

Foreword by Brendan Rodgers.....	9
Acknowledgements.....	11
Chapter 1 Does Nutrition Really Matter in Football?	12
Why Nutrition Is Important for Football Performance	13
Who Am I?	16
What Is Different About This Book?	19
A Brief History of Nutrition for Football	21
The Role of the Performance Chef.....	25
Demons and Wizards.....	30
Some of the More Surprising Nutrition Choices Players Have Made.....	32
Chapter 2 Some Things You Need to Know About Nutrition and Nutrients..	36
What Are Nutrients?	36
The Need for Energy.....	37
The Major Classes of Nutrients.....	37
Carbohydrates.....	39
Fats.....	40
Proteins.....	43
Water.....	44
Essential Nutrients.....	45
Nonessential Nutrients.....	53
Chapter 3 Some Things You Need to Know About the Body's Metabolism... 56	
What Happens to the Food Consumed After It Has	
Entered the Body?	57
Some Basics of Energy Metabolism.....	58
How We Get the Energy From Stored Fuels for Exercise and	
Other Energy-Requiring Processes.....	62
Aerobic Metabolism	62
ATP Is the Energy Currency of the Cell	64
The Role of Phosphocreatine in Anaerobic Metabolism	66
The Role of Glycolysis in Anaerobic Metabolism.....	66

Energy Stores in the Body.....	67
Replenishing Energy Stores After Exercise.....	70
Losing or Gaining Body Weight: The Energy Balance Concept.....	72

Chapter 4 The Physiological and Nutritional Demands of Football..... 76

The Nature of the Game and How It Has Evolved.....	77
The Influence of Skill and Tactics (Think Barcelona Versus Oldham Athletic).....	79
Positional Differences in Energy Demand During Match Play.....	79
The Fuels Used During Match Play.....	80
Fatigue Development During Match Play.....	81
The Demands of Training.....	84
Keeping Players Fit and Healthy.....	84
The Support Team Including Those Who Can Influence the Nutrition of Players.....	85

Chapter 5 Nutrition for Training Days..... 88

Training Goals: Improving Fitness and Preparing for the Next Match.....	89
Energy and Macronutrient Needs for Training.....	91
Carbohydrate Requirements.....	91
Fat Requirements.....	96
Protein Requirements.....	97
Water Requirements.....	99
Essential Micronutrient Requirements.....	104
Vitamin D.....	104
Calcium.....	105
Iron.....	105
Supplements Used to Support Training.....	106
Sports Foods and Drinks.....	106
Creatine.....	107
β-alanine.....	108
Caffeine.....	108
Risks of Taking Supplements.....	109
Eating and Drinking on Training Days.....	110
How Nutrition Can Help to Keep Players Healthy Throughout the Season.....	113
Cultural and Religious Influences on a Player's Food Choices.....	116
Food Preferences, Allergies and Tolerance Issues.....	117
Is It Possible to Be a Vegetarian or Vegan Footballer?.....	118

Good Food Hygiene Practices	118
Cross-Contamination	120
Cleaning	120
Chilling	121
Cooking	121
Chapter 6 Nutrition for Match Days	124
Pre-Match Nutrition	125
In-Play Nutrition	129
Half-Time Nutrition	132
Supplements to Boost Match-Day Performance	133
Extra-Time Nutrition	136
Post-Match Nutrition	137
Influence of Different Match Timings	138
Nutrition for Travel	142
Chapter 7 Recovery Nutrition	144
Post-Match Nutrition: Rehydration, Refuelling and Repair	145
Restoring Muscle Glycogen	147
Reducing Muscle Soreness	151
Nutrition and Sleep	153
Chapter 8 Body Weight and Composition	161
Assessment of Body Composition	163
How Fat Are Professional Footballers?	165
Is There an Ideal Body Composition for a Football Player?	166
Changing a Player's Body Composition	166
Achieving Weight Loss in Players Without Negatively	
Impacting Their Performance	168
Building Muscle Mass in Players Through Changes to	
Diet and Training	170
Chapter 9 Injury and Rehabilitation Nutrition	176
Injury Rates in Professional Football	176
Can Nutrition Help to Speed Up Healing From Injuries?	177
Nutritional Strategies to Reduce Muscle Loss and Assist	
Rehabilitation From Injury	178

Chapter 10 Special Considerations.....	181
Nutrition for Elite Female Players	182
Differences in Micronutrient Needs.....	183
Potential Concerns About Inadequate Energy Intake in Female Footballers	185
Nutrition for Youth Players.....	188
Macronutrient Requirements for Junior Players	191
Micronutrient Requirements and Supplements for Junior Players.....	192
Nutrition for Match Officials	194
Diabetic Footballers.....	195
Nutrition During the Off-Season	198
Nutrition During Pre-Season	199
Nutrition for the Retired Player.....	200
Nutrition for Managers, Coaches and Support Staff.....	206
Chapter 11 Football for Everyone	208
The Health Benefits of Playing Regular Football	208
Health Risks of Playing Football	212
The Amateur Player.....	213
Nutrition for Days When Training in the Evening	213
Nutrition for the Day Before a Match.....	214
Nutrition on Match Day	214
The Fans.....	217
Chapter 12 Meal Plans and Recipes for Footballers	222
Training Days	224
Breakfasts	224
Post-Training Lunches	232
Dinners	246
Snacks	274
Match Days.....	275
Breakfasts	275
Pre-Match Meals.....	277
Post-Match Meals.....	286
