpulmonary Pressure.....   | 71 |
| TPP insp: End-Inspiratory Transpulmonary Pressure..... | 71 |
| WOB: Work of Breathing .....                           | 72 |
| Characteristics of the Chatburn Taxonomy .....         | 73 |
