1	Fuzzy Set Theory	1
1.1	Fuzzy Sets	2
1.2	Basic Concepts of Fuzzy Sets	7
1.3	Fuzzy Number	14
1.4	Fuzzy Arithmetic	17
1.5	Membership Function	37
1.6	Possibility Distribution	51
2	Fuzzy Multiple Objective Decision Making	57
2.1	Farm Structure Optimization Problem under Fuzzy Environment	57
2.2	Fuzzy Variable	59
2.2.1	Definition of Fuzzy Variable	59
2.2.2	Possibility, Necessity and General Fuzzy Measure	64
2.2.3	Expected Value Operator of Fuzzy Variables	69
2.3	Fuzzy EVM	77
2.3.1	General Model for Fuzzy EVM	77
2.3.2	Linear Fuzzy EVM and Two-Stage Method	79
2.3.3	Non-linear Fuzzy EVM and Fuzzy Simulation-Based PSO	84
2.4	Fuzzy CCM	92
2.4.1	General Model for Fuzzy CCM	92
2.4.2	Linear Fuzzy CCM and Goal Programming Method	95
2.4.3	Non-linear Fuzzy CCM and Fuzzy Simulation-Based PSO with Preference Order	107
2.5	Fuzzy DCM	111
2.5.1	General Model for Fuzzy DCM	111
2.5.2	Linear Fuzzy DCM and Ideal Point Method	114

2.5.3	Non-linear Fuzzy DCM and Fuzzy Simulation-Based PSO with Shrinkage Factor	119
2.6	Application of Farm Structure Optimization Problem	122
2.7	Multi-objective Decision Making with Fuzzy Relations	128
2.7.1	Multi-objective Decision Making with Fuzzy Constraints	128
2.7.2	Multi-objective Decision Making with Fuzzy Objectives	131
3	Fuzzy Random Multiple Objective Decision Making	135
3.1	Portfolio Selection Problem under a Fuzzy Random Environment	136
3.2	Fu-Ra Variable	138
3.2.1	Definition of Fu-Ra Variable	138
3.2.2	Expected Value Operator of Fu-Ra Variables	140
3.2.3	Chance Operator of Fu-Ra Variables	142
3.3	Fu-Ra EVM	144
3.3.1	General Model for Fu-Ra EVM	144
3.3.2	Linear Fu-Ra EVM and Fuzzy Satisfied Method	147
3.3.3	Non-linear Fu-Ra EVM and Fu-Ra Simulation-Based GA	153
3.4	Fu-Ra CCM	168
3.4.1	General Model for Fu-Ra CCM	168
3.4.2	Linear Fu-Ra CCM and Surrogate Worth Trade-Off Method	170
3.4.3	Non-linear Fu-Ra CCM and Fu-Ra Simulation-Based Adaptive Weight GA	180
3.5	Fu-Ra DCM	186
3.5.1	General Model for Fu-Ra DCM	187
3.5.2	Linear Fu-Ra DCM and Satisfying Trade-Off Method	189
3.5.3	Non-linear Fu-Ra DCM and Fu-Ra Simulation-Based Compromise GA	198
3.6	Application to the Portfolio Selection Problem	202
3.6.1	Assumptions	202
3.6.2	Chance Constrained Portfolio Selection Model	204
3.6.3	λ mean-Variance Portfolio Selection Model	207
3.7	Another Way to Deal with Fuzzy Random Multi-objective Decision Making Model	215
3.7.1	(α, β) -Satisfied Solution for Fu-Ra Multi-objective Decision Making Model	216
3.7.2	Application to Inventory Problems	220
4	Bifuzzy Multiple Objective Decision Making	227
4.1	Raw Material Purchasing Problem under Bifuzzy Environment ...	227
4.2	Fu-Fu Variable	229

4.2.1	Level-2 Fuzzy Set, Type-2 Fuzzy Sets and Fu-Fu Variable	229
4.2.2	Expected Value Operator of Fu-Fu Variables	231
4.2.3	Chance Operator of Fu-Fu Variables	232
4.3	Fu-Fu EVM	233
4.3.1	General Model for Fu-Fu EVM	233
4.3.2	Linear Fu-Fu EVM and Step Method	234
4.3.3	Nonlinear Fu-Fu EVM and Fu-Fu Simulation Based SA ...	244
4.4	Fu-Fu CCM	249
4.4.1	General Model for Fu-Fu CCM	249
4.4.2	Linear Fu-Fu CCM and Lexicographic Method	251
4.4.3	Nonlinear Fu-Fu CCM and Fu-Fu Simulation Based Parallel SA	260
4.5	Fu-Fu DCM	265
4.5.1	General Model for Fu-Fu DCM	265
4.5.2	Linear Fu-Fu DCM and Weight Sum Method	266
4.5.3	Nonlinear Fu-Fu DCM and Fu-Fu Simulation Based Adaptive SA	271
4.6	Application to Purchasing Problem in a Large-Scale Integrated Steel Plant	277
4.6.1	Modelling	278
4.6.2	Data Collection	281
4.6.3	Model Processing Specification	281
4.7	Another Way to Deal with Fu-Fu Multi-objective Decision Making Model	286
5	Fuzzy Rough Multiple Objective Decision Making	295
5.1	Integrated Logistics Problem under Fuzzy Rough Environment ...	295
5.2	Fu-Ro Variable	298
5.2.1	Definition of Fu-Ro Variable	298
5.2.2	Expected Value Operator of Fu-Ro Variables	308
5.2.3	Chance Operator of Fu-Ro Variables	311
5.3	Fu-Ro EVM	312
5.3.1	General Model for Fu-Ro EVM	312
5.3.2	Linear Fu-Ro EVM and Minimax Point Method	314
5.3.3	Non-linear Fu-Ro EVM and Fu-Ro Simulation-Based TS	320
5.4	Fu-Ro CCM	327
5.4.1	General Model for Fu-Ro CCM	328
5.4.2	Linear Fu-Ro CCM and Fuzzy Goal Method	330
5.4.3	Non-linear Fu-Ro CCM and Fu-Ro Simulation-Based Parametric TS	341
5.5	Fu-Ro DCM	347
5.5.1	General Model for Fu-Ro DCM	347
5.5.2	Linear Fu-Ro DCM and ϵ -Constraint Method	349

5.5.3	Non-linear Fu-Ro DCM and Fu-Ro Simulation Based Parallel TS	358
5.6	Application to Integrated Logistics Network Design Problem	364
5.6.1	Modelling for Integrated Reuse Logistics Network under Fuzzy Rough Environment	365
5.6.2	Uncertain Linear Multi-objective Model	368
5.6.3	Application to Beer Company	370
