

2740-6017

Toxicology- From Cells to Man

Proceedings of the
1995 EUROTOX Congress
Meeting Held in Prague, Czech Republic,
August 27-30, 1995

Edited by the Publication Committee
J. P. Seiler, O. Kroftová and V. Eybl

With 65 Figures and 41 Tables

Springer

Contents

The Gerhard Zbinden Memorial Lecture

Alteration of Cell Signalling in Chemical Toxicity <i>P. Nicotera</i>	3
--	---

Human Immunotoxicity and the Environment

Halogenated Organic Compounds and the Human Immune System: Preliminary Report on a Study in Hobby Fishermen <i>M. Løvik, H.R. Johansen, P.I. Gaarder, G. Becher, I.S. Aaberge, W. Gdynia and J. Alexander</i>	15
Risk Assessment for the Harmful Effects of UVB Radiation on the Immunological Resistance to Infectious Diseases <i>H. van Loveren, W. Goettsch, W. Slob and J. Garssen</i>	21
Sentinel Screening for Human Immunotoxicity <i>J. Descotes, B. Nicolas, E. Pham and T. Vial</i>	29
Impact of Environmental Pollution on Respiratory Sensitization and Asthma <i>I. Kimber</i>	34

Functional Teratogenicity

Introduction to Functional Teratology <i>L. Dencker</i>	51
The Neurobehavioural Toxicology and Teratology of Lead <i>G. Winneke, H. Lilienthal and U. Krämer</i>	57
Teratogenic Effects of Alcohol: Current Status of Animal Research and <i>in vitro</i> Models <i>C. Guerri</i>	71
Developmental Neurotoxicology in the Neonate - Effects of Pesticides and Polychlorinated Organic Substances <i>P. Eriksson</i>	81

Drug Treatment in the Perinatal Period and the Risk of Functional Teratogenicity

<i>O. Benešová</i>	89
--------------------------	----

The Effects on Mammals of Pre- and Postnatal Environmental Exposure to PCBs: The Dutch Collaborative PCB/Dioxin Study

<i>A.E. Smits-van Prooije, D.H. Waalkens-Berendsen, D.C. Morse, C. Koopman-Esseboom, M. Huisman, P.J.J. Sauer, E.R. Boersma, J.H.C.M. Lammers, K.J. van den Berg, G.C. van der Paauw, B.M. Kulig and N.J. Snoeij</i>	97
--	----

Intercellular Communication

Connexin Genes and Cell Growth Control

<i>H. Yamasaki, V. Krutovskikh, M. Mesnil and Y. Omori</i>	105
--	-----

Disruption of Polarized Function in Hepatocytes

<i>J.K. Chipman, R. Coleman, J.C. Wilton, M.J. Guppy, V. Stone and D.J. Lankester</i>	115
---	-----

Cytokines in Human Lung Fibrosis

<i>Y. Martinet, O. Menard, P. Vaillant, J.-M. Vignaud and N. Martinet</i>	127
---	-----

The Glio-Vascular Toxicity of m-Dinitrobenzene and Related Agents: Modulation of Toxicity by Neuronal Activation

<i>D. Ray, J.L. Holton, T. Lister and C.C. Nolan</i>	140
--	-----

Mechanistic Studies of the Inhibition of Intercellular Communication by Organochlorine Compounds

<i>L. Wärngård, Y. Bager, Y. Kato, K. Kenne and U.G. Ahlborg</i>	149
--	-----

Renal Toxicology

Biotransformation and Renal Processing of Nephrotoxic Agents

<i>W. Dekant</i>	163
------------------------	-----

Methods for Studying Renal Toxicity

<i>M. Kruidering, B. van de Water and J.F. Nagelkerke</i>	173
---	-----

Site Specific Drug and Xenobiotic Induced Renal Toxicity

<i>G.M. Hawskworth, R. McCarthy, T. McGoldrick, V. Stewart, K. Tisocki and E.A. Lock</i>	184
--	-----

Metal Antidotes - New Developments

Mobilizers of Stored Cadmium

K. Bláha and M. Cikrt 195

Chemical, Pharmacological, Toxicological and Therapeutic Advances of Deferiprone (L1) and Other Iron and Aluminium Chelators

G.J. Kontoghiorghes 202

Free Radicals

Free Radicals in Toxicology: Redox Cycling and NAD(P)H:Quinone Oxidoreductase

W.A. Schulz, P. Eickelmann and H. Sies..... 217

Cytotoxic Impact of DNA Single vs Double Strand Breaks in Oxidatively Injured Cells

O. Cantoni, P. Sestili, A. Guidarelli, L. Palomba, L. Brambilla and F. Cattabeni 223

Mineral Fiber-Induced Oxidative Stress in Phagocytes

K.M. Savolainen and M. Ruotsalainen 236

Toward Risk Assessment of Heterocyclic Amines in Food

Chemical Methods for Assessing Systemic Exposure to Dietary Heterocyclic Amines in Man

D.S. Davies, N.J. Gooderham, S. Murray, A. Lynch, R. de la Torre, J. Segura and A.R. Boobis 251

Immunological Methods for Dosimetry of Heterocyclic Amines

L.O. Dragsted, S.E. Nielsen, B.L. Heitmann, S. Grivas and H. Frandsen 259

Formation and Processing of Reactive Metabolites of the Heterocyclic Amines

J. Alexander 275

Enzymic and Interindividual Differences in the Human Metabolism of Heterocyclic Amines

A.R. Boobis, N.J. Gooderham, R.J. Edwards, S. Murray, A.M. Lynch, M. Yadollahi-Farsani and D.S. Davies 286

Extrapolation of Heterocyclic Amine Carcinogenesis Data from Rodents and Nonhuman Primates to Humans <i>R.H. Adamson, U.P. Thorgeirsson and T. Sugimura</i>	303
--	-----

Clinical Toxicology of Peptides and Proteins

Antibodies Proposed as Therapeutic Agents <i>Ch. Bismuth, F.J. Baud, S.W. Borron and J.M. Scherrmann</i>	321
Unanticipated Human Toxicology of Recombinant Proteins. <i>B. Ryffel</i>	333
The Mechanism of Action of Tetanus and Botulinum Neurotoxins <i>C. Montecucco, G. Schiavo and O. Rossetto</i>	342

Individual Susceptibility to Occupational Toxicants

Specific Factors Leading to Interindividual Variability in Response to Occupational Toxicants <i>H.W. Goergens</i>	357
Genetic Predisposition in Occupational Toxicology <i>H.M. Bolt</i>	362
Individual Susceptibility to Occupational Toxicants: Practical Consequences for Risk Management <i>T. Norseth</i>	367

Ecotoxicology in Central Europe

Persistent Organic Pollutants - the State of Contamination of Ambient Air in Central Europe. Possible Sources and Effects <i>I. Holoubek</i>	381
Interdisciplinary "Case Studies" and Training Experts for Primary Prevention of Environmentally-Born Health Hazard <i>J.W. Dobrowolski</i>	391
Plants and Animals as Biomonitoring of Heavy Metal Level in the Aquatic Ecosystem of the River Danube <i>N. Oertel</i>	404

**Ataxonomic Assessment of Phytoplankton Integrity by Means of
Flow Cytometry**

C.E.W. Steinberg, H. Schäfer, M. Siedler and W. Beisker 417

The Young Scientist Poster Award

**Identification of the Highly Polymorphic S-Mephenytoin Hydroxylase
in Humans**

*P. Soucek, Z. Guo, P. Sandhu, M.V. Martin, J. Cosme, P.H. Beaune
and F.P. Guengerich*..... 437

Subject Index 439
