Preface — V

About the editors — IX

List of contributing authors — XIII

Awais Ikram, Franci Pušavec

1 Control, monitoring, modeling, and optimization of manufacturing and machining technologies — 1

Jürgen Neises, Spyridon Evangelatos, Thomas Walloschke, George Moldovan, Hendrik Eikerling, Bianca Popovici, Cosmin Grigoras, Daniel Calvo, Adrien Hemmer, John Soldatos

2 Trustworthy human-machine assistance by dynamic process security monitoring in industrial environments — 55

Zoran Miljković, Lazar Đokić, Milica Petrović

3 Application of convolutional neural networks for visual control of intelligent robotic systems — 83

Bojan R. Babic

4 Digital twins in smart manufacturing — 113

Maznah Iliyas Ahmad, Yusri Yusof, Md Elias Daud, Kamran Latif, Aini Zuhra Abdul Kadir, Anbia Adam, Noor Hatem, Yazid Saif, Danish Memon, Zohib Khan

5 A novel implementation of an open CNC PC-based and service-oriented architecture-based monitoring system for STEP-NC – a case study — 135

Yazid Saif, Yusri Yusof, Kamran Latif, Aini Zuhra Abdul Kadir, Maznah Iliyas Ahmed, Anbia Adam, Noor Hatem

6 Smart system based on STEP-NC for machine vision inspection (3SMVI) — 155

B. Sredanović, Đ. Čiča, D. Kramar

7 Soft computing in advanced cutting processes — 181

XII — Contents

Jagadish, Manjunath Patel G C

- 8 Modeling and optimization of AWJM process on the processing of Banana fiber-reinforced polymer composites using Taguchi-JAYA method — 253**

Index — 271
