

Table of Contents

1 Initial remarks and objectives 1

2 Introduction..... 4

2.1 The herpesvirus family 4

2.2 The herpesviral genome..... 8

2.3 The alphaherpesviral serine/threonine kinase pUS3 9

2.4 The tegument protein pUL21 12

2.5 Pseudorabies Virus and Aujeszky's disease 14

2.6 Herpes Simplex Virus 1 and Herpes Simplex Encephalitis 17

2.7 Varicella Zoster Virus related diseases 21

2.8 Neuroanatomy and alphaherpesviral neuroinvasion 23

3 Publications 29

4 Contribution to publications..... 71

5 Results and discussion..... 73

5.1 Characterization of the pUS3 kinase and its role in nuclear egress (paper I).. 74

5.2 Characterization of mutant PrV-ΔUL21/US3Δkin *in vitro* and *in vivo* (paper II) 76

6 Summary 85

6 Zusammenfassung 88

7 References 91

8 Appendix 121

8.1 Eigenständigkeitserklärung 121

8.2 Publications 122

8.3 Oral and poster presentations 123

8.4 Acknowledgement 124
