

Table of Contents

Symbols	11
Abbreviations	13
Chapter 1 Introduction	15
1.1 Overall Aim	17
1.2 Structure	18
Chapter 2 The Mexican Electricity System	21
2.1 Land Use & Climate	21
2.2 Electricity System	22
2.2.1 Administrative Framework	24
2.2.2 Supply	26
2.2.3 Demand	30
2.3 Biomass for electricity production in Mexico	31
Chapter 3 Biomass Residues for Electricity Production in Mexico	35
3.1 Promising biomass residues in Mexico	35
3.1.1 Forestry and Agricultural Residues	36
3.1.2 Municipal by-Products	40
3.2 Biomass residues – Conversion routes	44
3.2.1 Thermochemical conversion	44
3.2.2 Biochemical conversion process	45
Chapter 4 Methodological Approach and Frame Assumptions	47
4.1 Overall approach and basic assumptions	47
4.2 Technical Potential	49
4.2.1 Methodology	50
4.2.2 Basic assumptions	51
4.3 Economic Potential	52
4.3.1 Methodology	52
4.3.2 Basic assumptions	53

4.4	Scenarios - Methodology and basic assumptions.....	55
4.4.1	Technical potential scenarios.....	55
4.4.2	Economic potential scenarios	56
Chapter 5	Municipal Solid Waste	59
5.1	Methods and Data	59
5.1.1	Technical Potential	59
5.1.2	Economic potential	62
5.1.3	Historical data development and projected scenario	63
5.2	Results	64
5.2.1	Technical Potential	64
5.2.2	Economic Potential.....	68
5.2.3	Summary and Discussion	71
5.2.4	Preliminary Conclusions.....	72
Chapter 6	Wastewater.....	75
6.1	Methods and Data	75
6.1.1	Technical Potential	75
6.1.2	Economic potential	77
6.1.3	Historical data development and projected scenario	78
6.2	Results	79
6.2.1	Technical Potential	79
6.2.2	Economic Potential.....	82
6.2.3	Summary and Discussion	85
6.2.4	Preliminary Conclusions.....	86
Chapter 7	Animal Waste.....	89
7.1	Methods and Data	89
7.1.1	Technical Potential	89
7.1.2	Economic potential	91
7.1.3	Historical data development and projected scenario	91
7.2	Results	93
7.2.1	Technical Potential	93
7.2.2	Economic Potential.....	97
7.2.3	Summary and Discussion	100
7.2.4	Preliminary Conclusions.....	101

Chapter 8 Forest Residues 103

 8.1 Methods and Data 103

 8.1.1 Technical Potential 103

 8.1.2 Economic Potential..... 106

 8.1.3 Historical data development and projected scenario 107

 8.2 Results..... 108

 8.2.1 Technical Potential 109

 8.2.2 Economic Potential..... 112

 8.2.3 Summary and Discussion 115

 8.2.4 Preliminary Conclusions..... 116

Chapter 9 Crop Residues 117

 9.1 Methods and Data 117

 9.1.1 Technical Potential 117

 9.1.2 Economic Potential..... 119

 9.1.3 Historical data development and projected scenario 119

 9.2 Results..... 120

 9.2.1 Technical Potential 120

 9.2.2 Economic Potential..... 124

 9.2.3 Summary and Discussion 128

 9.2.4 Preliminary Conclusions..... 129

Chapter 10 Results Summary..... 131

 10.1 Summary of potentials 131

 10.1.1 Summary of Technical Potential 131

 10.1.2 Summary of Economic Potential..... 135

 10.2 Comparison of potentials 140

Chapter 11 Final Considerations..... 143
