

Contents

I. Intelligent Collaborative Systems and Applications

- Wikipedia as a Source of Ontological Knowledge: State of the Art and Application** 1
Angela Fogarolli
- Toward a Methodology of Collaborative Modeling and Simulation of Complex Systems**..... 27
Benoit Gaudou, Nicolas Marilleau, Tuong Vinh Ho
- Role-Based Collaboration Extended to Pervasive Computing** 55
Kahina Hamadache, Luigi Lancieri

II. Intelligent Networking and Resource Management

- Evolving Schedules of Independent Tasks by Differential Evolution** 79
Pavel Krömer, Václav Snášel, Jan Platoš, Ajith Abraham, Hesam Ezakian
- A Lightweight Approach to Distributed Network Diagnosis under Uncertainty** 95
Javier García-Algarra, Pablo Arozarena, Sergio García-Gómez, Alvaro Carrera-Barroso, Raquel Toribio-Sardón
- A Multi-lane Double Auction for Economic-Based Service Management in the Cloud** 117
Xavier Vilajosana, Daniel Lázaro, Angel. A. Juan, Joan Manuel Marquès

Decentralized Self-optimization in Shared Resource Pools	149
<i>Emerson Loureiro, Paddy Nixon, Simon Dobson</i>	
Monitoring and Performance Analysis of Workflow Applications in Large Scale Distributed Systems	171
<i>Dragos Sbirlea, Alina Simion, Florin Pop, Valentin Cristea</i>	
Scaling Relations of Data Gathering Times in an Epidemically Data Sharing System with Opportunistically Communicating Mobile Sensors	193
<i>Akihiro Fujihara, Hiroyoshi Miwa</i>	
 III. Intelligent Secure and Resilient Networking Systems	
Multilaterally Secure Ubiquitous Auditing	207
<i>Stefan G. Weber, Max Mühlhäuser</i>	
Intrusion Detection in Multi-Agent Systems	235
<i>Bogdan Ghit, Florin Pop, Valentin Cristea</i>	
A Round-Based Cover Traffic Algorithm for Anonymity Systems	257
<i>Marta Rybczyńska</i>	
Fault Recovery Performance Analysis of Functionally Distributed Transport Networking System	281
<i>Kentaro Ogawa, Kenichi Higuchi, Shinichiro Chaki</i>
