

Table of Contents

1	Historical Introduction	1
2	Nomenclature for Normal Chromosomes and Constitutional Chromosome Aberrations	6
2.1	Introduction	6
2.2	Chromosome Number and Morphology	6
2.2.1	Non-Banding Techniques	6
2.2.2	Chromosome Banding Techniques	8
2.2.2.1	Methods and Terminology	8
2.2.2.2	X- and Y-Chromatin	9
2.2.2.3	Characterization of Chromosomes by Fluorescent Banding Techniques	9
2.3	Chromosome Band Nomenclature	13
2.3.1	Identification and Definition of Chromosome Landmarks, Bands, and Regions	13
2.3.2	Designation of Regions and Bands	16
2.3.3	Diagrammatic Representation of Landmarks and Bands	16
2.3.4	Subdivision of an Existing Landmark or Band	19
2.4	Nomenclature Symbols	19
2.4.1	Normal Karyotypes	22
2.4.2	Numerical Chromosome Aberrations	22
2.4.2.1	Use of + and – Signs	22
2.4.2.2	Chromosome Mosaics and Chimeras	23
2.4.3	Structural Chromosome Aberrations in Non-Banded Chromosomes	24
2.4.4	Designating Structural Chromosome Aberrations by Breakpoints and Band Composition	26
2.4.4.1	Specification of Chromosome Rearrangements	27
2.4.4.2	Specification of Breakpoints	28
2.4.4.3	Short System for Designating Structural Chromosome Aberrations	29
2.4.4.4	Detailed System for Designating Structural Chromosome Aberrations	29
2.4.4.5	Suppressed Centromeres and Terminal Rearrangements	38
2.4.4.6	Marker Chromosomes	38
2.4.4.7	Derivative and Recombinant Chromosomes	39
3	Variable Chromosome Features	43
3.1	Variation of Secondary Constrictions or Satellites in Non-Banded Chromosomes	43
3.2	Variation in Heteromorphic Regions in Banded Chromosomes	43
3.2.1	Short Terminology	43
3.2.2	Complete Description	44
3.3	Fragile Sites	46

4	High Resolution Banding	48
5	Nomenclature for Acquired Chromosome Aberrations	66
5.1	Chromatid Aberrations	66
5.1.1	Non-Banded Preparations	66
5.1.2	Banded Preparations	68
5.2	Chromosome Aberrations	68
5.2.1	Non-Banded Preparations	68
5.2.2	Banded Preparations	69
5.2.3	Marker Chromosomes	70
5.2.4	Complex Chromosome Rearrangements	70
5.2.5	Exchanges at the Centromere	71
5.2.6	Chromosome Number	71
5.3	Scoring of Aberrations	73
5.4	Cell Populations With Acquired Abnormalities	73
5.5	Tumor Cell Populations	73
6	Nomenclature for Human Meiotic Chromosomes	77
6.1	Terminology	77
6.2	Correlation Between Meiotic Chromosomes and Mitotic Banding Patterns . .	81
7	Species Codes	92
8	Nomenclature and Presumptive Homologies for the Chromosomes of the Great Apes (Pongidae)	95
8.1	Conventional Nomenclature	95
8.2	Phylogenetic Nomenclature	95
8.3	Comparative Banding Diagrams	100
9	References	108
10	Members of the Standing Committee and Consultants	110
11	Appendices	112
	1: Diagrammatic representation of human chromosome bands from Paris Conference (1971)	112
	2: Human somatic cell metaphase chromosome measurements	114
	3: Human male meiotic chromosome measurements	115
12	Index	116
