PRESENTATION	
<i>Paola Cotticelli-Kurras</i>	7
INTRODUCTION	15
1. ‘Ingenuous’ and ‘theoretical’ concepts in syntax	21
2. A note on ῥῆμα and λόγος in Aristotle	33
3. <i>Subiectum</i> and <i>Praedicatum</i> from classical antiquity to Port-Royal	45
4. The translation of λόγος in chap. 20 of Aristotle’s <i>Poetics</i>	57
5. ‘Transitivity’ — the (partially) classical roots of a problematic concept	97
6. The immediate constituents analysis before Bloomfield	109
7. The asterisk from historical to descriptive and theoretical linguistics. A historical note	120
8. The treatment of syntax by some early 19th century linguists. New insights and continuity of General Grammar	127
9. Old debates and current problems. <i>Völkerpsychologie</i> and the question of the individual and the social in language	147
