

Contents

1	Hormonal Control of Folliculogenesis: The Key to Successful Reproduction <i>D.T. Baird, A. Mitchell</i>	1
2	Activation of Primordial Follicles <i>J.E. Fortune</i>	11
3	Follicular Development and Apoptosis <i>H. Billig, E. Markström, E.C. Svensson, R. Shao, A. Friberg</i>	23
4	Delivery of the Oocyte from the Follicle to the Oviduct: A Time of Vulnerability <i>J.S. Richards</i>	43
5	Phenotypic Effects of Knockout of Oocyte-Specific Genes <i>S. Varani, M.M. Matzuk</i>	63
6	The Biochemistry of Oocyte Maturation <i>S.M. Downs</i>	81
7	The Structural Basis of Oocyte-Granulosa Cell Communication <i>D.F. Albertini</i>	101
8	Ageing and Aneuploidy in Oocytes <i>U. Eichenlaub-Ritter</i>	111

9	Ovarian Infertility – Reasons and Treatment Paradigms <i>M. Ludwig, K. Diedrich</i>	137
10	Can Stimulation Protocols Improve Oocyte Quality? <i>J. Smitz</i>	161
11	FF-MAS and Its Role in Mammalian Oocyte Maturation <i>C. Grøndahl</i>	177
