

Contents

1. Introduction: Biology of polar benthic algae <i>Christian Wiencke and Margaret N. Clayton</i>	1
Environment, biogeography and biodiversity	
2. The abiotic environment of polar marine benthic algae <i>Katharina Zacher, Ralf Rautenberger, Dieter Hanelt, Angela Wulff and Christian Wiencke</i>	9
3. Biodiversity, biogeography and zonation of marine benthic micro- and macroalgae in the Arctic and Antarctic <i>Angela Wulff, Katrin Iken, María Liliانا Quartino, Adil Al-Handal, Christian Wiencke and Margaret N. Clayton</i>	23
4. Notes on the systematics and biogeographical relationships of Antarctic and sub-Antarctic Rhodophyta with descriptions of four new genera and five new species <i>Max H. Hommersand, Richard L. Moe, Charles D. Amsler and Suzanne Fredericq</i>	53
Chemical ecology	
5. Defenses of polar macroalgae against herbivores and biofoulers <i>Charles D. Amsler, Katrin Iken, James B. McClintock and Bill J. Baker</i>	101
6. Field studies on deterrent properties of phlorotannins in Antarctic brown algae <i>Katrin Iken, Charles D. Amsler, Margaret O. Amsler, James B. McClintock and Bill J. Baker</i>	121
Primary production and ecophysiology	
7. Benthic microalgal production in the Arctic: applied methods and status of the current database <i>Ronnie N. Glud, Jana Woelfel, Ulf Karsten, Michael Kühl and Søren Rysgaard</i>	141
8. Microphytobenthic biomass along gradients of physical conditions in Arctic Kongsfjorden, Svalbard <i>Jana Woelfel, Rhena Schumann, Peter Leopold, Christian Wiencke and Ulf Karsten</i>	163
9. Phenology and seasonal physiological performance of polar seaweeds <i>Christian Wiencke, Iván Gómez and Ken Dunton</i>	181
10. Light and temperature demands of marine benthic microalgae and seaweeds in polar regions <i>Iván Gómez, Angela Wulff, Michael Y. Roleda, Pirjo Huovinen, Ulf Karsten, María Liliانا Quartino, Ken Dunton and Christian Wiencke</i>	195
11. Freezing tolerance and photosynthetic performance of polar seaweeds at low temperatures <i>Susanne Becker, Bettina Walter and Kai Bischof</i>	221

Polar benthic algae in a changing world

12. Impact of oceanic warming on the distribution of seaweeds in polar and cold-temperate waters <i>Ruth Müller, Inka Bartsch, Thomas Laepple and Christian Wiencke</i>	237
13. Physiological responses of polar benthic algae to ultraviolet radiation <i>Ulf Karsten, Angela Wulff, Michael Y. Roleda, Ruth Müller, Franciska S. Steinhoff, Jana Fredersdorf and Christian Wiencke</i>	271
14. Drivers of colonization and succession in polar benthic macro- and microalgal communities <i>Gabriela Laura Campana, Katharina Zacher, Anna Fricke, Markus Molis, Angela Wulff, María Liliana Quartino and Christian Wiencke</i>	299
15. Conclusion and outlook: Future perspectives on the investigation of polar benthic algae <i>Christian Wiencke and Margaret N. Clayton</i>	321
