

Contents

Kağan Kurşungöz and Ayberk Zeytin

Editor's note — 1

Emre Alkan

Number of shifted primes as k -free integers — 15

Mohammed Mekkaoui, Abdallah Derbal, and Kamel Mazhouda

Note on the value distribution of the derivative of the Dirichlet L -functions at its a -points — 35

Roma Kačinskaitė and Kohji Matsumoto

A survey of the theory of mixed joint universality for zeta-functions — 47

Michel Waldschmidt

Integer-valued functions, Hurwitz functions, and related topics: A survey — 61

Ekin Özman and Samir Siksek

S -unit equations and the asymptotic Fermat conjecture over number fields — 83
