Part I Basics

1 Vision of Efficient Processes	3
1.1 The Need for Efficient Processes	4
1.1.1 Benefit	5
1.2 The History of Improvement Management	6
1.2.1 Influential Personalities	7
1.3 Value Creation and Waste in Administration	8
1.3.1 Value Creation in Administration	9
1.3.2 Waste in Administration	10
References	13
2 Prerequisites and Framework Conditions for a Successful Improvement Culture	15
2.1 Prerequisites for Optimising Workflows	16
2.1.1 Cooperative Corporate Culture: Leadership	17
2.1.2 Standardisation	18
2.1.3 Involvement of Employees (Know-How)	18
2.1.4 Objectives/Methods/Masurement/Measures	19
2.2 Procedure for the Implementation of Optimisations	19
2.2.1 Phase 1: Determining the Improvement Priorities	20
2.2.2 Phase 2: Implementation of the Individual Improvement Projects	22
2.2.3 Phase 3: Overall Measurement of Effectiveness	25
2.3 Limits of Improvement Management	26
References	28
3 Process Improvement Methods	29
3.1 Overview of Improvement Methods	30
3.1.1 Team-Oriented Continuous Improvement Process (CIP)	33
3.1.2 Kaizen	36
3.1.3 Six Sigma	40
3.1.4 Business Reengineering	45

3.1.5	Agile Methods	50
3.2	Comparison of the Different Methods	54
3.2.1	Commonalities	55
3.2.2	Differences	55
3.2.3	Other Methods	57
3.3	Selection of the Most Suitable Method	58
3.3.1	Benefit Versus Costs	58
	References	59
4	Tools for the Optimisation of Workflows	61
4.1	Tools for the Optimisation of Workflows	62
4.1.1	Eisenhower-Matrix	64
4.1.2	Fact Sheet	67
4.1.3	In-Frame and Out-of-Frame	70
4.1.4	SIPOC	73
4.1.5	VOC-CTQ-Analysis	76
4.1.6	Process Mapping	79
4.1.7	Ishikawa Diagram (Fishbone Diagram)	82
4.1.8	Spaghetti Diagram	85
4.1.9	Pareto Chart	88
4.1.10	Utility-Value Analysis	91
4.1.11	Cost-Benefit Analysis	94
4.1.12	Brainstorming	97
4.1.13	Burn Down Chart	100
4.1.14	Implementation Plan	103
4.1.15	Documentation of Improvement Projects	106
4.2	The Maturity Model	109
4.2.1	Use/Benefit	109
4.2.2	Procedure	110
4.2.3	Result	112
4.3	Practical Experience of an Expert with the Maturity Model	113
4.3.1	Importance of the Kaizen Audit and Requirements for the Maturity Model	116
4.3.2	Implementation and Application Possibilities of the Developed Kaizen Maturity Model	118
	References	120
5	Influence of Digitalisation on Process Optimisation	121
5.1	Digitalisation Is Revolutionising Existing Business Models	122
5.1.1	What Is Digitalisation?	122
5.1.2	Effects of Digitalisation	124
5.1.3	Effects of Digitalisation on Business Models	126
5.2	Effects of Digitalisation on Companies	128
5.2.1	Impact on Organisations	129
5.2.2	Effects on the Work Processes	130

5.3	Influence of Digitalisation on Improvement Management	131
5.3.1	The Roles Involved	133
5.3.2	Measurement of the Optimisations Achieved	133
	References	134

Part II Practice

6	Putting Process Optimisation in Practice	137
6.1	Practical Examples for Successful Implementation	138
6.1.1	Example 1: Financial Planning for Multiple Locations . . .	139
6.1.2	Example 2: Optimising the Preparation of Documents for the Project Committee	145
6.1.3	Example 3: Optimising the Commenting of Internally Executed Projects	151
6.2	Practical Experience of an Expert on the Kaizen Method	161
6.2.1	Interview with Stephan Spada	162
6.2.2	Practical Example by Stephan Spada: ‘Current Process IT Controlling’	165
7	Simulations to Illustrate the Improvement Methods	173
7.1	Simulations to Illustrate the Improvement Methods	174
7.1.1	Simulation 1: Standardisation	175
7.1.2	Simulation 2: Simulation with Building Blocks	178
7.1.3	Simulation 3: Simulation with Tennis Balls (Ball Point Game)	181
	Reference	183
