

Contents

1	A New Kind of Extension	1
1.1	From Real to Virtually Real	1
1.2	Extensions	4
1.3	<i>Being</i> ... Where?	8
1.3.1	Breaks in Presence	9
1.3.2	Cognitive Penetrability of Visual Perception and Presence	11
1.3.3	Some Other Factors Affecting Presence	13
1.3.4	Lost and Inverse	15
1.4	Physicality Expectations and Pathways to Illusion	16
1.4.1	Virtual Embodiment	17
1.4.2	Feeling What is not There	22
1.5	Consensual Illusion	25
	References	27
2	Self in Virtual Reality	33
2.1	The Puzzle of Having a Self	33
2.2	Disjoint Self	34
2.2.1	The Minimal Self	36
2.3	Denaturalized Body	37
2.3.1	Body Representation: Body Image and Body Schema	38
2.3.2	A Combined Tools Extension of the Body	40
2.3.3	Bodily Self-Consciousness	42
2.3.4	Spatial Perspective Taking and Extracorporeal Experiences	44
2.3.5	Perceptual Asynchrony and Information Integration	46
2.4	The Neural Basis of Self-Representation	49
	References	52
3	Self and the Virtual Other	57
3.1	Social Cognition	57
3.1.1	Theory of Mind	60
3.1.2	Attributing Minds to Non-Human Entities	63

- 3.1.3 The We-Mode 65
 - 3.1.4 Relational Models 67
 - 3.2 The Social Brain 69
 - 3.3 Social Interaction in Virtual Environments 73
 - 3.3.1 Relational Models and We-Mode in Virtual Environments 75
 - 3.3.2 Interacting with Virtual Characters 77
 - 3.3.3 Virtual Togetherness 80
