Thanks — V

Preface — VII

1 Introduction — 1

- 1.1 Cross-Platform Development — 1
- 1.2 Motivation — 2
- 1.3 Target Group — 3
- 1.4 Structure and Aim of the Book — 3

Part I: Foundations

2 Foundations of Dart — 7

- 2.1 The Dart Language — 7
 - 2.1.1 Mobile and Web — 8
 - 2.1.2 Installation — 8
- 2.2 Dart Syntax — 9
 - 2.2.1 Start Program — 9
 - 2.2.2 Data Types — 9
 - 2.2.3 Control Flow — 14
 - 2.2.4 Exception Handling — 17
 - 2.2.5 Object-oriented Programming — 19
 - 2.2.6 Shorter Spellings — 20
 - 2.2.7 Named Constructors, Optional Parameters, Fat-Arrow — 22
 - 2.2.8 Immutable, Annotations — 24
 - 2.2.9 Packages and Dependencies — 25
 - 2.2.10 Factory Constructor and Initialization List — 27
 - 2.2.11 Inheritance, Mixins and Interfaces — 28
 - 2.2.12 Dynamic Extension of Types — 30
 - 2.2.13 Generic Classes — 31
 - 2.2.14 Asynchronous Operations — 33
 - 2.2.15 Generators: Iterators and Streams — 35
 - 2.2.16 Null-Safety — 38

3 Tools — 41

- 3.1 Installation — 41
 - 3.1.1 Additional Software — 42
 - 3.1.2 Free Software, Resources and Licenses — 42

3.1.3	Installation of the Flutter Framework —	43
3.1.4	Installation of Android Studio —	45
3.1.5	Installation of Visual Studio Code —	46
3.1.6	Creating and Starting Projects with Android Studio —	46
3.1.7	Creating and Starting Projects with Visual Studio Code —	52
3.1.8	Creating and Debugging Projects from the Command Line —	53
3.1.9	Dev-Tools —	54
3.2	Tiled-Editor —	54
3.3	Rive and Nima —	54
4	Fundamentals of Flutter —	59
4.1	Why Flutter? —	59
4.2	Material Design + —	60
4.3	Flutter Layouts —	61
4.3.1	Everything is a Widget —	62
4.3.2	Layout Example without State —	63
4.3.3	The Navigator —	68
4.3.4	A Layout with State —	72
4.4	Flutter Packages —	78
4.4.1	Map Extensions —	80
4.4.2	How to program Flutter Extensions —	84
4.4.3	Simple Animations —	86
4.4.4	Animations with Nima and Rive —	89
4.4.5	An animated Backdrop Component —	93
4.5	Automated Tests —	98

Part II: Practice

5	Cloud Based Application —	103
5.1	Google Firebase —	103
5.1.1	Setup —	103
5.1.2	Firestore —	105
5.1.3	Messenger —	108
5.1.4	Google Play Games Services —	110
6	Desktop App —	117
6.1	Access to the File System —	117
6.2	The Data —	120
6.3	The Layout —	123

6.4	The Interaction —	124
6.4.1	The Drawing Process —	124
7	Chicken Maze —	133
7.1	Overview —	133
7.1.1	Technical Features —	133
7.2	Conception —	137
7.3	The Code in Detail —	137
7.3.1	Start and Initializations —	141
7.3.2	Localization —	145
7.3.3	The Main Function and Routes —	147
7.4	The Screens —	150
7.4.1	The About-Page —	150
7.4.2	The Custom Look —	152
7.4.3	The Foldout Menu —	154
7.4.4	The Start Page —	156
7.4.5	The Settings Page —	158
7.4.6	The Pause Page —	163
7.4.7	The Game Over Page —	165
7.4.8	The High Score Page —	168
7.5	Server Query —	173
7.5.1	Client Side —	173
7.5.2	Server Side —	175
7.6	The Game Logic —	180
7.6.1	The Games Page —	180
7.6.2	The Chicken Game —	180
7.6.3	The Inputhandler —	190
7.6.4	The Game Characters —	194
7.6.5	The Chicken —	197
7.6.6	The Enemies —	200
7.6.7	The Labyrinth —	205
7.6.8	Auxiliary Classes —	208
