

# Contents

**Preface — V**

**List of contributors — IX**

**About the series — XIII**

**About the editor — XV**

Dharshini Gopal, Sinosh Skariyachan

**Applications of computational intelligence and predictive analytics in screening potential lead molecules toward COVID-19: scope of repurposed drugs — 1**

Aakriti Mathur, Priyanka Raja, Praveen Kumar

**Classification and clustering algorithms in identifying patterns in medical science — 33**

Aryan Garg, Somil Tyagi

**IoT – a supportive system for solving issues related to medical monitoring — 53**

Manjunath N

**Bioheat transfer simulation during RFA — 67**

Punam Das, Deepak Kumar

**Supervised classification and clustering algorithms for spatiotemporal change analysis assessment of urban growth — 85**

S Ruban, Sanjeev Rai

**Enabling data to develop an AI-based application for detecting malaria and dengue — 115**

Jisu Elsa Jacob

**Pertinence of signal processing techniques in EEG analysis — 139**

Ankita Arora, Sanchit Guliani

**Fitness tracking diagnostics — 159**

M. Muthuselvam, J.V. Subramanian, M.A. Parameshwari

**Personal big data-directed policies hoard and scrutinize colossal health data from emerging technologies — 175**

**Shubham Sharm, Naincy Chamoli**

**Real-time patient health monitoring — 193**

**Afzal Ansari, Sourabh Kumar Burnwal**

**Forecasting, visualization and analysis of COVID-19 in India using time series modeling — 217**

**Shubhi Gupta, Swati Vashisht, Syed Mufassir Yaseen**

**Noninvasive prediction techniques of diabetic retinopathy — 233**

**Trilochana Basnett, Maya Kumari, Richa Sharma, Suresh Kumar**

**Change vector analysis in relation to terrain parameters using temporal remote sensing satellite data — 257**

**Nitin Sharma, Kartik Gautam, Praveen Kumar**

**Cloud-based E-learning platforms — 271**

**Pranjit Kalita, Kumar Anubhav, Deepak Kumar, Kumar Aashish**

**Computational intelligence for analysis of urban surface temperature over various urban land cover features — 285**

**Tavishi Tewary, Namita Kapoor**

**Predictive analysis of consumers' perception and decision-making process toward e-healthcare services in India — 301**

**Index — 317**
