

Table of Contents

Section I: The Evolution of Conceptual Modeling Techniques

Real-World Semantics of Conceptual Models	1
<i>Roel Wieringa</i>	
Templates in Domain Modeling – A Survey	21
<i>Christian Kop and Heinrich C. Mayr</i>	
Integrity Constraints in (Conceptual) Database Models	42
<i>Bernhard Thalheim</i>	
Modeling Techniques for Multi-level Abstraction	68
<i>Bernd Neumayr, Michael Schrefl, and Bernhard Thalheim</i>	
Random Thoughts on Multi-level Conceptual Modelling	93
<i>Brian Henderson-Sellers</i>	
On the Evolution of Quality Conceptualization Techniques	117
<i>Vladimir A. Shekhovtsov</i>	

Section II: Extensions of Conceptual Modeling

A Web of Knowledge: A Conceptual-Modeling Perspective	137
<i>David W. Embley, Stephen W. Liddle, and Cui Tao</i>	
Service-Based Semantic Collaboration in Networked Systems: A Conceptual Perspective	161
<i>Devis Bianchini, Valeria De Antonellis, and Michele Melchiori</i>	
Conceptual Modeling Approaches for Dynamic Web Service Composition	180
<i>Georg Grossmann, Rajesh Thiagarajan, Michael Schrefl, and Markus Stumptner</i>	
The Dynamics of Process Modeling: New Directions for the Use of Events and Rules in Service-Oriented Computing	205
<i>Susan D. Urban, Le Gao, Rajiv Shrestha, and Andrew Courter</i>	
Exception Handling in Web Service Processes.....	225
<i>Dietmar Jannach and Alexander Gut</i>	

Leveraging Model-Based Tool Integration by Conceptual Modeling
Techniques 254
 *Gerti Kappel, Manuel Wimmer, Werner Retschitzegger, and
 Wieland Schwinger*

Section III: New Directions for Conceptual Modeling

Data Model for Scientific Models and Hypotheses 285
 Fabio Porto and Stefano Spaccapietra

Model-Based Engineering Applied to the Interpretation of the Human
Genome 306
 *Oscar Pastor, Ana M. Levin, Matilde Celma,
 Juan Carlos Casamayor, Aremy Virrueta, and
 Luis E. Eraso*

Author Index 331
