

Contents

Part I. Follicle and Ovum Maturation

Control of the Development of Meiotic Competence of Oocyte Maturation in Mammals (A. Tsafiriri, S. Bar-Ami, and H.R. Lindner/Rehovot, Israel)	3
The Preovulatory Human Oocyte and its Microenvironment (O. Bomsel-Helmreich/Clamart, France)	19
Cytoplasmic Changes in Mammalian Oocytes During the Preovulatory Period (D. Szöllösi and M. Gerard/Jouy-en-Josas, France)	35
Selection and Maturation of the Dominant Follicle and Its Ovum in the Menstrual Cycle (G.D. Hodgen, A.L. Goodman, R.L. Stouffer, R.F. Williams, G.S. diZerega, O.L. Kreitmann, E.L. Marut, and R.S. Schenken/Bethesda, Md., USA)	57

Part II. Preparation of Patient and Timing of Oocyte Collection

Influence of Ovarian Stimulation on Follicular Fluid Steroid Levels and Fertilizability of the Oocyte (J. Testart, R. Frydman, M. Castanier, B. Lassalle, and J. Belaisch/ Clamart, France)	73
Ultrasound Diagnosis of Follicle Growth and Ovulation (B.-J. Hackelöer and M. Hansmann/Marburg and Bonn, Germany)	83
Hormonal and Ultrasonic Monitoring of Follicular Development and Ultrasound-guided Follicular Puncture (L. Nilsson, L. Hamberger, P.O. Janson, and M. Wikland/Göteborg, Sweden)	95
Collection of Human Eggs for In Vitro Fertilization (L. Mettler, K. Semm, H.H. Riedel, V. Baukloh, and S. Paul/ Kiel, Germany)	99

Monitoring of Follicular Development in Gonadotropin Stimulated Cycles (V. Insler and G. Potashnik/Beer Sheva, Israel)	111
The Use of Clomid and hMG in Human In Vitro Fertilization: Consequences for Egg Quality and Luteal Phase Adequacy (J. Mandelbaum, M. Plachot, J.J. Cohen, A.-M. Junca and C. Debache/Paris, France)	123
 Part III. Structures and Fertilizing Ability of Spermatozoa	
Form and Function of Eutherian Spermatozoa in Relation of the Nature of Egg Vestments (J.M. Bedford/New York, N.Y., USA)	133
Methods for Assessing the Functional Capacity of Human Spermatozoa; Their Role in the Selection of Patients for In Vitro Fertilization (R.J. Aitken, A. Templeton, R. Schats, F. Best, D. Richardson, O. Djahanbakhch, and M. Lees/Edinburgh, U.K.)	147
 Part IV. In Vitro Fertilization and Embryo Culture	
In Vitro Fertilization of Human Eggs: Analysis of Follicular Growth, Ovulation and Fertilization (R.G. Edwards, S.B. Fishel, and J.M. Purdy/Cambridge, U.K.)	169
The Fine Structure of Normal and Abnormal Human Embryos Developed in Culture (A. Lopata, D. Kohlman, and I. Johnston/Melbourne, Australia)	189
Evaluation of Normal and Abnormal Human Embryo Development During Procedures In Vitro (L.R. Mohr, A.O. Trounson, J.F. Leeton, and C. Wood/Melbourne, Australia)	211
Influence of Follicular Volume and Oocyte Maturity on the Fertilization Rate of Human Oocytes (K. Diedrich, F. Lehmann, H. van der Ven, and D. Krebs/Lübeck, Germany)	223

Part V. Embryo Transfer and Intrauterine Development

Factors Controlling Normal Embryo Development and Implantation of Human Oocytes Fertilized In Vitro (A.O. Trounson/Melbourne, Australia)	235
In Vitro Fertilization of Human Oocytes: Factors Associated with Embryonic Development In Vitro, Replacement of Embryos and Pregnancy (S.B. Fishel, R.G. Edwards, and J.M. Purdy/Cambridge, U.K.)	251
Current Status of an In Vitro Fertilization Programme and Early Pregnancy Diagnosis (I. Johnston, A. Lopata, A. Speirs, M. Gronow, M. Martin, and K. Oliva/Melbourne, Australia)	271
Transfer of Human Embryos at Early Cleavage Stages (S. Trotnow, S. Al-Hasani, T. Kniewald, H. Becker, and T. Hünlich/Erlangen, Germany)	283
Factors Influencing Ovo-Implantation and Maintenance of Pregnancy Following Embryo Transfer (H.W. Jones/Norfolk, Virginia, USA)	293
Hormones and Proteins Involved in Uterine Preparation for Implantation (H.M. Beier, K. Beier-Hellwig, and R. Delbos/Aachen, Germany)	307
Early Hormone Parameters and Embryonic Development in Pregnancies Established by In Vitro Fertilization and Embryo Transfer (W. Feichtinger, P. Kemeter, S. Szalay, and H. Janisch/Wien, Austria)	329

Part VI. Animal Models for Egg Transfer and Embryo-Maternal Interactions

Field Trials with Cryopreserved Bovine Embryos (G.E. Seidel, R.P. Elsdon, T. Takeda, and G.D. Farrand/ Fort Collins, Colorado, USA)	343
The Developmental Potential and Regulatory Capacity of Blastomeres from Two-, Four-, and Eight-Cell Sheep Embryos (S.M. Willadsen and C.B. Fehilly/Cambridge, U.K.)	353
Nonhuman Primate Models for Egg Transfer (D.C. Kraemer, G.T. Moore, M.A. Kramen, and B.L. Flow/ College Station, Texas, USA)	359

Growth and Differentiation of Rabbit Blastocysts in Defined Culture Media (H.M. Beier, U. Mootz, B. Fischer, and R. Ströbele-Müller/Aachen, Germany) .	371
Synthetic Capabilities of the Preimplantation Conceptus and Maternal Responses to Pregnancy (R.B. Heap, L.D. Staples, A.P.F. Flint, F.M. Maule Walker, and W.R. Allen/Cambridge, U.K.)	387
 Part VII. Aspects of Medical Jurisprudence	
The Legal Situation in the Federal Republic of Germany Regarding In Vitro Fertilization of the Human Egg (W. Spann/München, Germany)	415
 Subject Index	 421
