1	The face	1	2.5	Vascular and nerve supply in the orbital region in relation to the muscles	205
1.1	Introduction	2	2.6	Sectional anatomy of the orbital region	210
1.1.1	General remarks	2	3	The nasal and midfacial region	216
1.1.2	Regions of the face	4	3.1	Surface topography of the nasal region	218
1.1.3	Morphometry and proportions of the face	6	3.2	The nose in anterior view	222
1.2	The face in anterior view	18	3.3	The nose in lateral view	230
1.2.1	Fat compartments of the face in anterior view	18	3.4	The nose in caudal view	244
1.2.2	Muscles of the face in anterior view	25	3.5	The nasal cavity	245
1.2.3	Vascular and nerve supply of the face in anterior view	38	3.6	The sinuses	258
1.3	The face in lateral view	54	4	The mouth	262
1.3.1	Fat compartments of the face in lateral view	54	4.1	Extraoral topography of the oral region	264
1.3.2	Muscles of the face in lateral view	62	4.2	Topographical anatomy of the oral region	265
1.3.3	Vascular and nerve supply of the face in lateral view	78	4.3	Vascular and nerve supply of the oral region	267
1.4	The head in vertical view	106	4.4	The oral cavity	278
1.5	The head in dorsal view	116	4.5	Anatomy of the lips, teeth, periodontium and alveolar bone in sections	283
1.6	The neck	122	4.6	The anterior oral vestibule	289
1.6.1	The neck in anterior view	123	4.7	Anatomy in the area around the mandibular ramus	290
1.6.2	The neck in lateral view	128	4.8	The temporomandibular joint	303
1.6.3	The neck in dorsal view	133	4.9	Anatomy of the oral region in sections	308
1.7	Facial expression	136	4.10	Pathways of odontogenic spread of infections	314
1.8	The facial skeleton	148	5	The ear	316
1.9	Sectional anatomy	162	6	The skin and aging of the face	330
1.10	Schematic representations of pathways in the face	172	Appendix		345
2	The orbital region	180	References		347
2.1	Surface topography of the orbital region	182	Index		349
2.2	Preseptal muscles and fat layers	185			
2.3	The orbital septum and the eyeball	189
