1	Introduction	1
2	Classification	2
3	Medical history	4
3.1	Symptoms of the respective injuries	5
3.1.1	Symptoms of neurogenic muscle hardening (2A)	5
3.1.2	Symptoms of muscle strain (2B)	5
3.1.3	Symptoms of a muscle fiber rupture (3A)	6
3.1.4	Symptoms of a muscle bundle rupture (3B)	6
3.1.5	Symptoms of a partial tear or muscle tear (4)	6
4	Examination	7
4.1	The importance of palpation in my personal career at FC Bayern Munich	8
4.2	Results of the examination	9
4.2.1	Examination findings of neurogenic muscle hardening (2A)	9
4.2.2	Examination findings of muscle strain (2B)	10
4.2.3	Examination findings of the muscle fiber rupture (3A)	11
4.2.4	Examination of muscle bundle tear (3B)	12
5	Therapy of muscle injuries	13
5.1	Therapy of neurogenic muscle hardening (2A)	14
5.2	Therapy of muscle strain (2B)	14
5.3	Therapy of the muscle fiber rupture (3A)	14
5.4	Therapy of the muscle bundle rupture (3B)	16
6	The importance of the spine in the genesis of torn muscle fibers	17
7	Molecular biological therapy	19
7.1	Traumeel®	19
7.2	Actovegin®	19
7.3	Vitamins A, C and E	19
7.4	Zinc	19
7.5	Magnesium	20
7.6	Enzymes	20
8	Critical evaluation of magnetic resonance imaging of muscle injuries	21
8.1	Patient cases with incorrect diagnosis after magnetic resonance imaging	21
