Preface	17

1 SAP HANA Certification Track—Overview 25

Who This Book Is For	26
SAP HANA Certifications	27
Associate-Level Certification	28
Specialist-Level Certification	30
SAP HANA Application Associate Certification Exam	30
Exam Objective	32
Exam Structure	34
Exam Process	36
Summary	37

2 SAP HANA Training 39

SAP Education Training Courses	40
Training Courses for SAP HANA Certifications	41
Additional SAP HANA Training Courses	42
Other Sources of Information	43
SAP Help	43
SAP HANA Home Page and SAP Community	46
SAP HANA Academy	46
openSAP	48
Hands-On with SAP HANA	49
Where to Get an SAP HANA System	50
Project Examples	61
Where to Get Data	63

Exam Questions	64
Types of Questions	64
Elimination Technique	67
Bookmark Questions	67
General Examination Strategies	68
Summary	69

3

Technology, Architecture, and Deployment Scenarios

71

Objectives of This Portion of the Test	72
Key Concepts Refresher	73
In-Memory Technology	73
Architecture and Approach	79
Deployment Scenarios	93
SAP HANA in the Cloud	104
SAP Analytics Cloud and Business Intelligence	108
Important Terminology	114
Practice Questions	116
Practice Question Answers and Explanations	122
Takeaway	126
Summary	127

4

Modeling Tools, Management, and Administration

129

Objectives of This Portion of the Test	131
Key Concepts Refresher	132
New Modeling Process	132
New Architecture for Modeling and Development	138

Creating a Project	145
Creating SAP HANA Design-Time Objects	155
Building and Managing Information Models	162
Refactoring	170
Important Terminology	174
Practice Questions	175
Practice Question Answers and Explanations	178
Takeaway	180
Summary	180

5

Information Modeling Concepts

181

Objectives of This Portion of the Test	182
Key Concepts Refresher	183
Tables	183
Views	183
Cardinality	186
Joins	186
Core Data Services Views	197
Cube	200
Calculation Views	204
Other Modeling Artifacts	208
Semantics	213
Hierarchies	213
Important Terminology	216
Practice Questions	217
Practice Question Answers and Explanations	225
Takeaway	229
Summary	229

6 Calculation Views	231
Objectives of This Portion of the Test	232
Key Concepts Refresher	233
Data Sources for Calculation Views	234
Calculation Views: Dimension, Cube, and Cube with Star Join	235
Working with Nodes	248
Semantics Node	263
Important Terminology	269
Practice Questions	271
Practice Question Answers and Explanations	275
Takeaway	278
Summary	278

7 Modeling Functions	279
Objectives of This Portion of the Test	280
Key Concepts Refresher	281
Calculated Columns	281
Restricted Columns	286
Filters	291
Variables	293
Input Parameters	297
Session Variables	302
Currency	303
Hierarchies	308
Hierarchy Functions	316
Important Terminology	326
Practice Questions	328
Practice Question Answers and Explanations	333
Takeaway	336
Summary	336

8 SQL and SQLScript 337

Objectives of This Portion of the Test 339

Key Concepts Refresher 340

 SQL 340

 SQLScript 347

 Views, Functions, and Procedures 362

 Catching Up with SAP HANA 2.0 365

Important Terminology 365

Practice Questions 366

Practice Question Answers and Explanations 371

Takeaway 374

Summary 374

9 Data Provisioning 375

Objectives of This Portion of the Test 376

Key Concepts Refresher 377

 Concepts 378

 SAP Data Services 383

 SAP Landscape Transformation Replication Server 385

 SAP Replication Server 387

 SAP HANA Smart Data Access 388

 SAP HANA Smart Data Integration and SAP HANA Smart Data Quality 392

 SAP HANA Streaming Analytics 395

 SQL Anywhere and Remote Data Sync 397

 Flat Files 399

 Web Services (OData and REST) 400

 SAP Vora 401

 SAP HANA Data Management Suite 402

Important Terminology 403

Practice Questions 405

Practice Question Answers and Explanations	408
Takeaway	410
Summary	410

10

Text Processing and Predictive Modeling

411

Objectives of This Portion of the Test	413
Key Concepts Refresher	414
Text Processing	414
Predictive Modeling	432
Important Terminology	452
Practice Questions	453
Practice Question Answers and Explanations	456
Takeaway	457
Summary	458

11

Spatial, Graph, and Series Data Modeling

459

Objectives of This Portion of the Test	461
Key Concepts Refresher	461
Spatial Modeling	462
Graph Modeling	480
Series Data Modeling	498
Important Terminology	508
Practice Questions	509
Practice Question Answers and Explanations	513
Takeaway	517
Summary	517

12 Optimization of Information Models 519

- Objectives of This Portion of the Test** 520
- Key Concepts Refresher** 521
 - Architecture and Performance 521
 - Redesigned and Optimized Applications 522
 - Effects of Good Performance 523
 - Information Modeling Techniques 524
 - Optimization Tools 525
 - Best Practices for Optimization 536
- Important Terminology** 542
- Practice Questions** 543
- Practice Question Answers and Explanations** 546
- Takeaway** 548
- Summary** 548

13 Security 549

- Objectives of This Portion of the Test** 550
- Key Concepts Refresher** 551
 - Usage and Concepts 551
 - SAP HANA XSA and SAP HANA Deployment Infrastructure 554
 - Users 559
 - Roles 565
 - Privileges 569
 - Assigning Roles to Users 577
 - Data Security 578
- Important Terminology** 581
- Practice Questions** 582
- Practice Question Answers and Explanations** 585
- Takeaway** 587
- Summary** 587

14 Virtual Data Models	589
Objectives of This Portion of the Test	591
Key Concepts Refresher	591
Reporting in the Transactional Systems	592
SAP HANA Live	595
SAP S/4HANA Embedded Analytics	608
Important Terminology	612
Practice Questions	613
Practice Question Answers and Explanations	617
Takeaway	619
Summary	620
 The Author	621
Index	623
