List of Abbreviations	XV
Introduction	1
Chapter 1. International Architecture: The Climate Change Legal Regime and Carbon Markets	5
1.1. The United Nations Framework Convention on Climate Change (UNFCCC)	6
1.2. The Kyoto Protocol (KP)	9
1.2.1 Joint Implementation and Clean Development Mechanism	13
1.2.2. Emissions Trading and Use of Offsets	13
1.2.3. Units Accepted under the KP Framework	16
1.2.4. Compliance Framework Outside the Kyoto Protocol	18
1.3. The Paris Agreement and the New Climate Regime	20
Chapter 2. European Framework: Design Elements of the European Union Emissions Trading Scheme (EU ETS)	31
2.1. Institutional and Regulatory Framework at Union Level	32
2.1.1. Institutions: Executive, Judicial, Legislative Branches	32
2.1.2. The Legislative Procedure	34
2.1.3. Competence in Environmental Matters	37
2.2. General Framework and Design Elements of the EU ETS	40
2.2.1. Definition of Coverage and Scope	42
2.2.2. Setting the Cap: From Member States to the Union Registry	43
2.2.3. Allocation Method: From Free Allocation to Auctioning	46
2.2.4. Legal Nature of Allowances	50
2.2.5. Compliance Flexibility: Offsets, Banking, and Borrowing	52
2.2.6. Enforcement: Monitoring, Reporting, Verification	56

2.2.7. Reform of the EU ETS: Back-loading of Allowances and Market Stability Reserve	59
2.3. Court Cases	64
2.3.1. Court of Justice of the European Union	64
2.3.2. Rulings of the CJEU related to the Functioning of the EU ETS	66
A. The NAPs and the Principle of Equal Treatment	66
B. Enforcement and Penalties for noncompliance	68
C. Allocation and Legal Certainty	70
Chapter 3. Germany: Implementation of the EU ETS Directive	73
3.1. Institutional and Regulatory Framework at Member State Level	74
3.1.1. Powers: Legislative, Executive, Judicial Branches	74
3.1.2. Competences: Environmental and Climate Matters	75
3.1.3. State and National Climate Laws	78
3.2. Transposing the EU ETS Directive into National Action and Court Cases	81
3.2.1. Preparing the Ground for the EU ETS	81
3.2.2. The German Greenhouse Gas Emission Allowance Trading Act (TEHG)	83
3.2.3. The German Allocation Acts and Ordinances (ZuG / ZuV)	87
3.3. German National Emissions Trading System (nEHS)	91
Chapter 4. Brazil: General Framework on Climate Change and Voluntary GHG Emission Reduction Targets	95
4.1. Institutional and Regulatory Framework	96
4.1.1. Institutions: Legislative, Executive, Judicial Branches	96
4.1.2. Competence in Environmental Matters	97
4.1.3. From International Negotiations to the National Regulation of Greenhouse Gas Emissions	101
4.2. General Framework and the National Policy on Climate Change	103
4.2.1. The Institutional Framework at Federal Level	103
4.2.2. GHG Emissions and Targets at National Level	106
4.2.3. Pilot Projects and State Initiatives	109
4.3. The Brazilian Emissions Reduction Market (MBRE)	114
4.4. Instruments: Sectoral Plans and Funding	116

4.5. Mandatory Targets and Biofuels: RenovaBio	119
4.6. Court Cases	121
Chapter 5. Path Forward: Cooperation in a Fragmented Framework	125
5.1. Compliance vs. Voluntary Carbon Markets: Similarities and Differences	125
5.1.1. What drives Demand and Supply?	127
5.1.2. What are the Units that can be Traded?	131
5.1.3. Which Is the Role Played by Registry Systems?	133
5.2. Pos-2020: The Consolidation of a Fragmented Framework with Carbon Border Adjustments	135
Conclusions	141
References	145
References of Regulations / Decisions	165
References of Court Cases	171
