

Contents

Model-Driven Useware Engineering	1
<i>Gerrit Meixner, Marc Seissler, Kai Breiner</i>	
Multi Front-End Engineering	27
<i>Goetz Botterweck</i>	
A Design Space for User Interface Composition	43
<i>Fabio Paternò, Carmen Santoro, Lucio Davide Spano</i>	
Applying Meta-Modeling for the Definition of Model-Driven Development Methods of Advanced User Interfaces	67
<i>Stefan Sauer</i>	
Using Storyboards to Integrate Models and Informal Design Knowledge	87
<i>Mieke Haesen, Jan Van den Bergh, Jan Meskens, Kris Luyten, Sylvain Degrandart, Serge Demeyer, Karin Coninx</i>	
Optimized GUI Generation for Small Screens	107
<i>David Raneburger, Roman Popp, Sevan Kavaldjian, Hermann Kaindl, Jürgen Falb</i>	
Business Performer-Centered Design of User Interfaces	123
<i>Kênia Sousa, Jean Vanderdonckt</i>	
A Formal Model-Based Approach for Designing Interruptions-Tolerant Advanced User Interfaces	143
<i>Philippe Palanque, Marco Winckler, Célia Martinie</i>	
Dynamic Distribution and Layouting of Model-Based User Interfaces in Smart Environments	171
<i>Dirk Roscher, Grzegorz Lehmann, Veit Schwartze, Marco Blumendorf, Sahin Albayrak</i>	

Model-Driven Development of Interactive Multimedia Applications with MML	199
<i>Andreas Pleuss, Heinrich Hussmann</i>	
Taking Advantage of Model-Driven Engineering Foundations for Mixed Interaction Design	219
<i>Guillaume Gauffre, Emmanuel Dubois</i>	
T:XML: A Tool Supporting User Interface Model Transformation	241
<i>Víctor López-Jaquero, Francisco Montero, Pascual González</i>	
Formalizing Interaction Patterns	257
<i>Paolo Bottoni, Esther Guerra, Juan de Lara</i>	
Task Models in the Context of User Interface Development	277
<i>Gerd Szwillus</i>	
Author Index	303
